Contraband Stamp Going on Cotton

Allied Powers Have Agreed To Take Momentous Step And Washington Is Notified

Allies Contend That Orders in Council Have Failed to Keep Cotton Out of Germany and More Effective Method Must Be Adopted. American Precedents Are Cited in Defense of the Action—Washington Is Preparing to Resist Move With Every Means at Command of Diplomacy.

Washington, August 16.—The allies' intention to declare cotton contraband has been communicated unofficially, but authoritatively, to the state department. The department's advice is that the decision has been reached and the delay in making an announcement is due to the necessity of arranging uniform treatment of the subject by all of the allies.

The step has been agreed upon by Great Britain, France, Russia, Italy and Belgium, but Japan's attitude has not been defined, and she may decide that no action is called for from her at this time, because of the elimination of the only German colony in the Far East from the military problem and the absence of any reason for a blockade.

COTTON SHIPPED TO GERMANY.

Ever since the application of the British orders in council to cotton, among other American products, the entente allies have felt that some more effective and less burdensome method must be found for dealing with cotton and preventing its entry into Germany and Austria. The allies contend that American cotton shippers, in many cases alleged to be backed by German capital, have been shipping cotton to Germany through neutral ports.

Under the orders in council such a cargo, if captured, merely was taken into a British port and paid for by the British government. The allies contend that under these conditions a great deal of cotton not through Sweden, Denmark and Holland into Germany. From the allies' point of view the orders in council were ineffective because they obliged the British government to buy cotton and at the same time offered an incentive to blockade runners.

PRESSURE CAUSED ACTION.

According to the advices reaching Washington the pressure in England and France has compelled a change. The British government originally regarded cotton as non-contraband and expressed a desire to avoid inflicting hardship upon southern planters and to avoid development of an anti-British feeling in this country.

The change to contraband will be defended as authorized by international law. Great Britain protested against the American blockade of outgoing cotton from the south during the civil war, and had refused to recognize it as contraband during the Russo-Japanese war, but will now contend that radical changes in the conditions of warfare since that time justify a change in attitude.

U. S. PRECEDENTS CITED BY ALLIES.

The entente powers, according to advice here, expect that the state department will resist making cotton contraband and are preparing to base their action on American precedents. The advices reaching here indicate they intend to argue that both Presidents Lincoln and Johnson, in formal proclamations issued in April, May and June in 1865, went on record as maintaining as contraband of war "material for the fabrication of ammunition." That cotton has taken the place of saltpetre, always recognized as absolute contraband in the manufacture of gun powder, will be held to be an established fact, and by way of convincing the state department to that fact attention probably will be directed to a letter by Secretary Hay to W. W. Rockhill, American minister to China, during the Russo-Japanese war, stating that the American ordnance officers whom he had called into consultation regarding the Japanese blockade orders had advised him that cotton was used in the manufacture of

MEXICAN RAIDERS ATTACK OUTPOST OF U. S. TROOPERS

Corporal Wilman of 12th Cavalry Killed and Lieut. Roy Henry and Two Privates of Same Command Wounded.

Brownsville, Texas, August 16.—Armed Mexicans in force crossed the Rio Grande at a ford near Mercedes tonight, attacking an outpost of half a dozen cavalrymen at Saenz. Ranger Lieutenant Reynau, at Mercedes, telephoned State Adjutant General Hutchings here that Corporal Wilman, of Troop O, Twelfth Cavalry, was killed in this fight, and Lieutenant Roy O. Henry and two privates of the same troop were wounded. 270 Mexicans in Raid. Reynau said he understood 270 Mexicans had crossed, and that they were coming to attack Mercedes. Reynau reported that the Mexicans had crossed the border in three bands, and were advancing toward Mercedes. Reynau reported that the Mexicans had crossed the border in three bands and were advancing toward Mercedes. About 70 United States cavalrymen and a half dozen Texas Rangers are stationed at Mercedes. Reynau said it was reported that in addition to the Mexicans who had crossed into Texas a large number of others were assembled on the Mexican side. Reinforcements of rangers and soldiers.

THE HIGH COST OF LIVING

Each family pays \$60 more for living expenses than it did ten years ago. The greater part of this increase, goes into the higher cost of food products. War and hard times have not materially checked the upward tendency. This financial barometer gives a very important reason why people should buy intelligently. Proper selection of time, place and merchandise frequently means lessened prices. Towards this latter solution the advertising columns of The Constitution point the way. They give the information that leads to intelligent buying.

GALVESTON STRUCK WITH FULL FORCE BY TROPIC STORM

Latest Reports, However, Indicate that the Great Sea Wall Saved City from Serious Damage or Loss of Life.

ABOUT 5,000 PERSONS FLED FROM TEXAS CITY

At 10 O'Clock the Wires Went Down But Up to That Hour No Great Damage Had Been Reported. The Wind Reached Velocity of 75 Miles an Hour.

Dallas, Texas, August 16.—The full effects of the West Indian hurricane which passed through the Yucatan channel yesterday were felt along the Texas Gulf coast late today and tonight, the wind reaching a velocity of 70 miles an hour. Up to a late hour no loss of life or serious damage to property or shipping had been reported. Galveston, reported the sea wall withstanding the force of the wind-lashed waters and with the exception of minor damage as a result of the flooding of the streets on the bay side of the city, the property loss was negligible up to 10 o'clock.

Sabine, Texas, reported a wind of 65 miles an hour and at Port Arthur the gale reached a velocity of 45 miles at 10 o'clock.

Abandoned Their Homes.

The majority of the residents at Sabine and Sabine Pass, as well as the numerous summer camps and resorts along the coast, moved to places of safety last night and early today. At Galveston residents along the beach abandoned their homes and spent the night in the more secure buildings in the business district. The towns of Rollover, Caplen, Patton and Bolivar were reported under water. All of these towns were deserted last night.

Later tonight a newspaper correspondent attempted to go from Port Arthur to Sabine in an automobile, but was forced to abandon the trip. "The wind would have blown our machine away if we had continued the trip," he declared. Efforts to charter a boat to reach Sabine were futile, sailors refusing to make the trip.

Wires to Galveston Down.

Wire communication with Galveston, which was maintained from Houston early tonight, was cut off at 10 o'clock when the last of the wires between the two cities was left in a tangled mass. Later reports received by wireless at Brownsville from the United States transport Buford in Galveston harbor, reported several vessels overtaken by the storm. A ten-foot tide was reported.

Efforts to communicate with army headquarters at Texas City, across the bay from Galveston, tonight, were futile.

Communication with Beaumont, Texas, also was cut off shortly after 10 o'clock, and it was believed by the weather observer at Houston that the hurricane had left the gulf and had struck the mainland between that city and Galveston.

A train was started from Houston over the Southern Pacific railway tonight in an effort to reach Galveston. At last reports the causeway between Galveston and the mainland was intact, and it was believed that the train would be able to cross early tomorrow. The last interurban car to leave Galveston late today was an hour crossing the causeway.

GALVESTON SAVED BY SEA WALL.

The city along the wharf front, in front of The News building the water was about one foot deep, running even with the curbing. At 8 o'clock tonight the highest wind

AMERICAN DOLLAR CROWNED AS CZAR OF MONEY WORLD

Foreign Exchange Drops to New Depths in Torrent of Bills From Manufacturers Seeking Pay for War Contracts.

New York, August 16.—The American dollar ruled the financial world today with an iron grip. Foreign exchange went down to new depths in a torrent of bills that poured into the exchange markets from American manufacturers seeking pay for big war contracts.

Coincidence with the startling decline in exchange rates came the assertion from an unimpeachable source that every contract for supplies sent abroad called for payment in American dollars and not pounds sterling, which heretofore have been the standard of finance the world over. The immense losses, therefore, due to the decline in foreign exchange rates will be borne, to the last penny, by foreign buyers—a situation exactly the opposite of what had heretofore been the popular belief.

The Maximum Depreciation.

The maximum depreciation today in pounds sterling was 4 3/4 per cent below normal; in francs 19 per cent below normal; in Italian lire 25 per cent. In the money markets today the pound sold for only \$4.44, 62 francs equaled a dollar, and a dollar purchased 4.48 lire. These were the quotations while rates were at the lowest. In the last hour of business the presence in Wall street of J. P. Mor-

Prisoner Rushed From State Farm In An Automobile

Mob of Twenty-Five Men Invades Dormitory, Overpowers the Warden, and Takes Charge of prisoner. "Will Place Frank's Body on the Grave of Mary Phagan in Marietta" Declared Member of Mob. Frank Made Desperate Resistance.

At 6 o'clock this morning posses of state officers and citizens from Baldwin and a number of other counties were still vainly seeking the mob which shortly before midnight last night abducted Leo M. Frank from the state prison farm, at Milledgeville, where he has been confined since his sentence was commuted to life imprisonment.

One posse from Milledgeville is headed by Captain J. H. Ennis, member of the legislature. He was one of the first to learn of the action of the mob at the state prison farm. Officials in practically every county in the state have been notified to be on the lookout, and the governor has announced that he will extend the Baldwin county authorities every aid in his power.

Milledgeville, Ga., August 16.—A mob variously estimated at between twenty-five and seventy-five in number, overpowered warden, superintendent and guards at the Georgia state prison farm, near here, at 11 o'clock tonight and quickly got Leo M. Frank and rushed him away in an automobile.

First reports that it might be friends of Frank were dispelled when a prisoner said he had heard a member of the mob say that Frank's body would be placed tomorrow on the grave of Mary Phagan, at Marietta. Frank was serving a life term for the murder of the girl.

The mob was orderly, but worked with quick precision. Eight automobiles took the men to within a short distance of the prison. First all wires from the prison, and all except one from Milledgeville, were cut.

Five men went to the house of J. T. Smith, warden, covered him with pistols and stood guard over him. Other men went to the house of J. M. Burke, superintendent of the prison, and held him under cover of their guns.

Practically every other member of the mob then rushed to the stockade gate nearest the dormitory where Frank was being housed. Only yesterday the physicians discharged him from the hospital, where he had been since being murderously assaulted in the dormitory by William Green.

TWO GUARDS ON DUTY.

As on the night Frank was attacked only two guards were on duty. The mob quickly over-powered chief Night Guard Hester and the other man on duty, proceeded to the dormitory and within a few minutes seized Frank and rushed him back to the automobiles.

Those who had been holding Smith and Burke left as soon as Frank was brought out and joined their fellows. The automobiles—reported to number eight—then were started in the direction of Eatonton. Nothing more had been heard of them hours after they left.

Only one member of that part of the mob that went to the dormitory talked. He gave the commands to the guards which were backed up by the arms of the other members of the mob.

FIVE MEN MASKED.

Five were masked out of the thirty-five. They said they were from Marietta. Warden Smith's gasoline was emptied out from his automobile. The five men brought Frank out.

GOVERNOR SHOCKED.

When notified by The Constitution early this morning of the affair, Governor Harris declared: "I am both shocked and aggrieved, and in common with all good people of Georgia who stand for law and order, I feel that a great wrong has been done, that our state will not look with approval on such an act."

The governor stated that he would put forth every effort in his official power to apprehend the members of the mob, should he be called on to furnish aid to the authorities at the state farm and in Baldwin county.

Notifying local officials a posse was formed that started in pursuit of the mob at 2.30 this morning nothing had been heard from the searching party. Prison Commissioners Davison and

holding him by hands and feet and hair Frank resisted but to no avail. He mumbled but the excitement was no nothing can be remembered. The mob left Warden Smith and Superintendent Burke handcuffed and they tied Frank's legs. Everything was done quietly, members of the mob saying they didn't want to anyone's head, only wanted Frank.

ENNIS HEADS POSSE.

Headed by Captain J. H. Ennis, representative in the legislature from Baldwin county, and the first in Milledgeville to learn of the smuggling of Frank from the prison farm, a posse of several automobiles filled with local officers started in pursuit of the mob of twenty-five shortly before 1 o'clock.

According to the story told to Captain Ennis by several negro convicts who were not locked up, a mob of twenty-five men in seven or eight automobiles arrived at the farm at 11 o'clock, overpowered and tied Warden Smith and two guards who were sleeping on the front porch, and went directly to the room where Frank was asleep.

The negroes rushed to the home of J. H. Satterfield, bookkeeper at the farm, and who lives on the state property, and told him that the mob had left with Frank, taking the road toward Eatonton, due north of here. Mr. Satterfield took one of the automobiles kept at the farm and went direct to Milledgeville, notifying Captain Ennis.

Captain Ennis sought to get in communication with the state farm, but found all telephone wires cut. The wires he found had also been cut on the Macon, and Atlanta lines.

Notifying local officials a posse was formed that started in pursuit of the mob at 2.30 this morning nothing had been heard from the searching party. Prison Commissioners Davison and

smokeless powder and so must properly be regarded as contraband of war. TO LIMITED COTTON FOR NEUTRALS. It is expected that some sort of arrangement will be proposed by which the allies will engage to allow cotton to travel unmolested to neutral countries in quantities in proportion to their normal consumption. What the effect will be on the American cotton growers is the subject of contention. The allied powers are contented to argue that it will not be far-reaching. The cotton interests have for some time been alarmed at the prospect and it is known that the state department has been preparing to resist the new move with every means at the command of diplomacy.

WEDGE IS DRIVEN IN RUSSIAN FRONT BY GERMAN FORCES

Berlin Claims That the Left Wing of Bavarian Army Has Fought Its Way Across the Bug River.

GERMANS ALSO DRIVING AT KOVNO FORTRESS

Successful Attack Is Claimed on the Advanced Defenses—Petrograd Again Claims the Germans Have Been Driven in Courland.

London, August 16.—Berlin declares the left wing of the Bavarian army, under Prince Leopold, has fought its way across the Bug river near Drohiczyn, which is east of Sokolow, 50 miles northeast of Brest-Litovsk. This forms a slight wedge in the Russian front, virtually straight since the Warsaw salient was abandoned. Field Marshal von Mackensen also is reported to be pushing back the Russians along the Bug. His troops are reported advancing along the eastern bank. Farther west Von Hindenburg is credited with a successful attack on the advanced defenses of Kovno, as well as a successful attempt to break the Russian lines between the Narva and the Bug after the Narva river had been crossed by the German army.

will make any further eastward progress of the invaders very costly. The double-track railroad which parallels the present fighting line, running from Osmowetz to Bjalystok, Brest-Litovsk, and Minsk, is being protected by dense forests and by the marshes of the upper Narva. The German flanks have removed fear that the Russian army would be bottled up. Evils of the offensive have been reported since power is found in the reported removal of a portion of the German troops from the Silesian-Lukow front to the Baltic region. These troops are said to have been replaced by Austrians.

THOUGHT OF BUTTERMILK

Only one man in the crowd of patients could be found who had noticed anything wrong with the buttermilk at the time he drank it. E. Sullivan, a driver for the Piedmont laundry, stated that he noticed an unusual amount of sediment in the bottom of his can when he had drunk the buttermilk, and had been careful not to swallow any of it.

ARTILLERY ACTIVE ON WESTERN FRONT

Paris, August 16.—Tonight's official communication said: "Violent artillery fighting occurred throughout the day on a great many points of the front. The heaviest fighting was in the region of Quenneviers and silenced his fire on the night of August 15. The German forces were repulsed with heavy losses in the region of Quenneviers and in the western part of the Argonne.

GERMANS DRIVEN, RUSSIANS CLAIM

Petrograd, August 16.—(Via London.) Tonight's official communication said: "In the Buzak district (Courland) the night of August 15 our troops again drove the Germans back toward the river. The enemy's counter-attacks were repulsed.

RUSS OFFICERS ARE CONFIDENT

Petrograd, August 16.—(Via London.) The military situation is viewed by Russian army officers with optimism owing to the manner in which the Germans have been checked at the Erma, east of the Silesian-Lukow front, where the invaders lost 800 prisoners in addition to many dead and wounded. Confidence is felt that the Russians

to such an extent as to make any one seriously ill, although isolated cases have come to my attention in recent years. "It is true," continued Dr. Smith, "that Milk Inspector Brown visited both branches of the Forrest Park dairy Monday morning to make his inspections, and found everything in good condition on the part of the dairy managers which resulted in the bacteriological report. It is just one of those things that will likely appear in buttermilk at rare intervals.

GERMANS PRESS RUSSIAN FORCES

Berlin, August 16.—(Via London.) Field Marshal von Mackensen, continuing his pursuit of the retreating Russians from the south toward Brest-Litovsk, has occupied Ciale and Siawatyca, according to the German official communication today. The army of Prince Leopold of Bavaria, pressing the Russians toward the Baltic, is reported to have advanced to the Silesian-Lukow front.

BACTERIAL POISON

"Immediately on hearing of the sick patients I visited our branch at Peachtree and Tenth streets, and secured a sample of the buttermilk which was making the people sick from a butcher, who said he had drunk some from the can. I immediately carried to Dr. Cason's laboratory for bacteriological examination, who pronounced the milk as containing bacterial poison likely to cause the illness.

POISON RARE IN BUTTERMILK

"Bacterial poison occasionally shows up in our milk, though it is very rare in Atlanta in several years. It is very rarely shown up in buttermilk.

That longing for the rugged health of Youth

Alas, the dreams of happy boyhood days profit naught—we are "made to tread the milks of toil." And the nearest we can come to bringing back the sunny days of youth is to make timely amendments for the heavy overdrifts made by work and worry. And this you can do with Sanatogen. Sanatogen is a food-tonic combining purest albumen and organic phosphorus in a form so easily assimilated that it is ideal for feeding the blood and tissues with the essentials of body strength and endurance—reviving the vitality—bettering the digestion—imparting a fresh fund of energy and health to a "slowing-down" system. All this is not theory but established experience. Hundreds of famous men and women have written letters fully as enthusiastic as those of John Burroughs and Colonel Waterston—reproduced here—telling us how Sanatogen has helped them. Over 21,000 physicians, who have seen the work of Sanatogen in daily practice, have written us sincere acknowledgments of the tonic and upbuilding value of Sanatogen. Sanatogen will earn words of praise from you—if you give it the opportunity to help you. Send for Elbert Hubbard's new book—'Health in the Making.' Written in his attractive manner and filled with his shrewd philosophy, together with capital advice on Sanatogen, health and contentment. It is FREE. Practically all of the men told the same tale of how they had been taken ill about two hours after they had eaten their dinner. A few of the men whose cases were mild were allowed to go to their homes after noon, had been given treatment at the hospital. Most of them, however, were placed in wards there. E. E. Whitman when seen by a Constitution reporter Monday night stated that it was at the hospital with a number of other peddlers at noon. He stated that practically all of them went in and bought a quart of buttermilk for which they paid 5 cents. "After we finished our dinner," stated Mr. Whitman, "we went on with our work. I commenced to feel sick about 2 o'clock and I commenced to fall to the sidewalk and commenced to draw up all over. I was too sick to know what I was doing after that until I got to the hospital. Noted American Sculptor Inspects Stone Mountain for U. D. C. Monument

Gutson Borglum, one of the noted American sculptors whose achievement is international, is the guest of the Atlanta Confederacy, for the Daughters of the Confederacy, for the purpose of inspecting Stone Mountain in order to present a plan for the monument of the confederacy, which the Daughters of the Confederacy will establish there.

Mr. Borglum arrived in Atlanta Sunday evening, and yesterday was the guest of Mr. Samuel H. Venable at Stone Mountain. Mr. Venable having generously proposed to deed to the Daughters of the Confederacy that portion of the mountain covers and which is his private property.

Mr. Borglum was accompanied to the mountain by Mrs. Helen Plane, honorary president of the Atlanta chapter of the Georgia division and of the Atlanta chapter; Mrs. T. T. Stevens, regent of the Atlanta chapter; Mrs. Hugh Willet and Mrs. J. C. Wynn, secretary of the Stone Mountain Memorial organization, composed of members of the U. D. C.

Mr. Borglum had familiarized himself through letters and by photographs with the size and proportions of Stone Mountain, he was amazed at its size and beauty when he saw it.

"Stone Mountain is a national treasure," he said after a casual survey of it, in it are possibilities for a monument that will not only be unique in this section and country but unique in the world.

The locality, the setting and the surroundings make of it a center where the monument and park can be made, and the Daughters of the Confederacy have before them a work which will inspire the greatest enthusiasm.

Asked if he had any plans as yet for the design which it is proposed by the Atlanta chapter to present to the general U. D. C. convention in California, Mr. Borglum stated that he would be unable even to discuss a design until he had accumulated more data pertaining to the mountain and had studied more carefully the proportions and surroundings.

After his survey of the mountain, which Mr. Borglum continues today, he will make his report to Mrs. Helen Plane, who has founded the Stone Mountain Memorial association.

Mr. Borglum declared it had been the dream of her life to see a monument to the confederate cause that would not only rank with the greatest of the world but be of world note from an artistic standpoint.

RECALL MEETING HELD IN THE SEVENTH WARD

Speakers Rap Harmony Proclamation of Alderman I. N. Ragsdale.

At a rousing meeting last night at a hall in the West End bank building of the seventh ward recall campaign committee, augmented by more than 100 volunteer workers, plans were made for a thorough canvass of the ward for signers to petitions to call an election for the recall of Mayor Woodward and the other six members of the police commission who voted to demote former Chief of Police James L. Beavers.

Following addresses by Attorney John W. Crenshaw, chairman of the meeting, Walter McElreath, Councilman J. C. White, and J. L. McCord, of the second ward, the seventh ward registration list was canvassed and by the use of a card index system lists of voters' names were given out to each volunteer to be taken to their homes.

The ward meeting last night was the first of a series of ward meetings to be held in each of the ten city wards. The fourth ward meeting will be held at 8 o'clock at the North Avenue schoolhouse and voters of the ward as well as members of the fourth ward recall committee are invited to attend. There will be addresses by several prominent men.

Displaying a copy of Monday's Constitution, Mr. McElreath called attention to the fact that the recall bill, which he introduced, is now in the hands of the committee on the subject of the recall of the mayor and the other six members of the police commission.

Mr. McElreath stated that he was keeping the signed petitions in his safe and he is looking for more space.

MEXICAN RAIDERS ATTACK U. S. OUTPOSTS

HUTCHESON KILLED BY JOHN ANDERSON

Fitzgerald, Ga., August 16.—(Special.)—Jack Hutcheson, a painter, 28 years old, was shot and killed here tonight at 10 o'clock by John Anderson, an automobile mechanic, 35 years old, and Anderson was himself shot in the leg by Sheriff W. H. Fountain, when he tried to escape. It is not yet known how seriously Anderson is wounded.

Anderson and Hutcheson engaged in a quarrel at Grant and Pine streets, in the center of town tonight, the cause of the quarrel not being quite clear. Suddenly Anderson pulled his revolver and fired five shots. Max Webb, an eye-witness, stated that Hutcheson fell at the first shot, and that Anderson fired the other four shots into his body as he lay on the street.

After the shooting Anderson started to run but was stopped by Sheriff Fountain, who was standing nearby with his deputy, Sam Rhodes. Sheriff Fountain shouted to Anderson to stop, but Anderson kept going. "Stop or I'll shoot," repeated the sheriff.

Anderson falling to stop, Sheriff Fountain fired twice, one shot taking effect in Anderson's leg and the other in his hip. Keeney, who is said to have had some part in the quarrel, is held as a material witness.

Both of the principal in the fight live here and are married. Hutcheson is formerly from Fernandina, Fla. The street was crowded by visitors to the confederate reunion at the time of the shooting.

TRY THIS EASY WAY TO HEAL YOUR SKIN WITH RESINOL

If you are suffering from eczema, ringworm or similar itching, red, unsightly skin affection, bathe the sore places with Resinol Soap and hot water, then gently apply a little Resinol Ointment. You will be astonished how instantly the itching stops and healing begins.

HEALED BY CUTICURA SOAP AND OINTMENT

"Several years ago I began to find dandruff on my scalp, and my hair would fall out very bad at times. There were scales on my scalp, and my scalp was very sore and pimples would appear. My scalp itched and would become irritated when I scratched it, and the dandruff would be seen on my coat collar. At times my hair came out by handfuls, and last fall I was almost bald. Then I tried Cuticura Soap and Ointment. After a few washings with the Cuticura Soap and applications of the Ointment my scalp became clean and my hair stopped falling out." (Signed) P. C. Seary, Black Mountain, N. C., March 22, 1915.

Purchasing Agent May Be Placed in Charge by Action of Council.

Councilman W. H. Johnson, of the fifth ward, Monday introduced in general council an ordinance which contemplates putting in charge of the purchase and distribution of all school books used in Atlanta public schools. The measure was sent to the finance committee for investigation and report.

The measure in question provides that the purchasing agent shall purchase school books at wholesale prices and resell them to pupils at the wholesale price plus about 5 per cent, which would take care of the cost of handling and storage.

Councilman Johnson argued that the proposed new system would mean a saving of thousands of dollars annually to school patrons, in that it would save them the profit of the book stores. The details of the system, he stated, would be worked out by the purchasing agent, the superintendent of schools and representatives of the various book concerns furnishing books to the city.

Another measure which precipitated a lively contest was a resolution by Alderman John S. Owens carrying with it a request that the board of education be asked to change the geography for the schools. The resolution passed after a long debate.

New York, August 16.—(Special.)—The markets are lower today in expectation that the tropical storm in the Gulf of Mexico will be severe. With the market feeling in trading, and failed to inspire much fresh buying, and prices eased off late in the afternoon with the close steady as net decline of 7 to 8 points.

The market opened unchanged to an advance of 3 points in sympathy with Liverpool, but there was no foreign buying of consequence here, and prices soon worked some 2 or 3 points lower.

Private wires from Galveston reporting a wind of 70 miles an hour and very heavy water tendency to increase nervousness during the middle of the day, but there was little demand in evidence, and later reports from Galveston said there had been good rains, but no damage from wind.

Storm influences New Orleans market. New Orleans, August 16.—The tropical storm was the dominating influence in the cotton market today, and depressed prices because it was believed the rains it brought were of enough force to injure the crop.

Private reports during the day told of considerable rain in the Gulf of Mexico, especially in Texas, and it was generally considered that the drought in that state was broken.

A WANT AD WILL GENERALLY BRING A JOB TO A GOOD MAN

A great many employers of men watch the applications made for work through the "Situation Wanted" column of The Constitution want ads. When the right man asks for a job in the right way—in the right place—he's pretty sure to catch the eye of some employer who will recognize the fact that the man who has brains enough to advertise for a position would make a pretty good man for his organization.

Many men who are working, and think themselves capable of doing something better, often secure a BETTER position by advertising in the "Situation Wanted"—holding on to their position until they land a better one. Situation Wanted Ads—

Just Common Sense

Before using glasses at all one should be convinced that the Oculist or Optician whom you consult should be men of ability and integrity. Neglect to carefully investigate this important matter has cost many individuals considerable eye troubles and many dollars besides.

The broad and varied experience, the good business judgment and high moral character of each employe of our firm is ample assurance that when your eyes are in our care they are carefully safeguarded.

It is to this feature, mainly, that our firm owes its phenomenal success.
