

CITY WILL SPEND NEARLY \$700,000 ON IMPROVEMENTS

Plans for Street and Sewer Work Comprehend the Employment of Two Thousand Men.

THIS DOES NOT INCLUDE COUNTY CONVICT LABOR

Representatives of the Ten Wards of the City Submit Definite Plans for Paving and Regrading.

Plans which comprehend the expenditure of nearly \$700,000, and the employment of more than 2,000 men in addition to the convict labor on street and sewer improvements, were launched at a joint meeting of the street committee of council and the public works committee of Fulton county Tuesday afternoon.

Representatives of the ten wards of Atlanta who are members of the street committee submitted definite plans for street improvements. These plans, if carried out, will mean that the city's appropriation of \$228,000 for streets and \$359,000 for new sewers and sewer extensions will be spent before the end of the year, which will mark, according to city officials, the most progressive year in the history of the city.

County Will Co-Operate

It is the desire of the county commissioners to co-operate with the city in every possible way to get the extensive improvements through, explained commissioner W. Tom Winn in outlining the plans of the commission. "On the other hand, we want the city to co-operate with the county. If both sides get together on a co-operative basis I believe that we will get through more work this year than ever before."

Requests for work from the ward representatives were taken under consideration by the county commissioners. The public works committee, which is composed of commissioners W. Tom Winn, Jeff Hightower and Oscar Mills, is holding meetings every day for the purpose of arranging a program to guide the city and county in all street improvements and sewer extensions during the year.

Next Friday afternoon the street committee of council will hold its regular meeting. At this session the city and county will reach an agreement as to which of the several big projects will be launched.

Among the improvements which have given the city and county and property owners the most concern is the extension of the sewer and Highland avenue sewers. Members of the fourth ward in council—Alderman Thomson and Councilmen Ashley and Farlinger—have not asked for any improvement of street tracks as they will center their efforts in the direction of extending the two sewers. The Highland avenue-St. Charles avenue-St. Louis trunk sewer will be extended \$500,000 north, at an estimated cost of \$7,000, and the Highland avenue trunk sewer will be extended just as far as the expenditure of \$17,000 will permit.

Members of the fourth ward delegation figure that if they get the work on the sewers rushed, they will be satisfied insofar as street improvements are concerned, in the paving of North avenue extending through the eighth and fourth wards.

Widening of Bottle-Neck

The widening of the bottle-neck from the junction of Forsyth and Carnegie way will be completed this year at a cost of \$10,000. The money has been provided for in the finance sheet, and already a little more than \$8,000 has been authorized spent to reimburse property owners for the expense of the property they have deeded over to the city to make the widening possible.

This year the finance committee provided a fund of \$65,000 for street ordinary purposes. The money has been passed up by the street committee, has been prorated equally among the ten wards, each ward getting \$6,500 and a fund of \$5,000 created for use of the construction department for emergency purposes.

Work of Resurfacing

For the work of resurfacing and resurfacing of asphalt and bituminous in the city, the county proposes that the city, in lieu of furnishing material on the several jobs, pay the county the following prices to cover in full all cost of the work.

For three inches new stone, asphalt binder, 50 cents per square yard; for two inches, 42 cents; for three inches tar binder, 47 cents; for two inches, 35 cents.

The work will necessitate the use of machinery, and the employment of twelve free laborers and thirty convicts. Where these are employed the convicts will loosen the old surface with picks and shovels.

In a number of cases more than three inches of stone will be required, but the county proposes to take care of same without cost to the city, using the best obtainable material. The county also agrees to take care of all hauling and other work incident to paving the city is to indicate to the county the work to be done, and make the appropriation for same available as the work progresses. So that the county can pay for all material used by the city.

FATAL SHOOTING ENDS QUARREL ABOUT GIRL

Gordon, Ga., February 23.—Ira Bloodworth, 18, was shot and killed here tonight. The police are looking for Tuss Mixon. A love affair is said to have caused the shooting.

At a party a couple of weeks ago Mixon and Bloodworth are reported to have had a disagreement over a girl. Today Mixon was at a farmer's home and is said to have noticed Bloodworth approaching.

It is alleged that Mixon ran into the road and said "Get off the wagon, say your prayers, I'm going to kill you."

Bloodworth, witnesses say, dropped to his knees and Mixon shot him with a shotgun, the charge taking effect two inches above the heart.

Bloodworth is a member of an old family here. Mixon had not been located at a late hour.

NEW QUEEN REIGNS IN THE DAIRY WORLD; SHE'S AN OHIO COW

Columbus, Ohio, February 23.—Tests completed today by the dairy department of the Ohio State university disclosed a new world's record in milk production, according to figures made public tonight. The new queen of the dairy world is Murne Cowan, a 5-year-old Guernsey cow, who during the last year produced twelve tons of milk.

According to the university figures the cow's milk averaged 5 per cent in butter fat. During the year she produced 1,095 pounds of butter fat, which churns into 1,400 pounds of butter.

Murne Cowan's home is a farm near Harberton, Ohio.

Commander Briggs Dead

Washington, February 23.—Commander John E. Briggs, retired, executive officer of the cruiser Baltimore at the battle of Manila bay, died here today. He will be buried in Everett, Mass.

Court Room Sobs Of Crippled Child Free Her Father

The officer had told his story. The man had been drinking. He had violated the law and there was nothing to do but to punish him. The recorder looked down and saw standing by the prisoner's side a little crippled girl. A woman, who was silently weeping, was holding the child by the hand.

L. A. Williams, a young married man, who lives at 80 Corley street, was on trial. He acknowledged that he had been drinking. He said it was his first offense and with the help of Almighty God he would never drink a drop again as long as he lived.

"Just stop a minute," called out the recorder. "Is this your wife?" "The fit," was the reply. "Is this little cripple your child?" "She is my own dear little girl," Williams answered.

"Then you can go. I will not fine a man who has such a burden resting on his heart," the recorder continued. "Take your good wife and your little afflicted child and go home and make a man of yourself."

CARTER H. HARRISON BEATEN FOR 6TH TERM

Chicago, February 23.—Carter H. Harrison, now completing his fifth term as mayor of Chicago, was defeated today for the democratic nomination by Robert M. Sweitzer, clerk of Cook county. Sweitzer's plurality was estimated late tonight at more than 75,000.

The fight for the republican nomination was close. Harry E. Olson, chief of the municipal court, and William Hale Thompson were within 200 votes of each other, Olson having the lead.

Police patrols were on the move all day answering riot calls. Agnes Sullivan, 8 years old, was shot in the foot when a policeman fired into a crowd that attacked him.

The women's votes were on a different kind of ballot from the men's and showed a sturdy plurality for Sweitzer, although Harrison is a suffragist. Judge Olson held his lead tonight by grace of the women vote, the republican men giving Thompson a plurality.

Virginia Woman Selects Washington Monument As Stage for Her Suicide

Washington, February 23.—Mrs. W. F. Cockrell, of Delray, Va., jumped into the elevator shaft of the Washington monument at a landing near the top late today, and fell to the bottom, more than 500 feet below. She left a note addressed to her husband saying she was sure she could not recover from an illness.

Her body was crushed by striking the sides of the shaft on the way down, and she was dead before reaching the ground.

The district coroner issued a certificate of death by suicide. Mrs. Cockrell's farewell note, left in the monument, was closed for the day. Mrs. Cockrell went to the observation gallery near the top in the elevator. A few minutes later she walked down to the third landing and clambered between the steel rails that separate the elevator shaft from the stairway. Miss Edna Rockefeller, of Takoma Park, Maryland, rushing to Mrs. Cockrell's side, clutched at her clothing. The dress gave way, and Mrs. Cockrell plunged down the shaft.

A few hours earlier Mrs. Cockrell had gone with her husband to the office of a specialist on nerve troubles. She was 32 years old.

HOSPITAL AND JAIL CONDITIONS RAPPED BY GRADY BOARD

Superintendent Summerall Declares Present Clinic Is Little More Than a "Hole in the Wall."

Clinic conditions at the Grady hospital and conditions at a whole at the Fulton county jail came in for caustic condemnation at the hands of Superintendent W. M. Summerall, of Grady hospital, at the meeting of the trustees of that institution Tuesday afternoon.

Superintendent Summerall declares that the present clinic at the Grady hospital was nothing more than a "hole," where whites and blacks, male and female, mixed indiscriminately. He further stated that conditions at the Fulton county Tower were unfit for the housing of persons suspected of mental weakness.

Immediately following the talk by Superintendent Summerall, plans were set on foot for the securing of additional features for the hospital that will make it one of the best equipped institutions in the south.

Modern clinic facilities, a psychopathic ward, a social worker for the hospital, and uniforms for hospital and ambulance attaches, were urged by the superintendent and different trustees.

Dr. Summerall pointed out that the ranking of the Atlanta Medical college was jeopardized by the insufficient clinic facilities of the Grady, and declared that this institution was willing to donate \$7,000, without any strings tied to it, toward the erection of a modern clinic.

"Recently," said Dr. Summerall, "examiners appeared at the Grady to inspect our clinic, and notified the Atlanta Medical college, the students of which are dependent on the Grady for clinical training, that the college would have to arrange for better clinic training of its students if it expected to maintain its standing."

Dr. Summerall also declared that he had been told that the Fulton county commissioners were willing to give \$7,000 or \$8,000 toward the remodeling of one of the old buildings on the grounds of the hospital in which to house persons who are suspected of mental weakness and must be imprisoned pending an investigation by jury on a writ of lunacy.

Critiches Tower Conditions

Dr. Summerall said that the public department of the psychopathic ward, and pointed out that every free hospital of importance in the country had a psychopathic ward.

"Conditions at the Fulton county Tower," explained the superintendent, "are not fit to house these persons suspected of mental weakness, and if they are brought to the Grady hospital, where they can be placed under the observation of psychopathic physicians, many of them will be saved from being sent to the insane asylum at Milledgeville."

Dr. Summerall showed that with about \$5,000 from city council, \$7,000 from the county commissioners and an equal sum from the medical college, a sufficient amount would be on hand to remodel one of the older buildings at the Grady, and erect a modern clinic on the first floor and a psychopathic ward on the second floor.

Committee Is Named. Alfred C. Newell strongly supported Superintendent Summerall and endorsed the psychopathic ward and better clinic move. He led the fight for a consideration of the offers of the medical college and the county commissioners, and Colonel Robert J. Lowry.

U.S. Steamer Carib, Owned in Savannah, Destroyed by Mine Off German Coast

Berlin Says the Carib Was Not Using the Proper Route, and Makes the Same Claim in Regard to American Steamer Evelyn Destroyed Sunday—The Carib Was Owned by Walker, Armstrong & Co., of Savannah, and Was Carrying Cotton to Germany—Third Norway Steamer Sunk by Submarine—British Collier Also Torpedoed.

London, February 23.—Another American steamer, the Carib, has been destroyed by a mine off the German coast, while a third Norwegian, the Regin, has been torpedoed or destroyed by a mine off Dover. All the Regin's crew were saved by British destroyers and, although not stated in the dispatches from Berlin, it is believed the crew of the Carib also escaped.

SUBMARINE SHOOTS AT PASSENGER BOAT BEARING AMERICANS

Good Seamanship by Captain of the Victoria Saved Steamer and Passengers. Attack Made in English Channel—Paris Thinks the Submarine Was Afterwards Wrecked by Destroyer.

Paris, February 23.—A German submarine which for the past few days had been lying in the English channel in wait for steam packets plying between France and England Monday night fired a torpedo at the steamer Victoria while she was on the voyage from Boulogne to Folkestone with a number of passengers, including some Americans.

The captain of the Victoria, however, saw the wake made by the torpedo and slowed down his vessel and the torpedo passed harmlessly about 100 feet in front of her.

Submarine Probably Wrecked. The French Second light squadron was informed to keep a sharp lookout in the channel for the submarine.

The minister of marine announces that a torpedo boat belonging to the squadron sighted the submarine at 7:30 o'clock this morning, 8 miles southwest of Cape Aldrich, near Boulogne, and immediately opened fire and scored several hits before the submarine was able to dive.

The announcement adds that a wide patch of oil was seen afterwards on the sea at the spot where the submarine disappeared, and from this it is presumed that the submarine was wrecked.

Neutrals on Vessel. London, February 24.—(12.08 a. m.) The following statement has been issued by the official press bureau.

"The secretary of the admiralty announces that the Folkestone-Boulogne cross-channel passenger boat was attacked shortly after leaving Boulogne harbor by a German submarine. One torpedo passed thirty yards ahead of the ship.

"The passengers, numbering ninety-two, consisted of civilians and included a number of neutrals."

\$1,600,000 OF COTTON ON SEA FROM SAVANNAH

Police Here Don't Enforce Auto Law, Declares Phil Cook

Only 1,712 Out of 4,705 Automobiles in Atlanta Have Registered--Saturday Last Day.

The fact that out of the 4,705 automobiles in Atlanta, only 1,712 have registered with the secretary of state so far, is due to the failure of the Atlanta police to enforce the automobile law, according to the statement of Secretary of State Phil Cook.

There are in Atlanta approximately 4,705 automobiles, said Mr. Cook. Of this number, 3,933 have not yet complied with the law for 1915. Owners of such cars have only, from now until Saturday night to comply with the law. Monday will be March 1. Upon and after that date, any operator of an automobile which does not carry a 1915 tag, is liable to prosecution for a misdemeanor.

Autos Without Tags. There is no earthly excuse why practically three-fourths of the automobiles in Atlanta should have waited until almost the last day to register except for the fact that they do not fear arrest by the Atlanta police. Last Saturday afternoon, two automobiles made a tag of the city without a sign of a tag of any sort. This thing occurs regularly and is not interfered with.

County Police Frisked. Of the Fulton county police I have told that the automobile law is a state law and that, therefore, the local police do not pay any attention to it. Murder though is a violation of a state law, and I notice that endeavors are sometimes made to make arrests for this and other crimes. They are very efficient and faithful in the enforcement of the automobile law the moment they catch a violator outside the city limits.

CELEBRATION OF HOLY COMMUNION WEDNESDAY. The celebration of holy communion will be held by the members of the Episcopal churches in Atlanta Wednesday in St. Philip's cathedral. This is the anniversary of St. Matthias, one of the consecration of Bishop C. K. Nelson, of the diocese of Georgia and Alabama. Morning prayer will be held at 9 o'clock.

Everybody Knew When Atlanta Rotarians Held Celebration Of Their Birthday Tuesday

The Atlanta Rotary club held a birthday party yesterday--all day, but more especially at the Capital City club last night, and the Rome club came over to the party.

The event celebrated--and how it did celebrate--the tenth anniversary of the birth of Rotarianism. Atlanta has been apprised and not infrequently surprised at the result-producing proclivities of local Rotary activities and festivities on ordinary occasions. But yesterday's occasion was neither local nor ordinary.

There were telegrams of congratulations from Los Angeles and Dallas and Chicago and Mobile and Philadelphia and New Orleans, and there were speeches to the Rome and Atlanta Rotarians over the long distance by international Rotarian officials in Chicago, Toledo and Philadelphia.

A Striking Scene. Rome--Nero's, not Georgia's--in all her glory never presented a scene so regally gorgeous as the big banquet hall of the Capital City club when the Atlanta Rotarians ushered the visitors into it last night.

In the balcony an orchestra struck up "Tipperary" and the Rotarians took up the strain and the dinner had its record breaking pace. Fred Houser stood upon a chair and led the singing. When he had finished Wylie West made a speech.

Each Rome Rotarian answered to his name in full, and stated his business and was given ample opportunity to display his brilliancy. At the close of the roll call Wylie West made a speech.

POWERS ARE PRESSING IN REGARD TO MEXICO

They Want to Know What the United States Proposes to Do.

Washington, February 23.—Diplomatic representatives of various countries who have inquired as to the course of the United States in the Mexican situation have been advised informally that the administration is awaiting the outcome of conferences between Duval West, personal representative of President Wilson, with different leaders and between General Carranza and Charles A. Douglas, a Washington attorney.

Douglas went to Vera Cruz with Eliseo Arredondo, Washington representative of Carranza, to discuss with the first chief international aspects of the Mexican situation with a view to securing a better understanding of pending questions relating to foreigners and their interests.

Fifteen hundred Carranza soldiers were killed and many captured by Villa troops in Friday's battle at Zayula, according to General Villa's version of the fighting, forwarded from Chihuahua today to the state department. After the battle, Villa reported, he pursued the Carranza troops toward Manzanillo. Villa said his own losses were 100 killed and 250 wounded.

Every man was wondering who he was, when Bert Adams declared that he was Hugh O'Connor, representative of the Rotary club of Dublin, Ireland. Mr. O'Connor made a speech in his broad Irish brogue, and had just about got away with it when his side-whiskers slipped and fell into his mouth.

2 KILLED AND 12 HURT IN A BIRMINGHAM FIRE

Birmingham, Ala., February 23.—Two men were killed and twelve injured, one fatally, in a fire which destroyed the Buyc & Thomas building early this morning, and caused damage estimated at \$75,000. The fire originated in the paint shop of the Robertson Hardware company, and spread to the Windsor hotel, where the dead men were sleeping. The bodies were badly burned that identification is impossible. Roomers in the hotel were caught by the fire and forced to jump to the ground, three stories below. J. W. Burney being fatally injured while being hoisted to the roof by firemen; when his grasp on the rope slipped and he fell to the pavement. Firemen spent the day searching the debris, but no more bodies were found.

8-HOUR LAW FOR WOMEN UPHeld BY U. S. COURT

Washington, February 23.—The California eight-hour labor law for women employed in manufacturing and mercantile establishments, except those in harvesting and canning fruit, boarding houses and graduate nurses in hospitals, was upheld as constitutional today by the supreme court. The decision established the principle that reducing the hours of women's labor to eight hours a day is not an improper exercise of police power. Hitherto, the court had been called upon to go only so far as to uphold a limitation to ten hours a day in the Massachusetts law, and fifty-four hours a week in the Ohio law. Asiatic Russia contains 183 rivers, with a total navigable length of 13,558 miles, and four lakes that can be navigated for 707 miles.

"Even in the Sunny South!"

Whether you have always lived in the sunny south lands or whether you are a visitor there from the North, you'll notice and will welcome the rapidly increasing use of radiator heating in the better homes, hotels, leading stores, etc. Even in Florida or southern California when there come days of the "Norther," heavy rains, penetrating dampness and high winds you'll find the only reliable method of heating, just as in zero climates, is by these national comforters—an outfit of

AMERICAN & IDEAL RADIATORS & BOILERS

An IDEAL Boiler will burn least fuel because it is unnecessary to force the fire to send heat to windward rooms—the more heat needed at the exposed side of the house, the faster will be the flow of warmth to the AMERICAN Radiators stationed there to offset the cold.

All IDEAL Boilers are or may be fitted with an IDEAL Syphon Regulator, which gives perfect automatic control over the draft and check dampers, insuring great fuel economy and uniform heating. Saves running up and down the cellar stairs during quick changing weather. It is the greatest improvement made in a century for exact control of the volume of heat.

The sure comfort and every-day economies, conveniences and cleanliness of these heating outfits have been demonstrated in thousands of notable buildings, homes, stores, schools, churches, hospitals, theatres, etc., in nearly every civilized country. Besides, this ideal heating is endorsed by all leading health officials, engineers and architects.

That is why IDEAL SMOKELESS Boilers and AMERICAN Radiators are so fully guaranteed. Yet they cost no more than ordinary types made without scientific tests of construction and capacity. IDEAL SMOKELESS Boilers and AMERICAN Radiators do not corrode, warp nor rust out by action of fire, gases or water--will last scores of years! They reduce the cost of living and better the living!

Their purchase price is a far-sighted investment, adding 10% to 15% to rentals, and you get "full money back" if building is sold, or larger loan from banker on buildings thus modernized. If freezing days at home have again shown you how comfortable and fuel-wasteful your present heating is, write us today for (free) book "Ideal Heating" which shows how to make your own inside climate at a turn of the radiator valve and save fuel. Iron prices now rule the lowest in 10 years--best time to buy and at this season you get the services of the most skilled fitters!

An unflinching Vacuum Cleaner--built into the house. Price \$150. You should know about our ARCO WAND Vacuum Cleaner, for dustless, complete cleaning of rooms, furnishings, clothing, etc. Sits in basement and cleans through an iron suction pipe running to each floor. Easily put in OLD buildings. Fully GUARANTEED. Lasts as long as the building--like radiator heating. Send for catalog.

DOLLARS'LL COME HOME TO ROOST

If you spend 'em at home.

Every dime---every dollar---paid our home manufacturers for things you eat and wear---things with QUALITY AS HIGH as any goods---goes right back into circulation AT HOME.

Help to make and keep the South prosperous by spending your money for good goods made at home by home people.

The manufacturers whose trade-marks are shown herewith do not ask your patronage SOLELY because they are home manufacturers. You'll admit that is a good argument. But they are willing to "stack their goods up alongside of any man's goods." They are not boasting when they say they are certainly the equal---if not the superior---of any similar lines. Why not turn loose your money where you will see it again?

THE RUSSIAN MYSTERY.

The retreat of the Russians from East Prussia, and the apparently truthful claim of the Germans to the effect that they have practically annihilated a Russian army corps, reopens the mystery of the Russian army and of Grand Duke Nicholas, its commander-in-chief.

The amazingly rapid mobilization of the Russian army produced a first favorable impression. Their early successes against the Austrians and Germans confirmed this impression and justified prophecies of victories still more decisive.

But the past three weeks have told another story. Under Von Hindenburg the Germans have performed wonderfully in the eastern theater of conflict. In fact, to do the Germans justice, they have performed wonderfully in both western and eastern theaters, considering the handicaps.

Military specialists are now beginning to ask if we must wait until the czar can bring up the undoubted millions of men he commands to deal effectively with the Germans, or what has become of these millions?

not so much for the party's sake as "the country's sake." As one of its reasons, The World gives the alleged fact that "business has the persecution mania and manias may be ridiculous, but they cannot be ignored." They cannot—with safety.

There is very little, if anything, in the European or Mexican situations justifying congress remaining in session. To do so will be to prolong the uncertainty of business with no compensating certainty of soothing legislation.

TAFT'S BROAD PLEA. Upon more than one occasion since the retirement of former President Taft from office, The Constitution has had occasion to commend his ability to rise above the spirit of the partisan and view issues purely in the light of the nation.

It, however, the occasion arises, we can be confident that those in authority will be actuated by the highest patriotic motives and by the deepest concern for the national welfare.

TAFT has struck what should be a national keynote. In the situation that confronts this country there is no room and no excuse for the jingo.

When peace is finally declared in Europe and the momentous readjustments that are to follow upon the war are set in motion, it will be tremendously to the advantage of this country to still be neutral.

ROOT'S RETIREMENT. The retirement to private life of United States Senator, Elihu Root, on March 4, will mark the curious evolution of a political career which could have occurred in few countries other than America.

There is little doubt that were it not for his inveterate staidness Root would be among the republican candidates for president in 1916.

JOB. Job had his troubles, yes, indeed; That's what he was created for. But still he never had to read 'All day about the foreign war.'

THE WORST IS TO COME. Some of the important people in the United States who are worrying about the deficit in national revenues will soon have to pay their income tax, and then they will feel differently about it.

THE SECRET OUT. Some light may be thrown upon the willfulness of Messrs. Carnegie and Rockefeller to testify before the industrial commission by the fact that each witness receives \$2 a day.

PROSPERITY ISN'T LOAFING ON THE JOB. Can't blame it for wanting to get a good running start.

TO FATHERS

By Rev. J. Wilbur Chapman, D. D. "It will be to him a father"—Hob. 1:5. You may be your child's ideal. Doubtless you are. It is possible to be his hero.

Nothing can take the place of personal contact. The expenditure of money, the gift of an education, the advantages of travel—none of these things can be offered as substitutes for what you must do and do yourself, as a father.

TAFT is very useful in this world. We need people of inflexible resolution and courage who will take a pleasure in going through society with hob-nailed shoes, telling men how funny they look while dancing.

THE CONGREGATION INSTRUCTS ME TO MAKE MY MIND UP. The church says that I must make up my mind. It says that I must make up my mind to be a Christian.

SHOULD WIDOW RECEIVE COMPANY WHILE YET WEARING BLACK?

The artists and the poets would have called yesterday a gray day, if they had been asked to name it. It was a day which would have tried the most cheerful and optimistic associates in business who had time to stroll to the offices of one another and bemoan themselves of old jokes and tried to whoop up their spirits that way.

At that moment the phone rang. I answered, and a sweet voice at the other end addressed me very much in the tone of the woman who probably belonged to the army of the unemployed.

PROSPERITY IS KNOCKING AT DOOR OF SOUTH, SAYS PEDDER, OF BRADSTREET'S

James E. C. Pedder, division superintendent of the Bradstreet company, Atlanta, declared in his speech before the anniversary banquet of the Atlanta and Rome Rotary clubs, at the Capital City club last night, that opportunity is knocking at the door of the south, under the new conditions brought about by the European war, as never before, but that "whether we in the south will prosper depends entirely upon ourselves."

Mr. Pedder's speech follows: "We in the south had reason to believe in the early summer of 1914 that prosperity was upon us, and that we were about to do our biggest business of our lives; but like a clasp of thunder, a clear sky war was declared and our business fabric came tumbling down without a moment's warning."

"Whether we in the south will prosper depends entirely on ourselves, our manner of doing our business, our methods of doing our business, making every dollar we spend do a full 100 cents' worth of work."

"I have been wearing black nearly a year now. I have lightened it somewhat."

"I think so, too," observed the lady. "Of course, I shall never care for any one but my dear husband, who has passed, he was the most unselfish of men; he would never have wanted me to grieve; he would have wanted me to see my friends, and my gentlemen friends, too."

"Madame, are you being besieged?" I asked. "Yes, by several," was the reply.

believe we would be more prosperous if we never shipped another bale of raw material. There is more profit, at war-time prices, in the goods made from one bale than in ten bales of raw material.

"I am sure that we have increased our wheat acreage 118 per cent and oats 90 per cent; besides putting in large areas in other food and forage commodities. This means that millions of dollars expended formerly for equipment and labor have been automatically retired this acreage, usually sowed to cotton. Georgia is not alone in this, other cotton-producing states are doing the same, and, while we know there will be a crop of cotton this year, it is not certain there will be a crop of wheat, and, if there is a crop, it is not certain it will be a normal one, if that. Egypt, we are told, is not planting cotton this year, and the south must clothe the world. We hear in this state of packing houses being erected to take care of the surplus live stock, rather mills to grind our flour, cotton mills being enlarged and new ones erected to care for the orders already on hand. Cotton, in my opinion, will advance, foodstuffs will now be in demand, and, as a result, a greater, and 1915 is bound to be, in my opinion, a very satisfactory one to the nation at large.

The Holland Letter

In his communication recently made to President Wilson by Mayor Mitchell, of this city, in which the mayor calls the president's attention to the increase in the cost of bread which New York bakers have made, there was intimation that the mayor's committee on food supply is apprehensive that if exports of wheat continue in such volume as has been characteristic of the exports for the past three months then there might arise a serious question, possibly justifying an embargo upon the export of American wheat.

Through the department of agriculture at Washington a reply has been made which, while spoken of here as very gratifying from one point of view, nevertheless does not fully answer the implied inquiry made by Mayor Mitchell.

It is interesting to note that in these days when nobody stops to think much about anything there is a woman who really retons long enough to regulate her mourning attire according to her social program.

Some women would have had the bad taste to let men make love to them while they were still wearing crepe on their hats, though the crepe is made into little love knots and bows.

Not so the lady who found the gray day too much for her. She did right to ask advice. She got it; and I hope, the new spring gown will be becoming.

WE SHOULD HAVE AN OFFICIAL DISPENSER OF CANDOR. Candor is the art of telling a disagreeable truth in an unpleasant way, without getting punched in the eye for it.

SHOOTS THROUGH TIN HORN. Charles Mayo, an aged chemist in the employ of the Central Asbestos and Magnesia company, at 26-27 West Kinzie street, was in the habit of doing conventional things in customary ways. The morning he died he had a suicide, the police say—a fit omen to his life.

FELLOW EMPLOYEES WENT TO MAYO'S ROOM on the second floor of the company's plant when he failed to turn up for work on time.

GEORGIA INDORSES THE SHIPPING BILL

Trade Bodies Throughout the State Pass Resolutions Urging Senators Smith and Hardwick to Support Bill.

Trade bodies throughout Georgia met yesterday and, after indorsing the ship purchase bill now before congress as vital to the interests of the state, wired Senators Smith and Hardwick urging them to support the measure.

The meetings were held in answer to a call issued by Charles J. Haden, president of the state chamber of commerce, at the request of John L. Moss, a prominent manufacturer of Athens.

"We shall appoint a delegation from the trade bodies that have acted states Mr. Haden, "and let the representatives of Georgia in the national congress know exactly what is the attitude of the people of the state.

"We believe that if Senator Hardwick, who is reported as opposing the shipping bill, is shown how unanimous is the sentiment of our people in favor of the bill, that he will change his position."

The directors of the Atlanta Chamber of Commerce will meet on Thursday afternoon when some action is expected to be taken on the ship bill. In the call for all the commercial organizations in the state to meet Tuesday evening, and act upon the bill, the Atlanta Chamber of Commerce was included, but as the directors had already called a meeting for Thursday for the transaction of other business, no meeting was held Tuesday evening. The trade bodies of other cities also, in a few instances, have deferred action until a later date.

The Macon Chamber of Commerce refused to take action.

Gainesville. Gainesville, Ga., February 23.—(Special)—The chamber of commerce of Gainesville, Ga., today adopted the following: "Resolved, That in view of the present emergency this chamber of commerce earnestly requests Senator Thomas W. Hardwick to waive his personal views and in response to the desire of his constituents to support the ship purchase bill now before the senate in accordance with the recommendation of President Wilson."

Fitzgerald. Fitzgerald, Ga., February 23.—(Special)—The following resolution was adopted today by the chamber of commerce: "Whereas, The commercial interests of the south demand stable and fixed rates of trans-oceanic freight charges to protect the interests of the cotton growers of the south, and

"Whereas, The democratic administration has proposed a measure that will insure reasonable freight rates to European ports.

"Be it resolved, That the Fitzgerald and Ben Hill county chamber of commerce request our senators and representatives to give their unqualified support to the ship purchase bill advocated by President Wilson and that copies of this resolution be sent to Senators Hoke Smith and Thomas W. Hardwick."

Columbus. Columbus, Ga., February 23.—(Special)—The Columbus Chamber of Commerce took no action today regarding the ship purchase bill, as it had previously unannouncedly indorsed the bill and urged the senators from this state to support it.

Griffin. Griffin, Ga., February 23.—(Special)—At an enthusiastic joint meeting of the Griffin-Spalding county board of trade and the Griffin Retail Merchants' association Monday evening ringing resolutions were unanimously adopted urging Senators Hoke Smith and Thomas W. Hardwick, Georgia representatives in congress, to use their influence and every honorable means in their power in securing the passage of the ship purchase bill now pending before congress.

Senator Hardwick was especially implored to align himself with the democrats of the senate and sustain the administration in this important measure and to represent the people of his native state who are demanding the passage of the ship purchase bill.

The joint meeting was largely attended, and included some of the most prominent and representative people in Griffin and Spalding county.

Quitman. Quitman, Ga., February 23.—(Special)—The Brooks County Industrial club, at a very largely attended meeting of the organization held on Tuesday night, February 16, passed a resolution introduced by W. T. Gaudin, one of the prominent farmers of Brooks county, unannouncedly indorsing the ship purchase bill and instructing the secretary of the club to notify both Georgia senators that Brooks county expected them to work and vote for the passage of the ship purchase bill in the senatorial election. Senators Smith and Hardwick carried Brooks county.

Douglas. Douglas, Ga., February 23.—(Special)—

Preacher-Lawyer Conducts Own Case in Bigamy Trial

Three young women whom it is claimed John S. Houston, tried for bigamy at Hazlehurst Tuesday, wedded and deserted. Two of them testified against him. From left to right they are: Miss Lina Garrison, of Helena, Ga., "wife No. 3;" Miss Cora Mae Stroud, of Travelers Rest, S. C., "wife No. 2," and Miss Matilda Roberts, of Worley, N. C., "wife No. 1."

Hazlehurst, Ga., February 23.—(Special)—The case of John S. Houston, self-styled Baptist preacher and lawyer, charged with bigamy, is in the hands of the jury tonight after a sensational trial during which two of the three young women, whom the defendant is alleged to have wedded without the saving intervention of divorce, testified against him.

Just one year and one day after Houston, under the name of John S. Haynes, is alleged to have married Miss Matilda Roberts, of Worley, N. C., he was placed on his trial for bigamy at 11 o'clock this morning before a jury in the superior court of Jeff Davis county, Judge J. P. Elghsmith presiding. At the last stages of the trial Houston declined to let his attorneys make the concluding speech, but claimed the right himself, and made one of the ablest speeches delivered during this term of the court.

Solicitor J. H. Thomas and Judge James K. Grant severely arraigned the defendant for his action, while the defendant took a fling at state's counsel and unmercifully arraigned them. J. B. Porter, of Worley, N. C., the first witness, testified to the marriage of John S. Haynes and Miss Roberts and identified Houston as being the man who married Miss Roberts.

A certified copy of the license and return of the minister, Rev. Preshall, who married them, was presented, together with a prenuptial marriage contract between him and Miss Roberts.

Miss Stroud, the second wife, then testified to the second marriage with John S. Houston, who deserted her ten days after the ceremony in Charleston, S. C. The next witness was wife No. 3, Miss Edna Garrison, who testified to her marriage with him.

The defendant recounted much of his past life and denied his marriage to either Miss Roberts or Miss Stroud. He claimed to be a graduate of the Law University of Missouri, and that he is a Primitive Baptist preacher. He is an able and fluent speaker and one of the coolest men under fire that has ever been seen in Jeff Davis county.

A sensation was sprung in the trial when Miss Stroud identified a watch which Miss Garrison had, claiming Houston took it away from her in Charleston, S. C.

The courtroom has been crowded with women throughout the trial, and a standing room was at a premium. The case went to the jury at 7 o'clock tonight, and it is expected that a verdict will be reached in a short time.

The state is represented by Judge J. H. Thomas, solicitor, and Judge James K. Grant, while the defendant represents himself, and conducts his own defense, assisted by Judge Gordon Knox and J. B. Moore, of Baxley.

Bordeaux. Bordeaux, February 23.—(Via Paris.) The condition of Sarah Bernhardt, whose right leg was amputated yesterday at the St. Augustine hospital, Arcachon, was said late last night to be satisfactory, although she was suffering considerable pain.

Telegrams of inquiry regarding Mme. Bernhardt's condition were received from distinguished persons in many lands, including Queen Victoria of Spain, and the ex-Empress Eugenie. Edmund Rosland went to Arcachon yesterday and remained there until assisted the operation had been successful.

Surgeons and nurses present at the operation express themselves as deeply impressed by the calm courage with which the famous tragedienne faced the ordeal. Before the anesthetic was administered she asked permission to embrace her son, Maurice.

The operation proper lasted nine-and-a-half hours and the leg was removed above the knee. She will be kept absolutely quiet for three weeks and then will be removed to Andernos, near Arcachon.

The following bulletin signed by the attending physician was issued at 5 o'clock this evening: "Temperature and pulse excellent. The condition of Mme. Sarah Bernhardt continues very good."

Albany. Albany, Ga., February 23.—(Special)—No action was taken today by the chamber of commerce, but a poll of the business men of Douglas county showed 27 in favor of the ship purchase bill, 4 against and 2 non-committal.

Dalton. Dalton, Ga., February 23.—(Special)—Owing to the illness of its president, B. A. Tyler, the chamber of commerce meeting called for the purpose of discussing the ship purchase bill now pending before congress was postponed. However, practically unanimous sentiment of this section favors the passage of the measure as an indorsement of the administration.

Americus. Americus, Ga., February 23.—(Special)—The Americus Chamber of Commerce today indorsed the ship purchase bill and wired Senator Hardwick to back the attitude of the junior senator.

Augusta. Augusta, Ga., February 23.—(Special)—No action on the ship-purchase bill was taken today by the chamber of commerce. The chamber may meet tomorrow to consider the matter.

Dublin. Dublin, Ga., February 23.—(Special)—Action on the shipping bill by the Dublin Chamber of Commerce has been deferred until Wednesday, when commissioners of the body will meet to consider the matter. It is expected their action will be favorable to joining other cities to pull for the bill.

Savannah. Savannah, Ga., February 23.—(Special)—Neither the Savannah Chamber of Commerce nor the board of trade has considered the ship-purchase bill.

Macon. Macon, Ga., February 23.—(Special)—The Macon Chamber of Commerce this afternoon declined to take any action looking toward the indorsement of the ship-purchase bill now before congress. Letters were read from the United States Chamber of Commerce and from the chamber of Commerce and members of the local chamber took the position that it was "a matter of politics," and therefore no action should be taken.

Albany. Albany, Ga., February 23.—(Special)—Albany held a special meeting of their board of directors Monday afternoon and sent to Senators Smith and Hardwick the following telegram: "The board of directors of the Albany Chamber of Commerce, at a special meeting today, passed resolutions in favor of the ship-purchase bill, and respectfully urge you to vote for this measure and use your influence toward bringing it to successful passage."

LaGrange. LaGrange, Ga., February 23.—(Special)—Although the LaGrange Chamber of Commerce has not yet taken any action on this matter, a large number of the members of this body were called together today to consider and discuss the ship-purchase bill. All present expressed themselves in favor of this movement as a temporary and emergency bill.

Athens. Athens, Ga., February 23.—(Special)—The Athens Chamber of Commerce unanimously passed a resolution indorsing the ship-purchase bill, directing urgent messages to Senators Smith and Hardwick and Congressman Tribble, requesting them to support the administration measure, and a committee was named to act with the other trade bodies of the state and the Georgia Chamber of Commerce to express the views of the business men of the state on this matter.

Rome. Rome, Ga., February 23.—(Special)—The chamber of Commerce of Rome will meet tomorrow to take action on the ship-purchase bill.

MEN AND RELIGION BULLETIN NO. 158.

Facts, Factions, Police

"But if you have bitter jealousy and faction in your heart, glory not and lie not against the truth.—
"For where jealousy and faction are, there is confusion and every vile deed."
—James 3:14-17.

The Chamber of Commerce employed municipal efficiency experts. Their report said:

"POLICE BOARD UNNECESSARY.

"A study has been made of the powers of the Police Board as set forth in the code, the official minutes of the Board have been examined, and many questions have been asked relative to its operations. We are of the opinion that the Board is not only unnecessary, but tends to retard the efficiency in this department. It is the duty of the Chief of Police to enforce the statutes and ordinances relative to his department. The laws are plainly written and no Board is needed to interpret them. On the contrary, the Board, not being amenable to public demand, may actually retard enforcement of the law. For example, the Police Board never formally directed the closing of Atlanta's segregated district, although the sentiment of the community undoubtedly desired it. The chief finally acted on his own initiative. It is fortunate that the office of Chief of Police has a form of civil service protection. It would be better were there a regularly constituted civil service.

"MORE STATION HOUSES NEEDED.

"Although the city now covers an area of over twenty-five square miles, there is only one station house. This not only causes a considerable loss of time on the part of men coming and going from their beats in the outlying districts, but causes a congestion of patrolmen in the central station when men are assembled there prior to going on duty. The city has now reached a growth where at least two additional station houses should be established.

"SELECT PATROLMEN MORE CAREFULLY.

"The kind of men appointed by the police force of the city is a matter deserving of most careful consideration. It is one in which a permanent civil service commission might be of great help."

Erstwhile dealers in white slaves in the Mechanic Street district and their friends and patrons demand a victim.

The liquor interests want to show to other men in public office the peril of enforcing the law.

They will get Chief Beavers, if they can.

Helping them and playing into their hands are not a few men, who are not moral lepers; really decent men, at heart, but unfortunately cursed with the false idea that everything in life is a game, a political game where every office is only a stake for which to play.

You will recall the English and Brotherton factions in the Police Board. All are familiar with the Mason-Woodward line-up. The turmoils of these factions were a detriment to our city and the efficiency of the Police Force.

To end such things—to rid our Police Force of politics—to get rid of the curse of factions in the Police Board, a law was made taking the Chief and the Force out of politics, putting the members and their officers in office until they are proven by trial guilty of misconduct or inefficiency.

To convict a man of inefficiency because he is too efficient is some undertaking. The scenery and surroundings must be prepared, else there would be only an abortive failure when the betrayal was attempted.

Hence the sporadic hue and cry that breaks out about burglaries and highway robberies in our city, but a deathly silence as to the causes back of the man shot dead at the door of the Owls' Club, the man dead in the basement of the Steiner-Emery building, the negro shot in the Decatur street bar—namely: the sale of intoxicating liquors under licenses granted to known lawbreakers and ordinances authorizing, despite the laws of Georgia, the sale of intoxicants in Atlanta.

The most casual reader of newspapers, other than those published in Atlanta, knows—from one end of the United States to the other there has been an epidemic of burglaries and robberies; columns could be filled with the thieveries daily committed in every city in the land; the occasion is the frightful depression, grim want, and the disregard for law taught by those in high places.

Atlanta is unique, not in crime, but in having a Chief of Police actually honestly at war against the Underworld.

His policy is constructive, not destructive. He has begged for additional police stations, the need for which has been pointed out by efficiency experts. He has urged the appointment of more men to police our city.

Instead of getting them, he gets ridicule and abuse. Council licenses violators of the law. The Mayor approves these licenses, and unites with other members of the Police Board to force on the Force unlawfully without the approval of the Chief of Police men discharged from it for drunkenness and worse than incompetency.

Atlanta's trouble is not her form of government. It is—First, those men who think themselves above the law—Second, Men trying to usurp authority which is not theirs.

Code Section 1930 says: "It shall be unlawful for any one of the Board of Police Commissioners to hereafter undertake to discharge the duties of Chief of Police or to have special control and direction of officials and members of the Police Force in the arrest of criminals or the discharge of their duties as policemen."

Neither this committee, nor any of its members, nor has the Evangelical Ministers' Association, the creator of this committee, any quarrel with Mayor Woodward or the City Council or the Police Board.

But we will not be—we cannot be—silent before the flagrant disregard of law in licensing lawbreakers to violate the law—Before the continued efforts to undermine and destroy a man, whose sole offense is fidelity to a public trust.

To put men on the Police Board of the City of Atlanta to promote factionalism and to hamper the Chief of Police in the performance of his duties would be a mistake which not only this city but the State of Georgia would resent.

Respectfully we ask the City Council and our Mayor not to make this mistake. Let us have done with factions.

DANGER OF EATING TOO MUCH MEAT

Medical Reports Show That People Who Eat a Great Deal of Meat Are Subject to Typhoid Fever.

The death rate of typhoid has been 10 per cent for many years. Even if the patient recovers there is danger. A weakened constitution, languidness, loss of energy, and other ailments directly due to the effect of typhoid. In a majority of cases typhoid fever is directly traceable to an inactive liver which has refused to purify the mass of meat particles left undigested in the alimentary canal. This mass putrefies and sends out death-dealing poisons, so that the patient suffers an attack of typhoid fever which could easily have been avoided.

HANK GOWDY HERE, TALKS OF BRAVES

The Great Catcher Believes That Stallings' Men Will Be in the Hunt Again This Season.

By Dick Jenkinson. Henry "Hank" Gowdy, the great catcher of the Boston Braves, and the man whose name was in every one's mouth during the recent battles with Connie Mack's Athletics, is in our midst. Hank arrived here at noon yesterday, and will spend the week here preparatory to going to Macon to join the Braves in their spring training stunts. It is doubtful if there is anyone connected with the great national pastime who is better known now than this self same, unassuming Hank Gowdy, and locally regarded as the hero of the season.

BOYS' HIGH WINS FROM MARIST FIVE

In Fiercely Contested Game at Wesley Memorial Court. The Prep Title May End in Tie.

By Carl Taylor. Boys' High, 34; Marist, 27. This tells what happened yesterday afternoon when Boys' High and Marist tied up at the Wesley Memorial court. The game was the final engagement of the schedule, but does not finally give the championship of the league to Boys' High, inasmuch as Marist has a postponed game to play with Donald Fraser on the latter's court, and by coping this game will be tied with Boys' High for the lead. This will, in all probability, be played Friday.

DECLINE IN COTTON PRICES IN WEEKS

Table with columns: Month, Open, High, Low, Close, Prev. Close. Rows for March, April, May, June, July, August, September, October, November, December, January.

New York, February 23.—There was a very sharp break in cotton here today, under more or less general liquidation, which was attributed to apprehensions of a general decline in the export movement through possible developments in the war zone, or, as it may be, to a general liquidation of clearing prices were barely steady at a net decline of 3 to 5 points.

Only three March notices were issued, and the market was quiet. The revision committee announced differences applying to the first March deliveries, the only change being an increase of 5 points in the discount on goods in transit.

New Orleans, February 23.—Cotton was under pressure throughout today's session and the market closed at a net decline of 3 to 5 points. The close was at the lowest, a net decline of 3 to 5 points.

Atlanta, February 23.—Cotton steady, middling 7.88, receipts 1,400; exports 1,400; stock 1,400.

Interior Movement. Houston, middling 8.25, receipts 1,475; exports 1,475; stock 1,475.

Cotton Seed Oil. New York, February 23.—Cotton seed oil broke 20 to 25 points early under heavy liquidation from the west.

Wheat Made Plunge Downward, Losses Amounting to Eight Cents

Causes for the Heavy Decline Were Anxiety as to Opening of Dardanelles and Possibility That the United States Would Put Embargo on Foodstuffs.

Chicago, February 23.—Wheat plunged heavily downward today, extreme losses amounting to 8 cents. Anxiety as to the chance of the Dardanelles being opened and suggestions that the United States would possibly restrict the export of wheat and other foodstuffs were largely responsible.

Table with columns: Wheat, Corn, Oats, Rye, Barley. Rows for various grades and types.

Chicago, February 23.—Wheat, 1.55 1/2; corn, 1.25 1/2; oats, 1.15 1/2; rye, 1.15 1/2; barley, 1.15 1/2.

STOCKS WERE SOLD ALL THE SESSION

Fear of International Complications and Accumulation of Orders to Sell Over the Holiday—Bonds Dull.

New York, February 23.—Professionals selling, prompted mainly by further unfavorable foreign developments, provoked fresh selling of securities on the stock market today.

The overhauling fear of international complications was plainly reflected in the several markets for exchange, most of which were again depressed and in favor of this country.

The selling in this market began at 10:30 a. m. and continued steadily for irregular periods of extreme dullness, for the greater part of the session.
