Britain Gives Assurances About Shipments to Holland and Italy—Statement by British Ambassador.

Washington, January 7.—Great Britain, Italy and the Netherlands have reached an agreement whereby commerce to the latter two countries is to be treated with a minimum of molestation.

Secretary Bryan received a personal note from Sir Cecil Spring-Rice, the British ambassador, stating that inasmuch as the re-exportation of naval stores probably would be prohibited by Italy and Holland, arrangements would soon be completed whereby these products could be shipped without difficulty to those countries from the United States.

With regard to copper shipments from the United States to Spain, it was learned today that the cooperation of Italy must cooperate with the free from molestation hereafter.

DEATH CAME AFTER WEEK Farmer Took Poison Seven Days Before End.

Macon, Ga., January 7.—(Special.)—P. M. Johnston, of Gordon, who swallowed bi-chloride of mercury one week ago in an attempt at suicide, died tonight at the Macon hospital. As the poison had gotten into his system before he reached the hospital it was realized from the first that there was no chance to save his life.

GREAT BRITAIN WILLING TO EXPEDITE SHIPPING

Reply to United States Will Be Conciliatory—Sale of German Ships.

London, January 7.—Great Britain's reply to the United States' note on interference with American shipping, it is said in well-informed quarters, is wholly conciliatory and shows a disposition to do everything within reason to avert the delay of cargoes.

England wishes to do everything in its power consistent with the proper safeguarding of the allies' interests, to facilitate world trade and stimulate commerce. Consequently, it is declared, there is no disposition on England's part to protest against the purchase of German vessels by America.

While it is pointed out the sale of German ships in New York to the American government or its citizens would inevitably result in a transfer of the ships to the allies, it is also pointed out that the sale of German ships in New York to the American government or its citizens would inevitably result in a transfer of the ships to the allies.

At any rate objection is not likely to come until the sale of German ships in New York to the American government or its citizens would inevitably result in a transfer of the ships to the allies.

An assurance that German ships purchased by the United States government or its citizens would inevitably result in a transfer of the ships to the allies.

SPEER IS SUSTAINED BY U. S. SUPREME COURT

Macon, Ga., January 7.—(Special.)—Two years ago in the Dick case in Augusta, Judge Emory Speer, of the United States district court, held that the widow and orphans of a deceased bankrupt were entitled to a year's support from the estate of the bankrupt. The case was appealed to the United States supreme court and information reached Macon today that the supreme court has sustained Judge Speer in his ruling.

Judge Speer interpreted the statute of Georgia which allows a year's support to a widow and orphans from the estate of the husband. The courts throughout the country had been in conflict on the point for a long time.

awaiting further action on the part of his wife. "There is nothing I can say," he told the reporter, "except that I'm more ill tonight than usual. I would rather the newspapers let up, anyhow."

Later, Miss Davis came down stairs to see her husband. She said that only the wife's side of the case had been presented thus far. She is a trim, good looking woman, apparently between 25 and 30 years of age.

No Love Affair, Says Nurse. She insisted that the case was not an affair between her and the millionaire.

"I am only doing my duty by Mr. Hight," she said. "But I can say this much about him personally: He is as gentlemanly and kind-hearted a man as I've ever met. I have been with him a long time and he has made requirements and to care for him better than a new nurse I was assigned to his case by his private physician, and I will remain with him until either he or his physician instructs me to leave."

Miss Davis accused Mrs. Hight of being partially responsible for her husband's condition. She charged the wife with neglecting her husband's bedside and of creating demonstrations that aroused the neighborhood.

The young nurse said Mrs. Hight's nervous outbursts were responsible for her husband's condition. She charged the wife with neglecting her husband's bedside and of creating demonstrations that aroused the neighborhood.

Says Act Is Malignant. "If Mrs. Hight insists on making trouble for her husband," firmly declared the young nurse, "I will have an opportunity to go on the witness stand in his behalf. I can tell some things that will open eyes and ears and hearts. I will show that this act is a malignant one."

Miss Davis denied that she had assumed full charge of the Hight home. She superintended some of the household affairs, she said, but this was because the wife had neglected them, and there was no one else to do it.

At this point in her conversation with the reporter, there was a loud rapping upstairs. She remarked that she then with a disturbed expression asked the reporter to excuse her and end the interview.

"That is Mr. Hight calling me now," she explained, and I must go."

Mr. Deaton is a prominent and wealthy wholesale merchant of Columbus.

NUMBER OF ILLITERATES BEING GREATLY REDUCED

Washington, January 7.—Not more than fifteen out of every 1,000 children from 10 to 14 years of age in the United States are unable to read and write, according to statistics announced today by the federal bureau of education.

From the standpoint of proportional reduction of illiteracy, the bureau says, "Oklahoma leads all states. In 1907 this state had 11,111 illiterate children, but in 1910 the number had been reduced to 22 in 1910 and 15 in 1914."

According to the bureau Nevada is the only state which has lost ground since 1907. Its illiteracy was 10.7 per cent in 1907, 11.1 per cent in 1910 and 11.5 per cent in 1914.

The states having the largest proportion of illiterates in 1914 are Louisiana, with 115 (from 174 in 1907), South Carolina, 83 (from 150), and Mississippi, 77 (from 125). BERNSTORFF COMMENTS ON MISUSE OF PASSPORTS

Washington, January 7.—Count Bernstorff, German ambassador, made his first comment today on the misuse of passports by German reservists in this statement: "Reservists had violated the Hague convention and the rules of international law by taking unarmed people of a vessel, in violation of the convention, which the German government complained to the neutral governments. In consequence of this, the German citizens were deprived of going home and several may have tried to use false passports for this purpose because of their desire to defend their country, a motive which every good citizen will understand. If this really has been done it will have to be proved. In any case, however, German officials in this country had nothing whatever to do with it."

PEACE CELEBRATION ON OLD BATTLEFIELD

Hundredth Anniversary of End of Anglo-American War Commemorated at New Orleans.

New Orleans, January 7.—A three-day celebration of the one-hundredth anniversary of peace among English-speaking people will begin here tomorrow on the site of the last armed conflict between the United States and Great Britain. The ceremonies will be opened with the firing of a salute of twenty-one guns so timed that the last gun will boom at 8:20 o'clock tomorrow morning exactly one hundred years to the minute, according to historians, that General Jackson finally triumphed over the British on the field of Chalmette near New Orleans.

Peace advocates from many parts of the United States and Canada will witness formal exchange of greetings between a representative of the president of the United States and an especially appointed envoy of the king of England, watch the unveiling of a monument to General Jackson and see the maneuvers of the Seventh United States Infantry and other regular soldiers transferred from Texas City, Texas, for the celebration. The Seventh infantry composed a part of Jackson's command a hundred years ago.

The soldiers will be in charge of Brigadier General J. Franklin Bell, commanding officer of the second division, who is here with 72 other army officers and 2,000 men. Sailors, who will take part in the chalmers ceremonies and a military parade Saturday, will be commanded by Rear Admiral McLean, who arrived here last night on the battleship Rhode Island from Vera Cruz.

Preliminary to opening the celebration tomorrow a reception for Mrs. William Gerry Slade, president general of the United Daughters of 1776-1812, took place at a hotel tonight. Other women prominent in this organization and some members of the Daughters of the Confederacy are here.

Among some of the participants of the three-day program who have arrived are Andrew J. Peters, assistant secretary of the treasury and President Wilson's personal representative; John A. Stewart, of New York, chief organizer of the American peace centenary committee, and other members of that committee; Ernest H. Scammon, of Ottawa, organizing secretary of the Canadian peace centenary; Chief Justice W. R. Riddell, of the supreme court of Ontario; Lieutenant Governor George Brown, of Saskatchewan; Alphonse R. Houle, of the Montreal city council; Oscar Straus and others. H. T. (Crew) Hunt, British consul here, received word by cable from his government today that he had been designated personal representative of King George during the ceremonies.

ALL CHARGES DENIED BY SOUTHERN RAILWAY

Washington, January 7.—Evidence to be submitted by the Southern railway in answer to the charge that it is in a conspiracy to "blow up" coal fields in Virginia, Kentucky and Tennessee was outlined to the senate investigating committee today by S. A. P. Thom, general counsel of the road. Thom said if the charge had been true the Southern would have stayed out of that territory instead of paying \$3,000,000 or \$3,000,000 to get it. He suggested that the directors of the road be called as witnesses and questioned as to charges that they were not heavily interested financially in the company.

Their names may not show on the stockholders' list, possibly because business men are not willing to give private individuals an opportunity to figure out how their credits diminish and expand with the stock market, declared Mr. Thom. "They do their own bookkeeping."

Referring to charges that the Southern had bought up blind ends of roads to prevent the coal field being tapped, and had declined to continue them to the coal fields, the attorney said: "If it would have been such a profitable thing for these blind ends to be constructed across the mountain, why did not the men who built them continue to operate them? They were not called to suit for months claims by business men who were not willing to give up their private enterprise that the Southern, in buying up these bankrupt roads, was trying to bottle up the coal fields."

Mr. Thom told the committee the Southern had offered Black Mountain operators the same export rate through Charleston as prevailed on competing lines for routes through Norfolk, although the former haul was 100 miles longer and through a more difficult country.

Jarvis was elected guardian for the ensuing year. All other officers were re-elected. The retiring guardian, Mrs. Greer, has served the circle for many years, and has been

one of the most faithful workers in the south. Mrs. C. M. Jarvis, her successor, is a woman of much experience in organization work. Miss Bessie Meyer, the clerk of the circle, made a splendid report of last year's work. The circle will meet next Tuesday at 2:30 p. m. with Mrs. Maggie Thompson, 385 Spring street. This meeting will be of a social nature. Refreshments will be served, and all members are requested to bring their friends.

The marriage of Mrs. Mary Howard Meador and General Joseph Van Holt Nash, took place last night at 7 o'clock at the home of the bride at East Lake. The ceremony was performed by Bishop Warren A. Candler, of the Methodist Episcopal church, south, and there were present the families and a few close friends.

Decorations Were Gorgeous At Dempsey-Wright Wedding

Macon, Ga., January 7.—(Special.)—The elaborate decorations at the Dempsey-Wright wedding, which took place last night, when Miss Monica Dempsey, Macon's wealthiest heiress, became the bride of Horace Wright, are still being discussed by Macon society folks, nothing quite so elaborate having been seen in Macon before.

Mrs. L. L. Dempsey, mother of the bride, engaged an expert decorator to come here from New York and the total expense of the decorations alone was \$1,000.

In the drawing room the mantel was banked with orchids and valley lilies and the altar arranged in the form of an enormous shell, was made of orchids and lilies with myriads of tiny lights. An aisle leading to the altar

was formed by Easter lilies and white ribbons.

In the next room the walls were hung with gold wall pockets containing pink carnations and roses. All the mantels were banked with ferns, roses and valley lilies.

The hall was gorgeously decorated with tall vases of American Beauty roses and around the foot of the circular staircase were quantities of red azaleas, the entire stairway being wound with smilax and studded with American Beauties.

In the dining room the table was exquisite with a centerpiece of orchids which appeared to be growing naturally on a tree stump. The gift room was hung with baskets of pink Killarney roses and white hyacinths.

The wedding was the principal social event of the winter season in Macon.

DANIELS THANKS MARINE FOR GIVING HIS BLOOD
Washington, January 7.—Because he voluntarily placed himself upon the operating table for the transfusion of his blood into the veins of a hospital apprentice, Private Walter W. Graft, of the marine corps, stationed here, was today in receipt of a letter of commendation from Secretary Daniels in part, the secretary wrote as follows:

"This conduct on your part convinces me that you possess in an eminent degree the qualities of a good soldier, and I congratulate you upon the courageous display made by you."

Medicinal Spring Found.
LaGrange, Ga., January 7.—(Special.) Water from a spring at Manchester has been found to possess medicinal properties. By analysis it shows a high percentage of iron, magnesia, sulphur and other healthful minerals. So highly charged is this water that if a bottle is filled, tightly sealed and then shaken, the gases released have sufficient force to break the bottle.

His Friends Thought He Was Joking Until They Found Him Dead

Easton, Ga., January 7.—(Special.) Oscar Jarzmulowsky, a merchant of Easton, was found in an unconscious condition early this morning, after taking carbolic acid. He died in a very few minutes. He came to Easton about fifteen years ago from New York and had had remarkable success in the mercantile business. A year ago he lost heavily by fire, but had opened a new business and was rapidly recovering his losses. Owing to financial conditions and poor collections this fall he was distressed financially.

He had said yesterday that he was going to "end it all," but his friends thought him joking. He even told those in his employ about his business affairs and where he wanted to be buried, but he was laughing and was not taken seriously. He was of a genial disposition and popular with all. He is survived by a wife, who was Miss Rosa Fromer, of New York; one daughter, Florence, and a young son, Julian. Interment will be either in New York or Atlanta.

RUSHING TO COVER, AUTOISTS ESCAPE DEATH IN CYCLONE

Valdosta, Ga., January 7.—(Special.) Turner Jones and D. W. McCravy, of Valdosta, had a thrilling and narrow escape from death in a storm which swept to the north of this city yesterday afternoon.

They were near Rays Mill, in Berrien county, en route to Valdosta, in a automobile when the storm broke. To save themselves from being crushed by falling trees they hurried under a bridge, across which two trees fell. Twelve or fifteen pines were blown down near them in a radius of two hundred yards. The timely shelter of the bridge undoubtedly saved their lives.

Considerable damage was done in the town of Rays Mill by the storm in the blowing down of houses and unroofing of others.

Chauncey Badly Damaged.
Eastman, Ga., January 7.—(Special.) Chauncey, ten miles below Eastman, was visited yesterday by one of the most dangerous wind and rain storms in her history. Shade trees were blown down, chimneys were blown off, and much damage was done to many residences.

The Baptist church was blown down and is a total wreck, and the home of E. M. Anderson, who resides there, the whole house was blown in, the family having a narrow escape from death. Mrs. Peggy Quinn, her oldest daughter, pinned beneath the timbers. The cotton warehouse was considerably damaged. The telephone exchange was blown out of commission, cutting the town off from communication with the outside world.

After the citizens were over the scare of the storm, fire broke out at 8 o'clock last night in the drug store and destroyed it, and also the furniture store of John Deacock. The furniture store carried a \$2,000 insurance policy.

The damage done by the storm and fire was several thousand dollars, partly covered by insurance. The destroyed property will be rebuilt at once.

Damage in Florida.
Jacksonville, Fla., January 7.—Detailed reports received today from points in northern Florida and southern Georgia, where the violence of the windstorm last night, place the number of fatalities at three and about a dozen persons injured. The property loss, consisting principally of the wrecking of a number of farm houses and barns at various places, will not be as heavy as was at first indicated.

At points in northern Florida residences were damaged by the telephone and telegraph poles blown down, the principal damage being reported from Wellborn, no reports for the first time received here of loss to shipping.

LAURENS WILL RAISE FOOD FOR CONVICTS

Tulsa, Ga., January 7.—(Special.) Laurens county has decided to raise its own foodstuffs for the convict camp and the commissioners have closed a 200-acre tract of land, which they will have put in charge of S. T. Thomas. There will be no cotton raised on the place at all, only corn, peas, beans, hogs and other food products for the camp will be grown. It has been learned that the county can grow all of its supplies for the camp much cheaper than they can be purchased.

FRENCH ABSINTHE BAN WILL BE PERMANENT

Paris, January 7.—The cabinet has approved a measure for submission to parliament making permanent the prohibition of the sale of absinthe and similar liquors. The government finds the military decree forbidding absinthe has benefited the population.

The cabinet also has approved a bill providing that no licenses shall be issued to new establishments for the sale of spirituous liquors, unless accessory to a restaurant.

JOHNNY EGGERS TO ARRIVE FRIDAY

New York Bantam in Fine Trim for Bout to Be Staged Tuesday Night With Kid Herman.

Johnny Eggers is due to reach Atlanta today, in fine trim for his bout with Kid Herman Tuesday night at the Bijou theater Tuesday.

The New Orleans Kid took his first real work-out yesterday afternoon at the Atlanta Athletic club, where a number of the members, all boxing fans, watched the little southern champ box five speedy rounds with Joe Superior...

Pete looked to be in grand condition, bearing out the assertion of his trainer, Red Walsh, who stated he had faithfully for this bout before leaving New Orleans to come here.

At the Rex, Chess's place and Tulin Brothers, and the advance sale is progressing even more rapidly than for the last big bout here.

Betting continues to be in spite of the fact that Herman was first on the scene. The speed of the New Orleans boy impresses the local fans...

They cannot get out of their minds the "terrible" attack and his powerful developing chances, which he has shown in his previous bouts.

This circumstance does not worry the Kid at all. The promoter, still is figuring to get the best card possible to support the rest of the evening's bouts in all, the first three to be short and lively affairs, with a good stiff semi-windup and then the fireworks.

CAPT. B. D. LUMSDEN DROPS DEAD IN HOME

Macon, Ga., January 7.—(Special)—Captain B. D. Lumsden, one of the first graduates of the Alabama Polytechnic institute at Auburn, Ala., and who served during the war between the states as a captain in the confederate army, died at his home four miles from Macon late this afternoon. Death was due to apoplexy.

Captain Lumsden was one of the best known men in Bibb county. He was 43 years of age and had lived in Macon since the war.

He leaves a widow, his second wife, and three children, Mrs. L. E. Kendall and Mrs. Mattie Lou Forbes, two sons, J. Frank Lumsden, of Texas, and E. D. Lumsden, of Alabama. One brother, Joe Lumsden, of Bollingdale, also survives.

Captain Lumsden attended the 40th anniversary of the first graduation of the Alabama Polytechnic institute last year and addressed the student body.

NO TRACE DISCOVERED OF WRECKED TUG MEN

Brunswick, Ga., January 7.—(Special)—What little hope has been held out for the safety of the crew of the tug Bamber, wrecked off Little Cumberland island Monday night, has been abandoned today when all searching parties returned to the city reporting no trace whatever of the four missing white men and only the bodies of two colored members of the crew have been found.

Last night one party remained out all night dragging not around the wreckage in the hope of recovering the white men, but they did not meet with any success.

It is believed, however, that the bodies of the white men to the surface and will be recovered.

Grant Athletic Club Quintet Will Play Mercer on Saturday. One of the most interesting basketball games of the south for next Saturday night will be played at Macon between the Grant Athletic club's star team, of Atlanta, and the team of Mercer university, which is admittedly a strong one.

The best players of Atlanta, except those of the A. A. C., are on the team, and in previous games this team has proved its merit and it is difficult for any team to defeat it.

Last year Mercer won from this team, 25 to 23, and the Atlanta boys have improved much since that time. The team is composed of heavy, rangy fellows, who have much experience, and who still are not old in years.

When the Mercer game at Macon Athletic club will meet Auburn, at Auburn, and games are pending with other leading teams of the southeast.

Whitited to Confer with Geo. Stallings. Macon, Ga., January 7.—George Stallings, manager of the Boston Red Sox, is expected to arrive here today to confer with Geo. Stallings, manager of the Braves field, here.

The Knoxville Tigers will be the opponents of the Atlanta Athletic club in the first game of the season of 1915. The game is scheduled for Saturday night at the local arena.

The Knoxville Tigers have a strong team this season. Their members are former stars on the national and state teams.

The usual dramatic feature will be enjoyed after the game.

PLAYING IN GREAT FORM, PRATER WINS HIS MATCH, 600-526

Playing in the height of form, Ed Prater, of the Atlanta Athletic club, won the final game of the season of 1914. He defeated the Atlanta Athletic club, 600 to 526.

Prater was in excellent form, and was master of his own mind at all times. He repeatedly showed his dazzling shot, and his team was the best he has shown during the three nights of play.

Baker, on the other hand, seemed a little off his game, and did not play as well as he has in previous games.

The highest run that he had during this season was 25. Prater had several high runs during the night, his highest being 40 consecutive balls.

The lead early at the start of the match and only at one time was Baker ahead.

The usual dramatic and fancy stunts after the match, given by Baker, was a pleasing feature of the evening's entertainment.

EUROPEAN BUYING ADVANCED WHEAT

Market Closed Strong. One and Three-Quarters to Two and Three-Eighths Cents Up—Corn and Oats Higher.

Chicago, January 7.—Wheat advanced excitedly on European buying in the last hour today. It closed strong at 1 3/4 to 2 3/8 above last night.

Corn rose 8-30 1/2 to 1 1/2 net and oats 8-20 1/2 to 1 1/2 net. The finish varied from 1/2 cent decline to an uptick of 1-2/8 cents.

Reports from Italy and Romania were about to enter the way and accompanied by the swift ascent of wheat. Attention was attracted by the fact that export sales had suddenly expanded, reaching a total of nearly 3,000,000 bushels since yesterday.

The flurry tossed quotations for wheat and flour upward with a full cent the wheat bought today was for shipment to Italy. It had reported a sale of durum to Italy at \$1.18 1/2 delivered across the sea. Domestic millers were said to be eagerly after cash wheat.

Export demand also lifted corn and oats. Foreign sales were included 400,000 bushels of corn and 1,500,000 bushels of oats. That buying, however, came after corn had been reported to have been sold in liberal receipts and oats had dropped in sympathy.

Chicago quotations averaged lower under pressure of selling led by a Milwaukee packer.
