

Criminal Blackmail Charge Made Against Former Nurse, Lawyer and His Assistants

Warrants Sworn Out Monday Afternoon Against Miss Stella Griffin, of Villa Rica, Judge R. R. Jackson, C. C. Garrett, T. E. Polhill and R. C. Parker.

ACTION FOLLOWS FAILURE OF THE GIRL'S CHARGES AGAINST GEORGE RAUCH

Former Nurse Alleged That Rauch Gave Her \$1,200 Check for "Love Balm" and Then Robbed Her of Paper—Girl's Roommate Testifies Against Her.

GIRL IN JAIL—Stella Griffin, the Villa Rica girl and central prisoner of the quintet charged with conspiracy following the George Rauch trial Monday afternoon, remained in jail last night, unable to give the \$1,000 bond assessed by Judge Eugene D. Thomas.

In all my experience as a criminal lawyer I do not recall a more pernicious attempt at blackmail, said Colonel Thomas B. Felder.

SENSATIONS GALORE. The day was replete with sensational developments in the charges made by Miss Griffin against George Rauch, the Credit Men's association attache, the young woman starting ball trower proceedings in an effort to recover an alleged check for \$1,200 given by the young man.

OTHER NAMES INVOLVED. Not only did the girl adhere to her first story, but she supplied additional details involving the names of Dr. Frank Boland and the well known physician Colonel J. T. Wright.

SOLONS ROASTED BY JUDGE DAVISON

Says Some Members of the Penitentiary Committee Don't Know What They Are Talking About.

After a long and heated discussion, which was interrupted once by Judge R. Davison, chairman of the state prison commission, to resent what he interpreted as an intended reflection upon the diligence of the commission, the joint house and senate penitentiary committee yesterday afternoon adopted its report upon the conditions at the state farm and reformatory.

The report includes recommendations for the following provisions for "immediate and pressing needs": To supply lighting facilities for the buildings. The system now used is that of old-fashioned oil lamps.

Break in Water Main on Sunday Night Results in Decision to Hold Adjourned Session.

Spurred to action by the break in the water main Sunday night and the water famine of several hours, general council Monday afternoon unanimously voted to hold a special adjourned session Thursday afternoon to consider the report of the special bond committee.

When the joint committee met Monday afternoon it resumed its work of ratifying and adopting the draft report of the committee, which work was interrupted by the break in the water main.

Milwaukee, Wis., July 18.—Frank Klug, for whose "murder" Nick Georgan is serving a twenty-five-year sentence and whose body was identified by relatives returned today to his estricken family.

LOCAL OPTION BILL TO BE INTRODUCED IN HOUSE TUESDAY

Members of the house took great interest on Monday in the report that such a bill would be introduced. A mass of legislation has already been introduced in both branches of the assembly to make the present prohibition law more prohibitory, and there is considerable speculation as to what effect a local option bill will have.

### WILL ASK CHILDREN TO HELP PROTECT NON-GAME BIRDS

A movement to enlist the support of thousands of school children of Georgia in the study and protection of the non-game birds of the state will be started at the University of Georgia, Athens, next Wednesday night, when Dr. T. Gilbert Pearson, of New York city, secretary of the National Association of Audubon Societies, will address the students of the university summer school.

The association is enlisting the support of the teachers of the country. It has already established courses on bird study in the summer schools of leading colleges and universities. More than 1,000 children, under the direction of Dr. Pearson, are now studying the "Audubon Button" and instruction on birds, the building of bird-nesting boxes and the feeding of birds in winter.

Secretary Pearson, who is visiting various summer schools of this section of the country, has been a life-long student of the feathery creatures. To his work is largely due the combined effective effort of the Audubon Societies of the country which have made possible the passage of numerous state laws protecting non-game birds, the maintenance of wardens protecting birds in circles of sea and guarding of crows, the establishment of the department of applied ornithology and many other helpful phases of the protective work of the association.

### RED PIMPLES ON SCALP LIMBS

And Back. Itching and Burning. Much Loss of Sleep. Hair Came Out. HEALED BY CUTICURA SOAP AND OINTMENT

"The first visible appearance of my trouble was the falling out of my hair, which came out when combed. The scalp then began to itch, and was irritated and covered with small, red pimples which also appeared on the lower part of my face and on the back of my neck. This caused a great deal of itching and a burning sensation, and much loss of sleep. My hair came out gradually and it became thin, lifeless and dry.

I began to use Cuticura Soap and Ointment. The result was so satisfactory that I purchased more. I am now entirely healed." (Signed) R. E. L. Ned, 122 Logan Ave., Knoxville, Tenn., March 22, 1915.

**Enormous Doses Prescribed.**  
Not the least of these was the statement of Dr. W. E. Carroll himself under bond to answer charge of writing prescriptions for narcotics in violation of the law, that on March 11 of this year he wrote a prescription for Mr. McCrory for an ounce of morphine, 1,700 normal doses. Two days later, he testified, he wrote another prescription for the druggist, this one calling for a pound of opium, enough, a government expert says, to make 8,000 normal doses.  
Asked by District Attorney Miller why he prescribed such enormous doses, Dr. Carroll testified that Mr. McCrory was not only addicted to the use of morphine, but also smoked cocaine.  
Dr. Carroll said Mr. McCrory had shown him a pipe of the sort used by opium fiends and had vouchsafed the information that he owned the only "top outfit" in Macon. He had written the two prescriptions he had been informed that McCrory had given up the narcotics he had not used.

**Prescriptions Tampered With.**  
Another sensational development was the testimony of Dr. Carroll and Dr. A. M. Burt that some of the prescriptions they had written and which had been tampered with, some "raised," it was claimed, and in others decreased. The contention of the government is that these changes were made so as to make their reports balance with the amount of drugs on hand when checked up by an internal revenue agent. The druggists claim the persons having the prescriptions filled tampered with them.  
**Arguments Tuesday.**  
After the evidence was given today the hearing was continued until 10 o'clock in the morning, when arguments will begin.  
Neither McCrory nor McCrory took the stand today. Dr. Carroll and Dr. Burt generally admitted that McCrory is neither a cocaine nor an opium fiend and probably never used either in any amount.

**McMichael Badly Hurt By Automobile Monday; Driver Fails to Stop**  
W. D. McMichael, aged 40 night watchman of the Atlanta Milling company, and a supernumerary of the DeKalb county police force, was painfully injured by an unknown automobilist at Clayton Station, several miles from Atlanta, Monday.  
The victim of the auto, which, the police state, did not stop after striking the watchman, was rushed to Grady hospital, where his injuries were dressed. Police are now searching for the driver of the automobile.

Montgomery Ala. July 19.—Walter Giddens, a farmer, is dead. Mose Kent is believed near death. Giddens is in a hospital here, where his recovery is said to be doubtful as the result of a pistol duel at Kent's near here today. The difficulty is said to be the result of an argument over a contract.

**Calen Hall Gossip**  
BY A CLOYD GILL  
**Freeman Gets Relief.**  
Councilman Sam Freeman, of the tenth ward, chairman of the bridge committee of council, breathed a sigh of relief late yesterday evening when told that general council had approved of a resolution providing for the pay of the two inspectors who looked after the painting of several city bridges recently. Councilman Freeman approved the naming of two inspectors, who were named by the construction department, but they would be needed and the provision was made for them in the finance sheet. Later the aldermanic board agreed to the resolution, and it was only after a favorable report by a conference committee Monday that general council passed the measure. Councilman Ashley opposed the measure on the ground that it was ridiculous, illegal and unnecessary, and the construction department should have handled the matter. It is said that the mayor may veto the measure. Councilman Freeman was absent from the council Monday, but Councilman C. D. Knight defended him in his absence. The expense involved was about \$500.

**Need Six Flushers.**  
Chief John Jentzen stated Monday that he will ask the city for six additional flushing machines to be used in connection with the twelve now in use. The addition of the machines to the sanitary department will, he says, mean that many of the sweepers could be abandoned and Atlanta could be made the cleanest and most sanitary city in America. If the report of the chamber of commerce and the committee regarding the large number of surface closets, Chief Jentzen said that there are now about 4,000 surface closets in the city, which he believes will be done away with within three years. He will ask for a charter amendment to give council the privilege of laying sewers along streets and alleys, and on private alleys can be connected with the city sewage system.

**Mosquitoes and Flies Doomed.**  
Campaigns are now being waged under the direction of the sanitary department to exterminate mosquitoes and the officials of the department expect to have the city free from these pests by the end of the year. Chief Dr. Claude A. Smith, city chemist, declared that before the mosquito squad begins its work, the city should be free of flies. He said that police could not sleep on their night watches.

**Bond Sale of Bonds.**  
Chairman A. W. Farlinger of the council finance committee reported to general council Monday that he had a sale of redeemed bonds of the city of Atlanta, amounting to \$78,492.25 in the amount of the interest on the bonds. Several thousand dollars of bonds in the mayor's office. About \$10,000 in bonds were sold at the city's office today. The first amount was a batch of thirty-year bonds that the city had issued in 1885. The others are water bonds maturing this year.

**Dr. Dorsey Resigns.**  
City officials are having a hard time keeping the board of health intact. Several members have resigned for various reasons. Dr. Dorsey, member of the board from the eighth ward, has resigned. He will be chosen at the next regular meeting of council. At the meeting Monday, Dr. Dorsey was succeeded by Dr. J. H. Bradley, superintendent of Battle Hill Tuberculosis sanitarium.

**Dispose of Old Stock.**  
General council Monday passed a resolution by which the city will dispose of several hundred head of certain cattle now owned by the city at Battle Hill sanitarium. The resolution among other things specifies that two cows that are dry and one old bull no longer fit for dairy purposes. The other cattle are to be sold and the proceeds will be used in purchasing more cattle.

**To Investigate Warehouse.**  
An appropriation of \$500 was set aside by council Monday to pay the expenses of City Purchasing Agent W. E. Chambers and Assistant Comptroller Graham West in making a visit to several cities to make a study of the need of such an institution in Atlanta. The need of the proposed warehouse was first called to the attention of general council by Councilman A. W. Farlinger several months ago.

**Woodall to Inspect Licenses.**  
License Inspector Charles J. Woodall will in the future inspect all back and day licenses in the city. It is the policy following the action of general council Monday in adopting an ordinance providing for the inspection of licenses. The ordinance was passed several years ago providing that the chief of police should inspect licenses. Mr. Woodall says he is planning a raid on the back and day license holders whether or not they are complying with city ordinances and he expects to inspect many of them in the city since many operate from 10 o'clock until midnight that cannot be located during the day.

**To Buy Another Ford.**  
A resolution by Councilman Edwin Johnson, Monday, was passed by council Monday providing for the sale of several old cars and carts used by the police department. The resolution provides for the purchase of a new Ford auto for the use of the police department. The car is to be sold for \$100 and the proceeds are to be used to buy the car. The resolution is not sufficient to buy the car, but it is a step toward the appropriation to cover the deficit.

**Defends Claims Committee.**  
Councilman Ashley protested against the passage Monday by council of a resolution taking \$17,000 from the claims committee fund and placing it in the general fund. Ashley said that the resolution would be used in the purchase of a new Ford auto for the use of the police department. He said that the resolution is not sufficient to buy the car, but it is a step toward the appropriation to cover the deficit.

**Cyclorama Measure Passed.**  
Councilman George Freeman got quick action Monday on his resolution providing for a charter amendment to create a bond commission and a fund of \$10,000 each year for a fund for erecting a new cyclorama building in the city. The measure was passed by council Monday. Councilman Freeman said that the measure was passed because of the importance of the cyclorama building. He said that the measure would be used in the purchase of a new Ford auto for the use of the police department.

**Freeman to Visit Parks.**  
After passing his resolution for a new cyclorama building, Councilman Freeman announced Monday that he would go for an extended visit through the north and east to study park systems and other city parks. Among the cities he will visit will be Louisville, Chicago, Milwaukee, Detroit and other cities noted for their park systems.

**Hampshire Is Lauded.**  
General council Monday unanimously passed a resolution by which Councilman Hampshire is lauded for his services to the city. The resolution was passed by council Monday. Councilman Hampshire said that the resolution was passed because of the importance of his services to the city. He said that the resolution would be used in the purchase of a new Ford auto for the use of the police department.

**TWO BILLS INTRODUCED ON RAILROAD CHARTERS**  
**Judge Spencer Atkinson and Walter P. Andrews Offer Measures in House.**  
The house passed one general bill yesterday morning, postponed action on three others and introduced two new bills. The bill passed was to amend an act so as to allow railroads and other corporations to take the wages of minor children the wages of a deceased employee to the amount of \$300 without any administration on the estate.  
The following bills were read the second time and laid over as a special order of business next Thursday morning: The woman lawyer bill heading the order.  
A bill to require that all railroads secure charters from the legislature.  
A bill to permit women to practice law in the state.  
A bill to require buyers of cotton to keep a record of all purchases was sent back to a committee with amendment.  
A bill by Mr. Walker, of Ben Hill to require the muzzling of dogs in the summertime was laid on the table.

**Railroad Bills.**  
The bill to require that railroads secure charters from the general assembly is by Judge Spencer R. Atkinson, and a commission and a committee of the Western and Atlantic railroad in lieu of this bill. Walter Andrews introduced another bill. It was claimed that Judge Atkinson's bill might cripple the railroad industry. Mr. Andrews' bill contains the following provision:  
It be enacted by authority aforesaid that the governor and the railroad commissioners of Georgia shall be and they are hereby authorized to investigate and report to the general assembly the desirability and necessity and public utility of providing for the construction of a railroad in the state of Georgia and to report its findings and recommendations to the said secretary of state. No action by said secretary of state granting a charter corporate powers and privileges to any railroad shall be taken by him unless said commission shall be and remain in force for a period of all the said commissioners affirming the desirability, necessity and public utility of such proposed railroad.

**Tybee Invitation Accepted.**  
The house accepted an invitation to visit Savannah on July 24 to attend the agricultural meeting to be held at that city.  
Mr. Andrews announced that the joint committee from the house and senate on the Western and Atlantic railroad would leave the city Tuesday and be gone until Thursday to visit Chicago to inspect the state property.  
It was ordered that 300 copies of the bill to require the muzzling of dogs in the state be printed and given to the members of the house.  
Among the important new bills introduced was one by Mr. Shipp of Col.

quilt, calling for the election of three additional judges of the court of appeals to relieve the work done by the supreme court.  
Mr. Johnson, of Appling, introduced a bill requiring that parents and guardians register with the ordinary all females under 18 so that minors cannot procure marriage licenses.  
A number of local bills were introduced several of which called for the abolishing of the office of county treasurers. There has been some fifty similar bills introduced this session. Several local bills were passed.

**Case of Billy Brown, For Murder of Wife, To Come Up Tuesday**  
Roma, Ga., July 19.—(Special)—The commitment trial of Billy Brown for the murder of his wife and daughter of the Maine, on a charge of wife murder, was held today in the court of the cause of the absence of witnesses for the state but is set for tomorrow before Justice Broach.  
Brown insists that he is innocent and that his missing wife eloped with an other man. BREAK IN THE WATER MAIN. While, fortunately, no serious casualty resulted from the breaking of the city's 36-inch water main on Fourteenth street Sunday night, considerable inconvenience and discomfort were caused in many of the city's institutions and homes through the interruption for an hour or more of the water supply.

Restoration of the supply, at lower pressure, brought a flow of yellow, muddy water that no one cared to drink, and in which few were willing to bathe, and, most serious of all, the inadequate pressure until the main was repaired created a situation in which an ordinary fire might have proven disastrous.

Atlanta can ill afford to take chances of this sort. Admitting, as the water department states, that "it was just one of those things that can't be helped," there is still reason to believe that service in meeting and taking care of the situation might have been more speedy. It is stated that extensive sewer work is being done close to where the break occurred, and that "at this point waterworks officials were expecting trouble with the main for some three weeks."

If this is the case, it was, of course, the duty of the department to go to every possible extent to guard against it. No precaution whatever should have been omitted, both to prevent such a break in the main and to give immediate notice of it and attention to it if it did occur.

As it was, it took some time to locate the break and it required more time to get the necessary men together to cut out the broken section from the system; and when that was done, it left the city with insufficient fire pressure, and water apparently muddier than the Chattahoochee river itself.

The truth of the matter is Atlanta ought to be safely equipped against injury and possible fatality, through such accidents to her water system as this. There was talk some time ago of installing a double 36-inch main purely as a safeguard and insurance feature, so that in the event of an accident to one main the other would remain in commission with at least no more interference than the time required to close the valves, and without diminution in the water pressure while the break was being repaired.

The waterworks system is Atlanta's one remunerative asset, and the city can well afford to make it as nearly perfect as human ingenuity will permit. The physical well-being of every man, woman and child in Atlanta is directly dependent upon the water supply, health, life and the safety of property require its standard maintenance, and no risk should be taken at any point where it is avoidable.

Now that it has been demonstrated that the big main can break, and, under given circumstances, is liable to break, every essential step should be taken to provide the necessary safeguard for the future. The waterworks system is the one thing of all others with which we cannot afford to be penurious, and council should lose no time in providing the needed remedy against a recurrence of this dangerous accident.

COUNTY TREASURER DOOMED. There are, perhaps, as many local bills pending before the present legislature for the abolition of the office of county treasurer in the various counties involved, as have occupied the attention upon this subject of all the legislatures which have preceded it.

Most of the small counties all over Georgia, it appears, are reaching the conclusion, one after another, that the office of county treasurer is a useless and unnecessary incumbrance. It involves an expense for salary and office equipment for a service which almost any bank not only gladly renders, but is willing to pay for the privilege of having the county funds on deposit.

throughout the state is, perhaps, the chief factor in this apparently systematic action, especially on the part of the country counties, in doing away with their treasurers, whose only duty has been to serve as custodian of the county funds and to make payment of bills from them, when authorized by the duly constituted county authorities.

The growth of banking in Georgia has been a product of recent years. Within the last quarter century the number of banks in the state has grown from around a hundred or less to some 750, approximately 650 of which are state banks, and the others national. There isn't a county in the state today without its bank, and in some of the country counties there are three or four of them, generally prosperous. Almost every cross roads town now has its banking facilities right at home.

This rapid and widespread extension of the state banking system has revolutionized county finance and, among other things, it appears to have made the office of county treasurer, for the country counties at least, unnecessary. In many instances the banks are glad to take the county funds on deposit, paying 2 per cent on daily balances, the same as is paid upon deposits of state funds in authorized depositories.

Adequate protection is provided through bonding or otherwise, and it remains only for county commissioners or ordinary, as the case may be, to check directly upon the county deposit in the payment of bills.

Thus the county saves at both ends by abolishing the county treasurer's office, it has no salary to pay, and it earns a regular income on its daily balances.

There may remain some necessity for the office in a few of the more populous counties where large amounts are handled and where fiscal systems are more intricate and involved, but for the country county it is evident that the day of the county treasurer is passing, and this particular political species bids fair in the near future to become extinct.

SURE PROSPERITY SIGNS. That signs of increasing prosperity are visible everywhere is the testimony of Mr. Arthur J. Nussbaum, merchant, of New York, in The Washington Post.

Starting out with the idea that he was going to meet with a bad condition of affairs, due to depressing influences of the European war, he visited twenty-four states and, after a business investigation, he says:

"The much-talked-of hard times seems to come from the calamity howlers, and I have been converted to the cause of President Wilson because I found that, on all sides, he has the support of the people. Their implicit faith in him is positively remarkable."

In the south there seems to be plenty of money. None of my customers have asked for more than the usual credit, and more than half of their orders are paid for in cash. The mills were all in operation, and the employees were working full time.

In the middle west the automobile factories are taxed to their limit, and some are unable to make prompt deliveries or come anywhere near filling their orders. Most of these orders are for pleasure cars.

These encouraging business conditions are general, and therein is the rebuke to the "knockers" who maintain there is no business boom on.

One has only to go abroad in the land and "see America first" to discover how far wrong the pessimist is in theory and practice. The country's optimists are coming into their own. Results are in their favor.

In line with the above we quote the following from an editorial in The Dalton (Ga.) Citizen.

The calamity howler can howl the pessimist can wall, but all of us are obliged to face facts. Look them in the eye and then admit them. All over this great country business is looking up. Empty freight cars are being pushed out of the sidings and extra trains are going into service.

The demand for steel and iron is increasing every day. The country is showing the stimulus of renewed energy and confidence. Old Man Gauley is on the run.

"Renewed energy and confidence" is the keynote—the basis of this prosperity. That these are in evidence everywhere are hopeful signs of better times.

Bills Introduced and Passed in Both Houses of Legislature Yesterday.

The following bills were introduced Monday in the house: By Dorris of Morgan—To regulate sale of unbled lint and scrap seed cotton. By Washington Delegation—To empower superior courts to incorporate telephone companies.

Dr. Thoreauell Jacobs Will Preach on Fall Of the Great Empires. A PROPHECY FULFILLED. From The New York Times. The murderer of Stanford White at last goes free. By the provision of law and under the terms of his sentence his detention at Matteawan was to continue until he became sane. A jury and a judge of the supreme court have found him sane. The term we have used is not misapplied, for if Thaw is sane now he was sane on that June night nine years ago when he killed Stanford White.

The crime and the circumstances of the crime create a presumption amounting to a certainty that if he was then insane his mental affliction was of an incurable nature. The legally established fact of sanity at this time established by reasonable inference and the force of certainty his sanity in the legal sense at the time of the murder Thaw should have suffered the penalty for his crime.

That he is now set free fulfills in a remarkable manner a prophecy made more than five years ago in a report of the special commission on the commitment and discharge of the criminal insane, presented at a meeting of the State Bar association in Rochester in January, 1910.

To keep this murderer under restraint in the city of New York for as long as years done battle against the Thaw money. It has now been soundly beaten. "It is a mere question of time and money when this particular murderer will be set free to direct his homicidal inclinations against some other citizen."

THAW STEPS FROM THE LIMELIGHT. Technicians aside Thaw is a free man. A jury and a learned judge have decided that the slayer of Mr. Stanford White is sane, and that society is in no further need of protection against him.

THAW SANE AND INSANE. The liberation of Thaw vouched for by judge and jury is sane will be accepted philo-sophically which have never been so weary of him. If his sanity was a rear in the city and state as a wastrel, a homicide and a prisoner is not to be wholly demoralizing in its effects upon society.

THAW HAD AN ABUNDANCE OF MONEY. It was Thaw's money that in 1908 pronounced him sane. It was his money that set him free. The expectation of the Thaw money was that on acquittal he would be speedily released, but a commitment to Matteawan as an insane person having criminal propensities came both Thaw's money that was his punishment. It was the Thaw money that set the institution upside down, and it was the Thaw money, operating through lawyers, doctors, experts and legal processes, that kept the question of the prisoner's sanity before the courts for years.

THAW BOWS BUSINESS. The Waldorf Hotel on Monday morning 10 o'clock in the morning is as quiet as a morgue. But yesterday when Harry Thaw, accompanied by the high sheriff of New York county, strolled into the dining room for some seats, the scene changed immediately.

THAW'S TRIUMPH. After a legal battle unprecedented in the history of the country Harry Thaw has been declared a sane man, and he is entitled to his freedom. He was a spoiled child of wealth, an ideal product of Pittsburg and from the time that he was a mere youth he was surrounded by a host of flatterers and sycophants.

HARRY THAW AT LARGE AGAIN. In the liberation of Harry Thaw the public has not even the satisfaction of the assurance that it has heard the last of this unsavory case. The murderer of Stanford White is still under heavy bonds and the state has appealed to a higher court from the decision of the tribunal which set Thaw free.

HOW PRESS VIEWS JUSTICE AS METED OUT IN NEW YORK. Effort to Make Criminals Of White People Who Teach Negroes Bitterly Condemned.

STONEMAN JACKSON WAS SUPERINTENDENT OF NEGRO SUNDAY SCHOOL. Editor Constitution The editorial entitled "An Unjust Measure" has the right ring. It is amazing that Georgians should wish to make criminals out of white people who teach negroes. It is all right to educate and enlighten them in Africa, but in Georgia it ought to be a crime. I wonder if legislators in Georgia will ever have the courage to repeal or individual superiority by such legislation?

Editor Constitution I am astonished that the Senate of the State of Georgia should have passed a bill to prohibit white teachers from teaching negroes. I wish to express my cordial approval of such a bill as it is an unjust measure. Very truly yours, Rose Hill Plantation Middleton Ga. M. L. B. ADAMS

Editor Constitution I accept my thanks for your editorial on "Unjust Measure" in today's Constitution and my commendation of the same concerning white teachers in the schools. You will and wisely say that if Georgia enacts such a law it will virtually refuse the door to the state to the means of civilization for which the white man stands. I heartily join you in the hope that white teachers will never be expelled from their schools in the same way. Respectfully, Quitman Ga. (REV.) J. W. COLSON

lawyers were employed to defend him on the plea of insanity. The jury returned at first a verdict of insanity. The next day a native Tennesseean who had been in New York for some years, took his case in hand, and after a long and bitter fight, he convinced that Thaw was such a madman that it has taken years and years and the expenditure of a large sum of money to convince a court and a jury to the contrary.

The Pittsburg had no sooner taken his seat at the table when the tip was quietly passed through the hotel that he was there. All men at the table who never think of breakfast before noon hurriedly dressed and went to the dining room in less time than one could count. Able men, rich and every woman requested a table near the famous prisoner. The hall was crowded with people as the recipient of many feminine notes. One of these notes amused him very much. After reading it he crumpled it up and threw it away. When Thaw arose to leave the dining room a woman at one of the tables clapped her hands kindly and offered to buy a good dinner. What Thaw did under a general ripple of Waldorf dining room applause.

HARRY THAW AT LARGE AGAIN. In the liberation of Harry Thaw the public has not even the satisfaction of the assurance that it has heard the last of this unsavory case. The murderer of Stanford White is still under heavy bonds and the state has appealed to a higher court from the decision of the tribunal which set Thaw free. Under these circumstances, there is little hope of escape from the indefinite prolongation of the proceedings. Meanwhile, the demonstrations of the crowd in the courtroom offered for nothing but a "show" of what the psychology can explain that evades the question. What has Thaw ever done that was admirable or worthy of such a show? The answer to the last query, The killing of Stanford White. To admit that would be to open the door to the indefinite prolongation of the proceedings. The public rightly has had deep sympathy for the man who for all these years labored unceasingly for his own behalf and the conviction has been given a new and worthy object of all this demonstration.

# PROBE'S PLANNED BY PRISON BOARD

## Commission Announces Full and Searching Investigation Will Begin at Milledgeville Next Saturday.

The state prison commission will go to Milledgeville on next Saturday and conduct a full probe into the conditions surrounding the wounding of Leo M. Frank by William Green, with the view of ascertaining whether there was any plot between Green and any party on parties either inside or outside the state farm to murder Frank, whether proper precautions were taken for the protection of the life of the injured convict, and, if not, to place the responsibility for the neglect.

### Thorough Investigation.

Although the prison authorities have reported that they have been able to find no evidence that anyone save Green was involved in the plan to take the life of Frank, the commission will not be satisfied with anything less than an investigation made by themselves.

Among the points upon which they will seek enlightenment will be whether Green committed the act of his own accord or whether he was prompted to the deed by influences outside of the prison, or by anyone connected with the institution or by any of his fellow prisoners.

Should it be found to be true, as is reported, that Green alone originated and executed the plan to kill Frank, the commission will endeavor to find out what prompted him to this action. This phase of the investigation will include a probe into whether any inflammatory literature upon the Frank case has been circulated among the prisoners, or whether there had been any animosity on the part of the prisoners that may have led to the act.

Judge Dawson states that Green was not a butcher and had not been engaged in killing hogs, but that his work was in the kitchen, and that he secured a knife from the kitchen, which knife had been used for the purpose of cutting salt meat.

The prisoner having thus had access to this deadly weapon, the commission will consider whether guards or officials Green had to pass on the night of the cutting after he had completed his duties in the kitchen, and also whether such officials made any search of Green or person or otherwise took precautions to see that he was not equipped to do harm to fellow prisoners.

The commission will also endeavor to place responsibility, if there is such, for Green's leaving his sleeping place on the night of the cutting, and for what purpose he may have been given permission to do so, if he was given permission.

The commission will make as thorough a probe as possible, and in event it is established that any official is guilty of neglect of duty which made possible the incident, the commission will take proper steps for punishment are taken.

### No House Probe.

Two resolutions introduced in the house yesterday calling for an investigation of the attack by Leo M. Frank on William Green were promptly tabled by the penitentiary committee, to which they had been referred.

# CAPTION Gossip

## General Wright Visits Office.

Friends of Comptroller William A. Wright were glad on Monday to find him able to be at his desk in the state house again after several weeks of illness. The general's illness was not of a critical nature, it has been serious enough to detain him at his home for several weeks, and he had not been able to be at the state house since the convening of the general assembly. He was feeling much better on Monday and spent all the morning in his office, going home in the afternoon.

## Investigate West End Pleas.

J. Prince Webster and others of the West End neighborhood yesterday afternoon made a tour of inspection of West End park to investigate the grounds of the petition of certain citizens of that section of Atlanta asking the railroad commission to order local express companies to make deliveries in that section of the city.

## Reward in Feud Case.

Governor Harris Monday offered a reward of \$500 for the capture, with proof to convict of the murderer or murderers of the famous Chattahoochee river feud case. The offer sets out that on June 26 or 27 in Harris county, Max Melton, Eugene Melton and John Leak were killed by party or parties unknown, and a reward of \$200 is offered in each case.

## Gubernatorial Appointments.

Several appointments were made by Governor Harris on Monday. Otey B. Mitchell, of Atlanta, has been appointed to represent the state of Georgia at the convention of the National Tax association, to be held in San Francisco, August 12 to 17. Mr. Mitchell is connected with the Southern Bell Telephone company.

## Robert P. Maddox former mayor of Atlanta has been appointed to represent the state of Georgia at the Pan-American Roads congress, to be held at Oakland, Cal., September 14, for three days.

## The following nominations have been prepared by the governor to be sent to the senate for confirmation:

Ben W. Turpin to be judge of the city court of Fort Gaines. Attorney P. O. Collier to be collector of the city court of Fort Gaines.

## Both the nominations are made for a term of two years, dating from August 27, this year.

## Elders Bill Favored.

The penitentiary committee of the house yesterday afternoon made a favorable report on a bill by Representative H. H. Elders, of Talmadge, which calls for a distribution of the road building money in the state.

## The bill provides for the prison commission to distribute the convicts to the different counties according to the mileage in each county. Mr. Elders explained his bill and the committee voted for it unanimously.

## Barwell's Bill Recommended.

The house committee on education on Monday reported on a bill by Representative Speaker Barwell providing for the election of county superintendents of schools by the county boards of education.

## This bill provides that the office of county superintendent shall be filled in a manner corresponding to that of cities. The object of the bill is to increase the efficiency of this office. Under Mr. Barwell's measure the incumbent of the office is not dependent upon the mere fact of a man's political popularity with the people of his county, but upon the merit of his selection to the office.

## Cook Committee Optimistic.

When the proposed constitutional amendment for the creation of Cook county comes up for the consideration of the house committee on constitutional amendments the latter part of this promulgation of a favorable recommendation of the committee.

## They claim for their county the recognition of the county commission of the southern portion of which the proposed county of Cook is to be taken, and also the approval of the people of Berrien county by the vote of the entire county.

## Michelin Tire Prices Reduced 10 Per Cent.

Michelin prices have just been reduced 10 per cent. This change has been made in the quality of these well-known tires. This good news is sure to interest motorists, especially as Michelin tires have been selling for some time at prices a little too high for some of the more moderate motorists. The Michelin manufacturers state that they have been unable heretofore to reduce selling prices without sacrificing the recognized high standard of quality of Michelin tires.

## Chattooga Man Killed by a Bolt of Lightning.

Summerville, Ga., July 19.—(Special.)—This afternoon lightning struck the peach packing shed of E. W. Linden, near Summerville, where a large crowd were packing peaches, instantly killing Jack Cash, a young man, and the mule he was holding, and ignited a nearby building, which another packer, Rivers Lowe, was sitting in.

# NEW AUTO BILL IN HOUSE TODAY

## Measure to be Introduced by Representative Garland Jones Designed to Remove Objectionable Features of Present Law.

Garland M. Jones, representative of Coweta county, will introduce today a bill as a substitute for the state automobile license law, and designed to remove therefrom the feature which is now regarded by many automobile owners about the state as objectionable.

This bill was worked out by Mr. Jones and Secretary of State Phil Cook, who has charge of the administration of the automobile tax law. Attorney General Cliff Walker was called into consultation and it is believed that the bill which has been decided upon will be satisfactory to all parties.

## Provides Two Funds.

One of these funds, which is to be provided by setting aside one dollar from each license tag bought, will be known as the maintenance or administrative fund. For the administration of this fund, the secretary of state will appoint an administrative committee on the basis of the number of automobile owners in Georgia, as shown by the records in the office of the secretary of state, the administrative fund would amount to some \$2,000. The general road fund would amount to approximately \$150,000.

The present receipts for the sale of automobile license tags are \$110,000. The law provides that the secretary of state may appoint inspectors for the purpose of enforcing this law, and also such clerks as he may need in his office, their salary to be provided for out of the administrative fund. Any surplus left over from the administrative fund would revert to the general treasury fund. This bill, if passed, would interfere in no way with the bill of Mr. Andrews, of Fulton, which provides for the systematic construction of state highways by means of the general automobile road fund, instead of utilizing this fund upon the present plan of the state highway commission.

## Provisions of Bill.

The bill of Mr. Jones has been compiled after careful study, and takes in the best features of the automobile license law of the different states, and is constructed to conform to the decision of the state and United States supreme courts upon the question of the license law. The chief provisions under Mr. Jones' bill are as follows: First, the license fee for different classes of vehicles are fixed as follows: Motorcycles, \$2; automobiles not exceeding 20-horse power, \$5; automobiles exceeding 20-horse power, \$7; electric motor vehicles, \$5; for each commercial motor vehicle used to carry passengers for hire, \$10; for non-passenger motor vehicles, \$5; for each truck, \$10. In addition to these, dealers can obtain a dealer's license for the amount of \$20, for which he will then receive as many duplicate numbers as may be required for demonstration purposes. The cost of the \$2 per car fee will be noted that the principal improvements in the foregoing provisions of the bill are that motor vehicles are taxed both according to their value and according to their destructive effect upon public highways.

Second, under this bill numbers destroyed or stolen may be duplicated by proof of such loss to the secretary of state and payment of 50 cents to cover the actual cost of the number.

Third, a number used on a car may be transferred to the purchaser upon the sale or exchange of the car by the registration of the motor vehicle in the office of the secretary of state and the payment of \$1 to cover expense of clerical work.

Fourth, where a machine is registered after August 1, the purchaser will be required to register on half the above fees for registering a number.

Fifth, the bill provides a general uniform law throughout the state, setting no speed limit, but requiring reasonable and safe driving, also defining conditions of safety and making reckless and careless driving a violation of the law.

# WILL INVESTIGATE ATTACK ON RUSSELL

## Appointment of Committee Favored in Resolution Adopted by House Committee.

The charges made against Judge Richard B. Russell, of the court of appeals by Attorney William T. Moyers will be investigated by a special committee from the house of representatives if a resolution adopted by the Judiciary committee is agreed to by the members of the house.

The committee took up the matter Monday afternoon, and before it a printed copy of Mr. Moyers' charges. There were present several of the friends of Judge Russell, who presented his answer to the charges. They stated that the answer was a general and full denial to every allegation made by Mr. Moyers.

## Hearing Concluded on Anti-Trust Bill.

House Committee Also Hears Arguments on the Semi-Monthly Pay Bill.

House general judiciary committee No. 1, Monday afternoon concluded its hearing on the anti-trust bills, introduced in the house by Representative Yeomans, of Terrell, and Representative Dorsett, of Carroll. A delegation of some fifteen men, representing various business interests, appeared before the committee and argued against these bills. The committee took the bills under advisement and will report upon them later. Both bills provide substantially the same thing, which is that no business concern may charge one price for an article in one section of the state and another price in another section.

The committee also completed its hearing on the semi-monthly pay bill, but took no action. There were also a number of business men, including representatives of the railroad, the south Georgia saw mill and turpentine interests and the Atlanta Chamber of Commerce. The bill provides for salaries to be paid semi-monthly instead of monthly.

Robert P. Maddox appeared for the Atlanta Chamber of Commerce. The bill would appear, according to the bill would be the Atlantic Coast Line, the Seaboard and the Atlanta, Birmingham and Atlantic. The arguments against the bill were mainly that the people employed are under contract to work by the month, that business conditions at this time are decidedly otherwise than propitious for such a sweeping change.

# W. & A. PROTECTION PROVIDED BY SENATE

## Upper House Passes Statutory Amendment Introduced by Senator Persons.

The senate passed Senator Persons' bill yesterday providing for a statutory amendment to prevent the secretary of state from issuing a charter to any railway for the purpose of paralleling the tracks of the W. & A. This bill is a companion to the measure passed in the senate last week, authorizing a popular vote on a constitutional amendment to the same effect. Both bills prohibit a parallel road only so long as the railroad property belongs to the state.

Senator Minter, of the twenty-second, was the only vote against the Persons bill. A bill by Senator Turner entitling state banks to membership in the federal reserve banks also passed the senate. This legislation, it was contended by the author of the bill, will allow the state banks to obtain money at lower rates of interest, and will benefit the farmers of the state. It is expected to prove an aid in the moving of the cotton crop.

## MANY WAR ZONE HOSPITALS.

Have ordered Allen's Foot-Ease the anti-septic powder for use among the convalescent troops in hospital. Allen's Foot-Ease gives refreshing rest and comfort and prevents the feet getting tired or foot sore. Drug and Department Stores Everywhere sell it. Don't accept any substitute.

According to a resolution passed in the senate Monday.

The senate committee on constitutional amendments reported adversely on a proposal to create Wilson county, which would annex parts of Bartow, Pickens, Gordon, Murray, Gilmer and Cherokee counties. In a heated debate the advocates of the new county proposition pushed their cause vigorously, but practically all the legislators representing the counties affected opposed the plan.

The senate appropriations committee approved the house report to appoint a commission of nine representatives and three senators making a representative from each congressional district to investigate the deaf and dumb schools at the Springs. It has been proposed to move this institution to Alacon.

The committee on railroads will meet Thursday afternoon at 3 o'clock to consider the headlight bill and other measures. The senate committee on commerce and labor will meet at 3 o'clock Thursday morning. Chairman J. J. Mangham will ask for discussion on several labor bills before the senate.

The entire senate leaves at 9 o'clock this morning for a trip to Chattanooga to investigate the state W. & A. property. The senate returns for session Thursday morning. Saturday the senate will accept an invitation through Senator A. Lawrence of the first, from the Savannah Board of Trade requesting the upper house to attend.

# Peek's Tea

## Perfect Tea (Vacuum-cleaned)

### The Tea of Your Fancy

YOU have loved good tea, but you have sought better tea. Time and time again you've been tempted and disappointed. Somehow your tea never quite kept its promise. It never seemed all that tea might be.

You could describe this tea from your fancy. Other teas have suggested this perfect flavor. Others have faintly forecasted its aroma.

Yet your ideal of a perfect tea was no idle dream. It actually exists as PEEK'S PERFECT TEA.

It is the realization of the tea you have longed for.

None but the finest and most fragrant leaves are used for Peek's. Our expert tea tasters in the Orient select, for this purpose, only those teas containing the choicest attributes of fine tea—flavor, delicacy, aroma and richness. When their selection reaches us, our tea experts here go over them again and reject any that may have been affected by the long sea voyage. This double safeguard by experts at both ends is your tea insurance. Fine as these selections are, they still have to undergo the important process of vacuum-cleaning to remove all fluff and extraneous matter (natural to all tea) that would otherwise impair the cup result. After this last perfecting process, we pack the tea by machinery in air-tight cans that preserve its fineness to the last spoonful. This best possible tea must reach you in the best possible condition.

Let this be your day to try Peek's Tea. Why defer this delight another hour?

## MICHELIN TIRE PRICES REDUCED 10 PER CENT

Michelin prices have just been reduced 10 per cent. This change has been made in the quality of these well-known tires. This good news is sure to interest motorists, especially as Michelin tires have been selling for some time at prices a little too high for some of the more moderate motorists. The Michelin manufacturers state that they have been unable heretofore to reduce selling prices without sacrificing the recognized high standard of quality of Michelin tires.

## CHATTOOGA MAN KILLED BY A BOLT OF LIGHTNING

Summerville, Ga., July 19.—(Special.)—This afternoon lightning struck the peach packing shed of E. W. ADAIRS QUALIFY IN WESTERN MEET

Perry Makes an 82 and George an 84 in Elimination Round at Cleveland Monday.

George Adair and his son Perry, representing Atlanta in the Western Amateur golf tournament, which started at the Cleveland Country club course at Cleveland, Ohio, yesterday, qualified for play in the qualifying round today.

Perry turned in a card of 82 and George an 84. The Associated Press dispatch about the tournament follows:

Cleveland, Ohio, July 19.—Poorer scores than in the previous rounds of the Western Amateur Golf tournament at the Mayfield Country club today have been recorded in several seasons.

The day's lowest scores were two cards of 76, made by Jack Neville, of Oakland, Cal., and Paul Hunter, of Chicago.

The sixty-four left in the running will play tomorrow morning in the qualifying round. Scores that will be added to the scores made today, the thirty-two lowest remaining in play for the qualifying round.

Match play will be staged tomorrow afternoon. There were 166 starters in the elimination round.

Under this head the sporting editor will endeavor to answer all questions pertaining to all branches of sports.

Is a base runner passes another base runner, is he out? A. B. C.

In the Bowden case Columbus, in the early league, Finney Bowden that was with Atlanta the beginning of the season? J. S. G.

BIRMINGHAM PROFITS ADVANCE CURBED LABOR UNREST AND ORDUNA INCIDENT CONTRIBUTE TO RE-INCIDENT IN UPWARD TREND FOR INDUSTRIALS.

Geo. B. Ward Tells How His City Has Benefited by This Kind of Government. Birmingham government, as exemplified by Birmingham, was pronounced a great success by George B. Ward, president of the city commission of the Alabama city and one of the widest known business men in Birmingham, who attended the annual directors' meeting of the C. O. Stone & Co. company, held here yesterday.

In a conversation with a reporter for The Constitution Mr. Ward laid particular stress upon the advantages of the Birmingham government, particularly in bringing about municipal ownership of the city waterworks system.

For twenty years there has been discussion and opposition in Birmingham's civic government over the question of ownership of the waterworks system. According to President Ward the strife between the factions in the aldermanic bodies and council prohibited the city from taking possession of the water plant.

Plans are now being made whereby the government proposes to take over the waterworks system and to convert it into one of the most up-to-date plants in the south.

PACKAGE OF ICED TEA FREE TO CONSTITUTION READERS

At last! Something for nothing! It has been said that no one ever gets anything for nothing, but here is a chance where you may really get something—and something mighty good, too—for nothing—absolutely free. Read the "Want Ad" page of today's Constitution, and if you find your name there, you may call at the Constitution office and receive absolutely free a big package of Heekin's famous Deer-Hind Iced Tea. The Constitution will select at random each day from the city directory a number of names of Atlanta ladies. Maybe your name is there today. If not today, perhaps it will be there tomorrow. Look each day, for it is likely to appear at any time. Whenever your name appears all you have to do is call or send to The Constitution office and get your fine package of tea free. And for these sweltering days that is better than a big frosty glass of tea, with the ice tinkling in it!

FOUR CLUBS WIN FIGHT IN COUNCIL

University, Greek Society, Terrace and Owls Clubs Are Granted Permits, But T. M. A. Is Turned Down.

Anti-locker club forces in general council again lost Monday when that body granted four of the five applications for locker clubs that had been held up for various causes.

The University club's permit was granted with only four opposing votes—McCord, White of the seventh, Dennis and Peacock.

The Owls and Greek society were granted permits by a vote of 10 to 6. In the case of the Terrace club, Alderman Lee Barnes asked to be excused from voting on the ground that he was absent from the council.

Councilman J. C. White and Alderman Albert Thomson again took the floor and asked that the applications be turned down. The ordinance was adopted by the Men and Religion Forward Movement mass meeting on Sunday, July 11, was presented, they had it read and it was adopted.

White asks separate vote. Councilman White demanded that each club be voted on separately, declaring, "I want to see the application of the police committee, verily on this application whether the club in question is run for the benefit of the community or if it is operated so a few men can sell liquor and make money."

White's motion was carried by a vote of 10 to 6. The University club's permit was granted with only four opposing votes—McCord, White of the seventh, Dennis and Peacock.

WIFE MURDERER PLEADS INSANITY

Trial of C. F. Polk, Who Killed Wife Near State Insane Asylum Last January, Began Monday.

Milldegeville, Ga., July 19.—(Special).—In the courtroom, crowded to capacity, many of the crowd being women, the trial of C. F. Polk began today in Baldwin superior court.

A special plea of insanity was entered by Polk's counsel, a jury was drawn and on that issue alone the trial is in progress.

In stating the plea the defense has introduced witnesses who testify that Polk exhibited symptoms of insanity in early youth. Others testify that all along through life, before the crime, he was given to brain storms.
