

ITALIAN INVADERS STILL ADVANCING; AUSTRIANS RETREAT

Thirty-Seven Villages Are Taken by Italians in Province of Trent, and the City of Trent Is Threatened.

London, June 1.—The Italian army invading the Austrian province of Trent from the east, having previously captured the town of Cortina, sixty miles northeast of the city of Trent, now has occupied thirty-seven villages in the surrounding district. The Austrians continue to fall back, presumably having determined to give battle on fields of their own choosing. The Austrian city of Rovereto, whose elaborate defenses are relied on to check the Italians from pushing up the Adige river valley and besieging Trent, now is threatened by the invaders. Rovereto lies thirteen miles south of Trent, capture of which is one of Italy's great objectives. An official Rome statement says the Italians have occupied the important height of Zuzana, which dominates Rovereto. The other important Italian move, across the eastern border, which has the capture of Trieste as its apparent objective, has been slowed up by swollen rivers, but the official statement says progress is being made. 37 TOWNS TAKEN BY THE ITALIANS. Udine, Italy, June 1.—(Via Paris.)—Italian troops have occupied thirty-seven villages surrounding Cortina, in the Ampezzo valley. The troops which occupied these towns constitute the Italian army invading the province of Trent from the east, simultaneously with invasions from the south and west. Cortina, occupation of which by the Italians was announced yesterday, lies sixty miles northeast of Trent. The municipal authorities of Cortina today sent a telegram to King Victor Emmanuel, expressing their loyalty to him. Montebelluna, northwest of Trieste, is

being closely pressed both from land and sea. AUSTRIAN AIRSHIPS ATTACK BRINDISI. Rome, June 1.—(Via Paris.)—Austrian aeroplanes have flown over Bari and Brindisi, seaports on the Adriatic in southern Italy. They threw bombs which killed one person and wounded two others. This information was conveyed in an official statement which reads: "Two enemy aeroplanes have visited the eastern coast. One flew over Bari and the other over Brindisi and dropped bombs. At Bari a boy 15 years old was killed and at Brindisi two persons were wounded. Regarding military operation the statement says: "The advance of our troops beyond the Tyrol-Trentino frontier continues and we have occupied the important height of Zuzana, about four miles north of Ala, which dominates Rovereto. Upon this height the Austrians some time ago ordered a fortress to be built. "Our vigorous artillery action upon the plateau being followed up, the fire of the Austrian forts at Belvedere diminished in intensity and our infantry is solidly established upon the position. "Our light troops in the valley of the Adige arrived within five miles of Bozoesis supported strongly on two slopes of the valley. The mountains of Belvedere which dominates the valley of the Adige in the Cismon valley in also in our hands. "A battalion and a half of Austrians with machine guns attacked our Alpine troops in a defile of Monte Croce near the Caiano river. The Austrians repulsed five spirited attacks delivered one after the other, after which they took the offensive in a violent rain and thick fog putting their assailants to flight. Our losses were light. "The rain continues on the Friuli frontier and the water courses are swollen. Our troops advance in serene confidence to overcome their difficulty." TRENT MENACED BY ITALIANS. Verona, Italy, June 1.—(Via Paris.)—Rain and fog are preventing rapid development of Italian operations against the Austrian positions in the Adige valley. Long range Italian cannon now are being transported towards the points to be occupied within seven miles of Rovereto. The whole high plateau of Lavarone is in Italian hands. Trent is being threatened from behind along the Fiemme valley. The Austrian army is already retreating in the danger to Trent and they have ordered removal of all persons and institutions considered a menace. In the case of the towns now are judges and law courts, which are being transferred to Mezzolambardo, ten miles north. ARCHDUKE EUGENE IN COMMAND. Brescia, Italy, June 1.—(Via Paris.)—It is believed here that Archduke Eugene has assumed personal command of the Austrian forces defending Trent. The archduke was in command of the Austrian army that advanced against Serbia, then was given command of all the troops in the south. He is thoroughly familiar with the Alpine country.

LONDON IS RAIDED BY THE ZEPPELINS

Ninety Bombs Dropped. Four Persons Killed and Several Injured—Several Fires Were Caused.

London, June 1.—Zeppelin airships, long expected, reached London last night, but the several million inhabitants of the metropolis slept peacefully through the raid and all they knew this morning were the brief facts in the admiralty announcement. The ordinary life and business of London is being carried on as usual, except that one sees small groups discussing with intense curiosity a crop of wild rumors. Ninety bombs were dropped in the raid on London by Zeppelins. Four persons were killed and a few were injured. No public building was damaged. The official statement reads: "In amplification of the information which appeared in this morning's newspapers, the following particulars of last night's Zeppelin raid in the metropolitan area are now available for publication. "Late last night about ninety bombs, mostly of an incendiary character, were dropped from hostile aircraft in various localities not far distant from each other. A number of fires, of which only three were large enough to require the services of fire engines, broke out. All of them were promptly and effectively dealt with, and only one of them required a strict quarantine of the premises. A few incendiary bombs referred to. "No public building was injured, but a number of private premises were damaged by fire or water. "The number of casualties is small, as far as has at present been ascertained. One infant, one boy, one man and one woman were killed and another woman was seriously injured. Crowds of private citizens were seriously injured, but the precise number has not yet been ascertained. "Adequate police arrangements, including the calling out of special constables, enabled the situation to be kept thoroughly in hand at all times." ANTI-GERMAN RIOTS FOLLOW THE RAID. London, June 1.—The Zeppelin raid on the metropolis last night has brought a recrudescence of anti-German demonstrations. Crowds today attacked German shops and special constables had to be called out. The rioters pulled down the barricades from shops which had been boarded up since the previous disorder. Furniture and goods remaining were looted.

TURKS SUFFERING APPALLING LOSSES AT DARDANELLES

Over 40,000 Moslems Have Been Killed or Wounded Since the Allies Landed on the Gallipoli Peninsula.

London, June 1.—A prisoner captured a fortnight ago in the Dardanelles says that the Turkish losses in the defense of their positions on the Gallipoli peninsula were, at that time, over 40,000 men. This information was given out in an official statement in London today. It reads: "Regarding the operations in the Dardanelles, Turkish prisoners recently arrived in Egypt say that the Ottoman losses in the fighting on the Gallipoli peninsula have been terribly heavy. The Twentieth regiment was almost annihilated, its colonel alone of all the officers escaping death or capture. Almost equally severe were the losses borne by the Fifteenth and Fifty-sixth regiments. "Loss in Officers Heavy. "The loss in officers generally has been very heavy, and the gaps are being filled by naval officers and cadets from the military school. Men from every military class, Nizamiye, and Mustafa, are now found in the same unit. "The attacks on the Krithia position early in May were most costly operations for the Turks. The Turkish general Liman von Sanders to attack with empty magazines, with the bayonet only, and by night, they assaulted our positions repeatedly. They were caught by the searchlights of the allies in close formation and terribly punished at point blank range by machine guns and rifle fire. Only 120 men could be collected out of a regiment originally 3,000 men strong. "The mountain guns of the allies on more than one occasion caught the Turks as they were assembling at night for an attack, and assisted by searchlights they were kept for some minutes at a time under heavy rifle and shrapnel fire, which inflicted serious losses. "40,000 Killed and Wounded. "The landing," said an Arab officer who was among the prisoners, "was costly and difficult, but it was boldly carried out, and when our troops were once established on the peninsula it was our turn to suffer the heavier losses in a series of desperate and availing counter attacks. I was made prisoner a fortnight ago. We then had lost at least 40,000 men in killed and wounded. "It further declared by prisoners that two Turkish battalions attacked each other by night near Gaba Tepe, losing heavily, and ultimately stampeding in the confusion of the efforts of their officers to rally them. "Prisoners say that the firing of the British machine guns has been particularly well directed and violent, and that the metal guns have at times been most effective. Men who were in the trenches near the points where the heaviest shells burst were frequently so dazed and shaken by the explosions as to be unable to stand. One prisoner in some cases frankly admit that they do not in the least know why Enver Pasha and Talaat Bey went to war, while others curse the Germans.

HUNDREDS OF GERMANS RUSHED TO SURRENDER

"Eyewitness" Describes Strange Scene When the French Took St. Nazaire.

Paris, June 1.—The official eyewitness today gives supplementary details of the capture by French forces of the town of Ablain-St. Nazaire, to the northwest of Arras. "French troops," the writer says, "on May 12 occupied most of the position and on May 28 and 29 succeeded in compelling its capture. In the first attack we occupied many houses and important vantage points, but the Ger-

mans clung tenaciously to the church and cemetery. It was through the cemetery, including seven officers, arrived breathless in our trenches. The whole action lasted but fifteen minutes. During the night and the following morning the whole village was captured from the several hundred soldiers holding the position." CARRIERS OF SEVENTH ELECT NEW OFFICERS. Rome, Ga., June 1.—(Special.)—The annual meeting of the rural letter carriers of the seventh congressional district was held here yesterday with delegates present from the thirteen counties of the district. O. L. Floyd, of Flayville, was elected president, and George Mahan, of Summerville, secretary and treasurer. Delegates to the state convention to be held in Atlanta in July are M. L. Espy, of Coosa; O. L. Floyd, of Flayville; J. E. Lumpkin, of Rome, and Hugh L. Lamer, of Kingston; John L. Denton, of Armoree; and Ed. B. Miller, of Curryville.

ANTI-FRATERNITY LAW DECLARED TO BE VALID

U. S. Supreme Court Upholds Mississippi Statute Against College Societies. Washington, June 1.—The constitutionality of the Mississippi anti-fraternity law was upheld by the supreme court today in a unanimous decision. The decision was made in the case of J. P. Vaughn, who sought admission to the University of Mississippi. Vaughn was a member of Kappa Sigma, a society at Millsaps college. Miss In 1912 he applied for admission to the law school of the University of Mississippi, but was denied admittance because he refused to sign an anti-fraternity pledge to aid the organization or perpetuation of any fraternity. Vaughn sought admission to the university authorities to admit him, contending that the anti-fraternity law enacted by the state of Mississippi in 1912 was unconstitutional. One of the grounds on which the law was attacked originally was that it barred Greek letter fraternities, in themselves harmless institutions, from the state university. This point was not urged before the supreme court. The law was attacked on the ground that it worked discriminations as to honors, diplomas and distinctions as between students in the university at the time the law was passed and those fraternity members who later became students at the university.

BIBB COUNTY GIVES \$100,000 FOR SCHOOLS

Macon, Ga., June 1.—(Special)—The Bibb county commissioners this morning made a special appropriation to the board of education of this county amounting to \$100,000, to be used in paying off the balance of the indebtedness on the new and old school building, erected last year at a cost of \$115,000 and for the building of a new grammar school building in the Vineville district to replace the present frame structure there. The cost of the Vineville school will be about \$50,000.

The commissioners expect to make a special tax levy for a period of three years raising \$33,333 1/3 a year to cover the special appropriation. The commissioners also decided on an appropriation of \$125,000 today to pay the expiring term of the schools for the coming year.

BIBB COUNTY GIVES \$100,000 FOR SCHOOLS

Macon, Ga., June 1.—(Special)—The Bibb county commission this morning made a special appropriation to the board of education of this county amounting to \$100,000 to be used in making off the balance of the indebtedness on the new Lanier high school building erected last year at a cost of \$115,000 and to the building of a new grammar school building in the Vineville district to replace the present frame structure there. The cost of the Vineville school will be about \$60,000.

The commissioners expect to make a special tax levy for a period of three years raising \$33,333 1/3 a year to cover the special appropriation. Authority to do this was given three years ago by the legislature and it was by that means that \$100,000 was raised which to build the new high school building.

The commissioners also decided on an appropriation of \$125,000 today to pay the expense of operating the schools for the coming year.

Let's Get Down to "Brass Tacks"

Let's be honest with one another. Some people believe one thing—some another. In every momentous—every interesting—question that comes before the people, there are many different opinions.

The only exception to this rule—at least what ought to be an exception—is the question of— Patronizing home industry. If you are loyal to your home community—if you believe that you ought to help those who help you—if you want to see conditions improved at home, see more men and women put to work—if you want to "see the color" of your money again after you have handed it over for the many necessities of life—in other words, if you are a home-loving, patriotic, stand-by-your-community sort of a consumer—

Then you will call for goods made here at home. When you do this, you not only get as good—or better—articles than goods bearing an imported label, but you show your pride in and loyalty to the manufacturers here at home who are aiding in a large way to make our southland commercially strong.

If you agree with us that there is but one side to the patronize-home-industry question—and that side is to PATRONIZE it—then show your faith by your works. The manufacturers below are home people. They employ home people. Their goods are sold by your retailer. Call for the brands mentioned— And be a good, loyal, dyed-in-the-wool, home-loving, home-consuming, patriotic sort of a consumer, who delights in the prosperity of his own community first, last and all the time.

Positive Relief For Constipation

The progress of modern medical science is, perhaps no more forcefully evident than in the simplifying of many of the old-time remedies of past generations. For instance, the harsh cathartics and violent purgatives used by our forefathers to relieve constipation are now known to be not only unnecessary but really harmful. Constipation can be more effectively relieved without the discomfort and pain these old-time remedies occasion.

A Vacation That Shows a Profit

Are you really looking for physical benefit as part of the return from your spring vacation?

Are you taking a few weeks off for fun—or for the end that you may feel better and work with greater ease.

In the latter case, you can accomplish much more by taking your vacation under competent scientific direction.

The outdoor sports, the baths, the pleasant social life of a great community give the elements of change and recreation found at any resort; the careful adaptation of these resources to your individual needs affords you the greatest benefit that can be secured from them.

Early spring is delightful at Battle Creek. The golf links are excellent, the tennis courts are ready, outdoor gymnasium work is beginning, the four big swimming pools invite you. Carefully regulated, but delicious diet, plenty of fresh air and instructions in the essentials of health building all make for genuine rest and improvement in your physical condition.

Your vacation shows a profit, instead of a loss. Many busy people come to Battle Creek for one month's rest each year and claim that they can do more work in the remaining eleven months than they could have crowded into twelve without this period of scientific rest.

The Persians had a proverb: "The days spent in the chase are not counted in the lifetime."

In the same way—the month spent in Battle Creek is a month of pure physical profit.

GRAY VETERANS RALLY TO WILSON

But They Pray That Peace With Honor May Be Maintained—Gov.-Elect Harris in Stirring Incident.

Richmond, Va., June 1.—Thousands of veteran survivors of the confederacy in reunion here today trudged through torrents of rain to cheer for the hopes expressed by their leaders that peace in America may not be disturbed by the war in Europe.

More than 5,000 of the sturdy followers of Lee are here, and at the opening session of their reunion shared their plaudits alike for the rollicking air of "Dixie" and martial strains of "The Star Spangled Banner," while the Stars and Bars and the Stars and Stripes flared from the headquarters of the old capital of the confederacy.

They are indeed at home in our father's house. Our president and his hand on the helm of the ship of state, directing her steady course through the storm-tossed waves of a world at war; our secretary of navy is on deck; our attorney general adds his learning to the country's jurisprudence; a southern hero who wore the gray now wears the robe of a justice of the supreme court; in both houses of congress southern men hold the reins of power.

Within our borders all is peace. God hasten the time, by prophecies sung, when nation shall not rise up against nation and man's inhumanity to man make countless millions mourn; when every warship shall be hitched to a plow; when every spear shall become a pruning hook, and every sword shall be converted into an instrument of peaceful husbandry; when the Prince of Peace shall say, "I have gone up and the earth shall be at rest; and the earth sitteth still, and is at rest."

These declarations were interspersed with tributes to Jefferson Davis, Robert E. Lee, Stonewall Jackson and other leaders of the confederacy, among them General J. B. Stuart, whose widow appeared on the platform at convention hall and was greeted with approval by the ovation. The tribute to Jefferson Davis was delivered by General R. W. Green, who asserted that the life of the president of the confederacy "one of patriotism, nobility and sincerity, challenges the world's admiration." General Julian S. Carr eulogized the "confederate soldier" and aroused from the throng the haggard listeners repeated "rebel yell."

Gov. Stuart Welcomes Veterans. The southern hosts were welcomed to Richmond by Governor H. C. Stuart, Mayor George Atwell and Judge D. S. Battle, who presided in behalf of the veterans of Virginia.

"Fifty years ago," said Governor Stuart, "the sun of the confederacy set in clouds and darkness. The capital city prostrated in mass of blackened mounds and moldering ruins, and women who had borne with heroic fortitude four years of siege and suffering, with the last shots of the confederacy yet ringing in their ears, were laying in the ashes of their buried hopes the foundation of their nobler and staller city in which we are now assembled."

General Harrison Presides. The convention was presided over by General George F. Harrison, of Alabama, elected by the commander-in-chief, General Bennett H. Young, who was kept away at the last minute by the death of General Robert E. Lee. A portrait of Lee will be unveiled tomorrow by Lee chapter, United Daughters of the Confederacy, at the Confederate Home for Women.

Artist Gregory Dead. New York, June 1.—Elliot Gregory, widely known as an author and artist, died at his home here at 51 years of age. Mr. Gregory was given a gold medal by the Paris salon for a painting called "The Martyr." He wrote a number of books.
