

of his propeller going again and flew off to the west... Whether the Zeppelin's machine guns or rifles were turned on the aviator is not disclosed, but to attain such an advantageous position the British lieutenant must have handled his machine skillfully, for this is an extremely difficult feat.

Two airmen and two children were killed and many others injured. All versions agree that the Zeppelin crew perished and this seems certain, at the least, that the craft was struck while more than a mile in the air and must have been a roaring torch before it struck the earth.

Brussels, June 7.—At 6:00 p.m. the Zeppelin was seen flying over the city and the explosion caused the Zeppelin to burst into flames. The force of the explosion caused the Zeppelin to burst into flames. The pilot succeeded in lighting the machine, but had to make a forced landing in the enemy's country. However, he was able to restart his machine and returned safely to the aerodrome.

Invaders Are Crossing the Isonzo River on 40-Mile Front—Hard Fighting Is Reported. Udine, Italy, June 7.—(Via Chiasso and Paris).—A general Italian advance is proceeding today across the Isonzo river from Caporetto to the sea, a distance of about 40 miles. The advance is one of the most important in the Italian campaign.

Teutonic allies continued their victorious battle. They drove back the enemy towards Abruzzo, northeast of Moudonia. Part of the army under General Isonzo has crossed the Dniester at Zbarazze and has taken the city south of the eastern bank by storm.

STRANGE PRODUCT FOUND IN TEXAS

NOTE TO GERMANY NOT YET COMPLETED

On Inside of Mound—Experts Nowhere Else—Display Planned for Atlanta.

Much scientific interest is attaching to a remarkable substance found in the interior of a large mound in the coastal country of Texas. It is asserted upon the entire civilized world that there is a crater-like opening to the mound, believed to be ages old, and it is through this that the peculiar stratum is reached. The substance is known as Vitallium. Nowhere else is there a similar formation, so far as known. Explorations lead to the conclusion that it here exists in vast quantities.

It is regarded remarkable that science so long overlooked this remarkable formation, inasmuch as it has been dug out and used by people in the vicinity of the mound since Texas was settled. It is also known that American aborigines were familiar with it, and that Indians traveled long distances to the mound, carrying their sick and crippled there.

This Vitallium stratum has a strong impregnation of some force and of a remarkable blend of mineral properties. By a percolation process in laboratories at Houston, Texas, all of the forces and properties are extracted in the form of a heavy, dark, golden fluid. Amazing results are being achieved in the use of this fluid for medicinal purposes.

Arrangements are being made for opening a display and demonstration in the near future of this wonderful product in Atlanta.—(adv.)

NOTE TO GERMANY NOT YET COMPLETED

Wilson Striving to Make Note So Plain Berlin Can't Misunderstand—Note to Satisfy American Public Opinion.

Washington, June 7.—President Wilson let it be known today that the note the United States is to send to Germany with respect to submarine warfare had been prepared with the utmost expedition and had not been subjected to an hour's unnecessary delay since it was first drafted.

The president's desire to have the document state explicitly the position of the United States so that it can not possibly be misunderstood abroad or invite protracted discussion is chiefly responsible for the fact that the note has not gone.

Legal officers of the government examined the note today and sent it back to the president with some changes. It may require further consideration by the president and his cabinet tomorrow and high officials did not know tonight just when it would be cabled.

On the highest authority, however, it was stated that as soon as the president regarded the communication satisfactory in phraseology it would be transmitted to Ambassador Gerard.

Questions of Serious Moment.

Questions of such serious moment

VILLA MAKES PLEA TO GEN. CARRANZA

Suggestion Made for Conference to Consider Wilson's Note and Take Steps to Prevent Intervention.

El Paso, June 7.—General Francisco Villa has decided to ask General Venustiano Carranza to agree to a neutral territory for a conference to consider the suggestions contained in President Wilson's note, according to a telegram received here tonight from Colonel Enrique Perez Rul, private secretary to Villa. The telegram was dated Aguas Calientes.

General Villa ordered his secretaries to come from Chihuahua to Aguas Calientes to draft the note to Carranza, says Colonel Rul and also the reply he will send to President Wilson. Villa's ministers reached Aguas Calientes today.

The Rul statement relates that Villa decided to invite Carranza to agree to a truce to prevent further sacrifices in the republic which might produce intervention. When Villa ordered his troops to retire General Obregon started in pursuit, "bringing on a battle in the station of Leon."

GENERALS EXECUTED BY CARRANZA FORCES.

Brownsville, Texas, June 7.—Three Mexican generals and ten other Mexicans, connected previously with the army of General Eulalio Gutierrez, were executed by Carranza forces today. The Carranza army under General E. P. Nafarrate, according to Carranza advices made public in Matamoros tonight.

The executions occurred some time last week at Aldama, Nuevo Leon state according to the message at Matamoros.

It is asserted by Carranza officers that the three generals, accompanied by ten men, had been permitted by Gutierrez to withdraw from his army and start for the Texas border with a million and a half pesos with which to organize another revolution in Mexico. They were captured near Aldama and promptly executed.

The list of executed included, according to statements in Matamoros, Generals Eugenio Aguirre Benavides, Julian Delgado and Guillermo Moran.

FOREIGNERS FLEEING FROM MEXICO CITY.

Washington, June 7.—Ninety Americans, forty-four Englishmen, 127 Spaniards and 57 others of various nationalities will comprise the first refugee party leaving Mexico City today on the special train which the Brazilian minister has secured, acting for the American government.

Other refugees from the famine-stricken capital who will leave later to join the party at Vera Cruz will bring the number to more than 800. The English and other cities with American Consuls will send a train to Vera Cruz in charge of Consul General Shannon.

An emergency supply of American food has been ordered to Vera Cruz for the refugees. The American telegraphed cable-boat officials to ship 1,000 pounds of corn and 800 pounds of beans to the American consulate, which goes for refugees. The food will be consigned to Consul Shannon.

The American government is observing with interest the informal efforts of Mexicans identified with the Carranza faction to view Mexico to reconcile their differences with the Carranza faction with a view to official sanction. The Carranza government is endeavoring to move its office in the southern republic other than President Wilson's recent warning to the heads of the various military factions.

GERMANY WILLING TO DISCUSS PEACE

That Impression Given Geldemeester by Berlin Officials—Geldemeester Comes to United States and Peace Rumors Multiply

Washington, June 7.—Van Ghell Geldemeester, son of the religious adviser to Queen Wilhelmina of Holland, by a brief visit to Washington, after conferences in Berlin with high officials, has set in motion much speculation as to the possibility of peace in Europe.

Mr. Geldemeester, it became known today, saw Dr. von Jagow, the German foreign secretary, and other members of the imperial ministry shortly after the Lusitania was sunk, and received certain impressions concerning the German attitude toward the war and the ultimate making of peace. With the knowledge, though not with the authority of the German officials, he started for Washington in the hope that informally he could portray German feeling in official quarters. On his arrival here last week he visited Count Bernstorff, the German ambassador.

The ambassador emphasized tonight that Mr. Geldemeester carried no credentials from Germany and had absolutely no official connection with his government.

To Visit German-American Editors.

Mr. Geldemeester left Washington Saturday without seeing any prominent officials of the American government. He started on a trip to New York, Chicago and other cities with the idea of convincing the editors of German-American newspapers of the

help they can render in promoting better and more friendly relations between Germany and the United States.

While in Berlin a visitor from The Netherlands gave the impression to those with whom he talked that there was a peace party of some importance in Great Britain as well as in Germany, and that what was most needed now was a peace conference. He intimated to some that he feared his own country—Holland—might be drawn into the conflict if it continued but was hopeful that efforts by neutrals to mediate, if begun now, would be successful.

Much significant of the impressions which Mr. Geldemeester brought from Berlin, it was said today, was that a French, Belgian and Russian soldier, an important element in the German government itself were not in sympathy with the extreme militaristic and believe a discussion of peace terms not undesirable.

German Reference to Peace.

Just how far Mr. Geldemeester may have been encouraged in Berlin to present his views to the people in the United States is not definitely known. James Addams and others interested in peace, who recently have visited Berlin, have been cordially received by quarters here lately there has been constant reference to the likelihood of peace growing out of the present correspondence concerning neutral rights.

In allied quarters here, any talk of peace emanating from Germany is looked upon with much circumspection and doubt and the time is regarded as inopportune with German troops on French, Belgian and Russian soil. It is suggested too, that peace talk might be designed to divert the attention of the government and people of the United States from the serious issues involved in the sinking of the Lusitania.

Mr. Geldemeester is expected back in Washington in a few days. He may not desire to see officials, but to inform himself in other ways on the feeling concerning peace as it would be reflected in the diplomatic and official quarters of the capital of the largest neutral nation. He plans to return to Europe soon.

KNOX BOOTH CHARGED WITH LIQUOR FRAUDS

Washington, June 7.—Department of justice agents are seeking to locate Knox Booth, former internal revenue agent for the Alabama-Tennessee district, for whom a warrant has been issued in connection with alleged whisky tax frauds, through which the government is said to have lost about \$100,000.

The warrant for Booth was issued after the arrest of John L. Caspar, a Fort Smith, Ark., distiller, and was based on correspondence between Caspar and Booth. The latter disappeared two weeks ago. Guy L. Hartman, an associate of Caspar, said about a dozen other persons had been arrested at Fort Smith previously in connection with the case.

The frauds charged involve the evasion of taxes on distilled spirits through collusion between distillers and lesser government officials, and are similar to numerous cases uncovered by treasury officials in the past.

GERMANY TO PAY FOR GREEK SHIP.

With Their Own Bombs Lone British Soldier Beat Off the Germans

London, June 7.—The exploit of a British soldier, who lay in the crater made by a shell and hauled back at the Germans bombs which they tossed into the crater to kill him, was related in a dispatch from the front, under date of June 4, from the official observer attached to the British army, as given out in London tonight.

After having got into a German trench and under the cover of the survivor of his party, he managed to crawl deep in a small crater nearby, to observe the Germans. The soldier knew where he was, but could not shoot him, and were prevented by our rifle fire from approaching the crater.

The soldier described how the Germans contented themselves with lobbing hand grenades into the crater.

All day long the British soldier remained in the hole within a few yards of the enemy, picking up and hurling back bombs with the aid of a rifle. At night he managed to crawl safely back to our lines.

Another incident described has to do with an officer and ten men who were with the Germans stormed and captured British trenches. They refused to retire. Surrounded by the Germans on all sides they stuck to their trench in the hope of regaining the lost ground by a counter attack. At night they withdrew, after holding the Germans at bay throughout the day.

Embroideries of the Rarest and Finest Sort in a Sale

The Selling Begins at 9 O'Clock

Here, then, is a Sale of Embroideries that could not be possible in every store—because every store does not import such exquisite embroideries; and even if they did, it is doubtful if every store would have the temerity to go at prices as we do now.

A Chamberlin-Johnson-DuBose Co. Sale!

Be they ever so beautiful, even the most beautiful embroideries, in our way of doing things, they are, after all, but merchandise.

And merchandise must move on.

So—

\$12.50 to \$16 Flouncings Are \$5 a Yard

Forty-five inches wide, white organdies and voiles, worked with cream flat Venice laces—a number of patterns—they must be listed among the most exquisite embroideries that are brought to America

\$10 to \$11 Embroidery Points Are \$5 a Yard

These are those wonderful designs that women may use most effectively with the plain organdies and voiles and the like for their most elaborate summer frocks.

\$4 to \$9 Embroideries Are \$2.50

ANTI-MOSLEM RIOTING BY CEYLON BUDDHISTS

London, June 7.—That there has been a riotous outbreak in Ceylon by Buddhists against the Moslems in which numerous Moslem shops were looted and many murders occurred is told in an official communication, made public here tonight.

The official statement says: "The government of Ceylon reports that on the 23rd of May the birthday of Buddha Moslem shops in Kandy were looted by Buddhists. The outbreak was quelled in Kandy, but was diffused through the central province where it was repressed by the arrival of a military detachment.

On the 21st of May, there was a later outbreak at Colombo, which subsequently spread south. Martial law has been proclaimed in the western, central, southern, northwestern and Sabara Gannawa provinces.

On the 2d of June the governor left Kandy quiet and proceeded to Colombo, where he found the town quiet, but the district perturbed. He hoped to suppress the disorder in a few days. The disorder is not directed against the European population or the Ceylon government. Much Moslem merchandise has been destroyed. There have been numerous murders and several rioters were shot.

The latest telegrams state that the situation is in hand and improving.

Significant Is the Summer Suit of "Fresco"

FRESCO is the cloth that's cool; pure wool, of porous weave and soft, refined finish.

"Fresco" is something different from the usual summer cloth. The marked significance of this famous fabric is that it is woven to admit the air—therefore it is ideal for summer use. It endures long wear, and retains its good shape—

Wherever you see a FRESCO suit you will see it in universal favor.

A Muse-Made Fresco Suit is distinguished for its superior finish—its perfectly appointed good fit—the suit to strike you favorably at first sight.

POLICE PROBE REPORT WILL BE MADE TONIGHT

The police board's committee appointed to probe the police department will make its report tonight to the board.

The committee recommends that patterns kept on the duty of the police on their respective beats, and that they do not loaf around ice cream parlors or stop and talk to anyone except on public business.

The report stresses that Chief Heavers get out of the beat and see that his patrolmen carry out his recommendations and, further, that the captains and sergeants of police pay more attention to this particular point.

The report will further recommend the elimination of the alleged "outside beat" that has been the chief complaint of the police department and police chief. The probe report recommends that the chief of police be made to understand that the police board is supreme in authority.

The report further shows the police, instead of being eradicated, has been promiscuously scattered over the city.

Despite a report that the probe report is unfavorable to Chief Heavers the chief said last night that he remained unconcerned. He stated that he was doing conscientious work for the police department.

Detective Chief Newton Lanford will tonight answer written charges of Chief Heavers. Heavers told the detective chief "cursed" him over the telephone. The board will try this case.

London, June 7.—The women of England are doing their duty. They are taking care of the wounded, or they cannot assist in work of that kind. Many a woman is doing her bit in the front. The suffragists have given so little trouble to the government that it will undoubtedly soften the hearts of those in Parliament, since the "militants" have been fighting men of England, and so suffrage may soon come after this terrible war is over.

SCHOOLS WIN GREAT VICTORY

Continued From Page One.

Alderman C. C. McDonald in bringing in an adverse report on the sheet, when he decided to amend the sheet, his contention on the ground that the sheet was not a bona fide financial statement, but a mere list of items needed more money than we have appropriated it is up to us to get it for them. We must supply it or leave them to starve.

With the passage of the sheet carrying the appropriation of \$7,500 for the purchase of a lot for the South Pryor street school, the entire cost of the school was covered.

Alderman Albert Thomson expressed the sentiment of the general council, when he decided to amend the sheet, that the summer schools would have the city thousands of dollars annually, in that it would save the city the number of new pupils. He said it was estimated that the summer school would save the city \$100,000.

The total 1915 appropriation for public schools as shown on the financial sheet is \$752,863.26. The January sheet carried only \$688,326.66 for schools.

June Appropriations.

The sheet carries appropriations for the various city departments as follows: Department of mayor, \$1,820; department of clerk, \$23,126; department of law, \$21,795.50; department of comptroller,

MR. MARR AND HIS VALVE-IN-HEAD ENGINE.

Chief Engineer Walter L. Marr Is the Guest of Geo. D. McCutcheon, Manager of the Local Branch.

Favored both as to climatic and topographical conditions, the south, in the future, is to claim the permanent headquarters of the engineering corps for the Buick Motor Car company. Walter L. Marr, of Flint, Mich., the man who, fifteen years ago, designed and built the first motor for the Buick company, and who, as chief engineer for the Buick people, has built and supervised the construction of every motor since, is in the city for a few days. He is the guest of George D. McCutcheon, manager of the Atlanta branch, and was an interested and interesting attendant Monday evening at the annual dinner given by Manager McCutcheon to the southern Buick salesmen at the Ansley hotel.

After traveling the country from coast to coast and after various experiments which have improved and brought the Buick valve-in-head motor up to its present high degree of perfection, Mr. Marr decided, about twelve months ago, to make Signal Mountain at Chattanooga, his permanent location. The Buick valve-in-head motor cars were introduced in the fourth season of successful manufacture. The line for 1915 justifies the prediction that the Buick valve-in-head motor is the greatest and latest triumph of the Buick design. MORE HOPE FELT FOR THE RECOVERY OF KING OF GREECE

London, June 8.—(1:45 a. m.)—In a dispatch from Athens dated Monday, Reuter's correspondent says of King Constantine: "A bulletin issued at 8 o'clock this morning says the king's wound appears to be slightly better, but that the monarch attacked a disturbed night. Repeated attacks of vomiting prevented the king from retaining nourishment. His general condition, however, is relatively good."

EMORY COLLEGE PLANS GREAT IMPROVEMENTS

Oxford Departments Enriched. Great Academy in Proximity to College Organized.

Oxford, Ga., June 7.—(Special.)—The second day of commencement dawned bright and fair. The attraction at the chapel this morning was the oratorical contest between chosen speakers from the junior class. Speakers' places in this class are given on the basis of class standing, the first eight men in the class being selected.

The program for this year was as follows:

R. W. Bryan, Ringgold, Ga., "Progress of Democracy."
 L. H. Hart, Buena Vista, Ga., "Heroes of the South."
 J. H. Hart, Buena Vista, Ga., "Torch Bearers of the Past."
 O. F. Sealey, Howard, Ga., "Sowing the Dragon's Teeth."
 L. H. Ware, Pineview, Ga., "Immigration."

All these young orators acquitted themselves with credit. The address of Mr. Hart, Mr. Hart and Mr. Sealey were especially good. Mr. Clina comes from the mountain region of Georgia, and he expounded effectively some of the misconceptions and misrepresentations of northern magazine writers concerning the poverty, ignorance and immorality of the mountain people of the south. The medal was won by J. D. Hart and the audience seemed to concur in the judgment rendered by the committee of awards.

The board of trustees met this morning at 10 o'clock in the library, and after completing its organization heard the report of the president and the recommendations of the chancellor. After appointing committees to consider the various interests of the institution, together with the report of the president and the recommendations of the chancellor, the board adjourned to attend the exercises at the chapel.

It is said by those in position to know that marked changes and decided improvements in the work of the college will be made by the board of trustees.

The sub-freshman department will be substituted by the Emory University academy, which will be organized with its own faculty, and occupy a separate building. Students attending the academy, who are not residents of Ox-

ford or Covington, will be required to board in the new college dormitory, Haygood hall. The principal of the academy will also occupy apartments in this splendid new building, and also two of his assistants, with the view to overlooking and directing the studies of the boys enrolled in the academy. It is the settled purpose of the board of trustees to make here in connection with the new building, a great high school which shall be to the south something like the Phillips Exeter academy in New England. The pupils entertaining the academy will have every comfort and convenience required, and will be instructed by an able faculty. Parents desiring to have their sons prepared for college in the most thorough manner and in shortest time at the smallest expense consistent with good work, will find nothing better for the purpose than the Emory University academy. The beautiful village of Oxford, removed from the excitements of urban communities, offers the best possible location for such a school. The quietude of the spot and its moral atmosphere will go a long way to encourage boys to study, and to secure them from any immoral tendencies. Distinguished men are accustomed to visit Oxford every year, and the students in the college will enjoy such privileges. The expense of a student in the academy will be made as low as can be without lowering the quality of instruction. It is believed that when this plan is thoroughly understood a great number of young men and boys will be enrolled in the school. Professor R. C. Mizell will be assisted by three able and able teachers.

Another improvement in the work of the institution will be the strengthening of the departments of mathematics, chemistry, biology and physics. The department of modern languages will be in charge of Dr. J. P. Hanner, assisted by Prof. J. G. Stipe, who will teach Spanish, and Professor N. G. Gadsden, who will teach French. Professor Stipe spent a number of years in educational work in Cuba and is well qualified to handle a language like a native. He is also familiar with the history, customs and mores of the Latin American world, and thereby qualified to do the work in Spanish with peculiar efficiency. Professor Gadsden is a native of France, where he won his degree at the University of Grenoble. He has had the advantage of instruction in the departments of natural science, already good, will be greatly increased and improved. To this end appropriations will be made for the benefit of the departments of chemistry, biology, physics, and electrical engineering.

It is rumored that Dr. Dickey has resigned the presidency of the college in order to return to pastoral work; but he will continue at the head of the institution through the fall term of the year. The board of trustees has parted with him regretfully. He will be succeeded by a very able man, whose name is not yet known.

This afternoon the champion debate between chosen debaters from the two literary societies is in progress. The subject is: "Resolved, That the Monroe Doctrine as Developed and Applied by the United States Should Be Abandoned as a Part of Her Foreign Policy."

The society—Messrs. J. H. Wilson, F. J. Ellarbee, and R. P. Ethridge.

An unusually large attendance of

Brighter Day League At the Federal Prison Increased by Fourteen

The Brighter Day league, which is the Salvation Army's national prison organization, and which has had a membership of sixty men in the Federal prison here, had that number increased by fourteen new members on

MAJOR COWAN.

Sunday, after an inspiring address by Major Thomas Cowan, of New York, national head of the Salvation Army prison work.

The establishment of the Brighter Day league in prisons throughout the country has proven a success. The object of the organization is to visit and to conduct meetings at whatever prisons will admit them, to talk personally with the men, and where they have families, to seek them out and render any assistance needed. The prisoners who join pledge themselves to read the Bible at least once a week, to practice a day, to refrain from the use of profane language or intoxicating liquors, and above all, to obey the rules and regulations of the institutions.

During the course of his address Major Cowan declared that the Atlanta Federal prison is one of the model institutions of the country.

Major Cowan remained over in Atlanta Monday to hold a conference and discuss local conditions with the Federal prison authorities. Practically all of the prison reforms advocated by the Salvation Army are in force at the Atlanta institution.

TWO MEN ARRESTED AND DENIED RIGHT TO TRY FOR BOND

Once more defendants in the police court stood before the recorder Monday afternoon and told him of having been locked up and held without being given an opportunity to make bond.

R. E. Marks and Walter Hopkins, two young men who had been arrested on the charge of using abusive language to officers after their private room had been invaded, made the statement about being kept in a cell all night when they were able to make bond.

The arresting officers stated that they had gone to the room in answer to a telephone call and that they heard the men cursing, and that after they had gone into the room they were abused and cursed by the men.

"I don't care what the charge was," said the recorder, "or whether the men were guilty or not, they should have

been afforded every opportunity to make bond and I shall confer with the chief of police about the matter. The young men were fined \$2.75 each.

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before it salivates you! It's horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without giving you making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

OFFICIALS OF DEFUNCT ATHENS BANK CONVICTED

Former Justices of Supreme Court on Opposing Sides at the Trial.

Athens, Ga., June 7.—(Special)—With the sentencing of W. Griffin, president of the defunct Athens Trust and Banking company, convicted late Saturday night under the act making "bank-wrecking" a felony the last of the biggest list of criminals assessed against bank officials on the court dockets at one time in any county of the state will come to an end—unless he appeals again and is again given a new trial.

Judge W. E. Thomas, of Valdosta, presiding for the five days of the trial of the bank president last week, instead of Judge Brand, who was disqualified, will return to Athens Thursday to preside over the Griffin trial. This is the third time Griffin has been on trial, and he has been in jail without bond for two years and a half. He first pleaded guilty and then, under alleged misapprehension of some agreed-upon concealing an appeal sentence, moved to have the sentence set aside, carried the case to the appellate court and got a new trial. At the second trial he was convicted and sentenced to serve five years in the state penitentiary. Another appeal to that court to the supreme court on matters of law in the case, he obtained the second new trial. This trial concluded Saturday night, after six days of testimony and argument by the two former supreme court justices were pitted against each other in the case—Judge Andrew J. Cobb, for the prosecution, and Judge Horace Wood, for the defense. Other leading lawyers were also employed.

Robert H. McCrary, cashier of the Athens Trust and Banking company of which Mr. Griffin was president, is serving a three years sentence in the state penitentiary, having pleaded guilty with Griffin on the first trial, and then testifying for the state in the later Griffin trial.

Robert McCrary was the cashier for several years before going with the Athens Trust and Banking company. The bank failed in 1911, and McCrary was under indictment for violation of the banking laws, falsifying and forging. Just a few minutes before Judge Thomas received the verdict of guilty for Griffin, McCrary was tried a week before and found guilty of the same offense with recommendation to be punished for a misdemeanor. The judge's sentence was five or twelve months in the penitentiary before paid back \$6,000 to the Commercial bank, which succeeded the Citizens' bank, and the bank asking McCrary to do the same. The bank asking McCrary to do the same. The bank asking McCrary to do the same.

In a few minutes after the sentence was imposed on Woods, the solicitor general, at the direction of the court, after consultation, not proceeed eight cases against W. H. Shelton, the president of the Citizens bank, it is shown that Shelton had disposed of practically all his real estate and other property and had returned to the bank more than \$20,000 of the shortage charged to the officials of the bank. It was shown that Shelton was in a healthily disabled condition as to health also having Bright's disease—so critical that three times his condition was such that he had to be postponed on account of his inability to appear.

Bookkeeper Weatherly's case was dismissed on the ground that the state and the state refusing to open the case.

HOLMES INSTITUTE CLOSING EXERCISES HELD MONDAY NIGHT

The closing exercises of the Holmes Institute took place in the chapel of the Holmes Institute Monday night. Music was furnished by the students. The annual address was given by the Rev. J. H. Hadley, presiding elder of the Atlanta district. B. R. Holmes, president of the institute, made his annual report and said that the institute was closing one of its most successful years. Three hundred students had enrolled in the institute this term, and 90 per cent was able to buy books, clothing and other necessities. The balance of the school has touched more than 10,000 people, 150 printing, 25 girls, cooking, 30 boys, cleaning and pressing, 50 girls, laundering, 10 boys, gardening, and 10 girls, hat-making.

UNIVERSITY LAW STUDENT TO ENTER LEGISLATURE AFTER GETTING DIPLOMA

Athens, Ga., June 7.—(Special)—William Hicks Key, of Monticello, Jasper county, will have a very short vacation interim between his graduation from the law school of the university next Wednesday and the opening of the legislative term on the Wednesday following. He goes from the state institution directly into the service of the state as representative from his county in the lower house of the general assembly. While a junior law student here last year, he defeated one of the strongest men of his county in the primary for the legislature, and took out one or two days from his course in the college last year to do it. He is active and aggressive, and was this year business manager of the Pandorum, the annual of the university.

paralyze big business because of the magnitude of the capital invested. The word from Washington is reassuring. There can be no reasonable objection to regulation where public interest demands it...

AN IMPORTANT WORK. The emergency, if not actual crisis, which confronts Atlanta, should impel each member of the committee of one hundred citizens, with an auxiliary membership of twenty-five representative Atlanta women...

What's the matter with Atlanta? Why is it the matter? and what is the remedy? are the questions this committee is called upon to inquire into and answer.

There is scarcely a city department or institution which has not been, or is not now, in a stew. With some of them the turmoil is continuous, unending.

The thing has gone on so long now, and has been so much paraded away from home, that it has begun to hurt a well known Atlanta man recently met a large manufacturer who had been trying to decide between Atlanta and a western city for the location of an extensive plant.

Strife and turmoil have weakened the city at almost every point. It has become next to impossible to make an essential city improvement without some objection being raised or some obstruction being put in its way.

Appointment to this committee is an honor, service upon it is a civic duty. Whether he has, in every respect, correctly diagnosed the case or not, Mr. Edmonds' prescription is a good one.

One of the proven friends of the south, Mr. Edmonds says some very harsh things about it; but it is criticism back of which the only motive is a desire to see greater constructive progress and success.

There is more than indictment—there is conviction—in the assertion that the south is burdened with 'too much rotten politics'—not that this is by any means a peculiarity of the south, for many other sections are similarly burdened.

Mr. Edmonds says some very harsh things about it; but it is criticism back of which the only motive is a desire to see greater constructive progress and success. The action of the New Jersey court puts the Alabama iron industry on a par with that of Pittsburgh, because, with its facilities, the steel corporation can manufacture iron and steel products here as cheaply as it can at Pittsburgh.

JUST BY GEORGIA. Talking in its Dream. Flowing ever seaward in the shadow and the gleam. The River's always talking—talking in its dream, murmuring in the meadows—the pleasant plains it knows, and the gardens where the winds sing a love song to the rose.

For the River has its dreams, too. It leaves the secrets deep of the land the stars are guarding, where the harvest is asleep. It tells those secrets to the Night whose lights above it stream. And they listen to the River when it's talking in its dream.

I wish the singing River would sing a word for me. To a love-star that is shining on the hills beside the sea, and tell that star to whisper to One beneath its gleam. Of one that for her sake is still the lover of a Dream.

Proverbs of the Highway. The gold in the land always dances in dazzling brightness when you sing the song of 'The Shoovel and the Hoe'. You can't save the country by running all around it telling other people how to turn the trick.

Thunder doesn't accomplish much. It is merely the noise of the clouds clapping hands as they cheer the Lightning on the way to business.

De elements took a holiday. Er er Thunder fur old room. Young Man Lightning lost his way. An couldn't git back home. De Moon Man wur de happy one—A jig-time he wur tryin De sweatin Fireman of de Sun, He sent his shovels flyin'.

An all de elements some wild An kept de work a-waitin', Till last dey said 'We los our head Wid too much celebratin'.

The south needs more energy, more driving force, and more self-reliance in business and more sanity in politics than other regions, because of its more backward condition.

The south drinks too much whiskey spending probably \$600,000,000 a year or more on alcoholic drinks that ruin body and soul and help to make criminals when become fit friends for the devil work.

AMERICAN UNIVERSITIES. Chicago.

By GEORGE FITCH. Author of 'At Good Old Savannah'. The University of Chicago is an illustration of what America can do in a hurry when she sets her mind to it.

Twenty-five years ago this university consisted of an aged building an exact student body and a rate of progress which made a small look like a joy rider. About that time John F. Rockefeller decided to oil up the institution and presented it with a corn crib full of securities and William Rainey Harper and Amos Alonzo Stagg.

This was a master stroke. The money wouldn't have been worth much without Dr. Harper and Dr. Harper would have had a hard time diverting the attention of the college freshmen from Yale and Harvard without Stagg.

Chicago is the only great American university built after a uniform plan of architecture and it is also possible for him to arrange for a grand and fine team in the yard and watch his team take bites out of Wisconsin, Cornell and other prominent institutions of learning and exercise.

The money wouldn't have been worth much without Dr. Harper and Dr. Harper would have had a hard time diverting the attention of the college freshmen from Yale and Harvard without Stagg. RIPLING RHYMES BY WALT MASON.

'Yes, things are bully,' says William Woolly, who runs the ginsew store, we keep things moving, and trade is improving. He's about to get a new suit of clothes and whiskered story about my business cares, for I'm kept skipping—I've just been shipping three gross of Belgian hares I know some dealers are chronic collectors of the same kind of goods and people shopping don't like such yawning—they've troubles of their own they bring their money to one whose sunny and hopeful line of buy impress the hearer, so I get near as they arrive and grant and grin and 'Parasaded fully'.

THE DREAMERS.

Lo' man has harnessed heavens highway, Rising on titan wings. He'll force the skies to float his navies, Men of science now are kings. O'er stormy waves he rose triumphant, Science sees beyond what seems, Thousands reading radio flashes, All because a dreamer dreams. Man's a born investigator, Probing into things sublime, Bursting nature's bonded secrets, Feeling into unborn time. Man, thru man, has found dominion, He's made the magic spell, And rising up to test the vision, Finds the unseen is the real. The art called 'Peace' will be discovered, Courage on the masthead gleams, Some explorer'll plow the ocean, Yet the unknown dreamer dreams.

DECISION ON PLEA OF LEO M. FRANK DELAYED BY BOARD

The prison commission spent most of Monday listening to pardon appeals from other cases besides the Frank case, and no decision in the latter was announced. It will probably be the middle of the week before the public is informed of the board's recommendation. The three commissioners met in the capitol at 9 o'clock and continued through the day with the regular rou-

tine of the commission business, which included pleas from prisoners asking pardons and commutations. This is the regular session of the board. The Frank hearing was given a special hearing in order that the commissioners might devote as much time to it as they saw fit.

PRINCIPALS HEARD BY EDUCATION BOARD

J. N. McEachern Tells Why It Was Necessary to Elect New Superintendent.

The executive committee of the board of education met behind closed doors yesterday afternoon and held conferences with fifteen principals of the grammar schools.

The fact that the executive committee of the board has taken this action prior to the annual election of teachers is believed to be an indication that a custom which was in vogue eight years ago and which was abolished while William M. Slaton was superintendent is to be re-established. Prior to eight years ago the principals of the schools had considerable prerogatives and what they had to suggest to the board of education was given much weight and consideration. It was claimed that the power given the principals was abused by some and the custom brought about dissatisfaction and discord, and for that reason was abolished.

The present board again revived the custom, it is said, and the principals will only be consulted about matters as appertain to the management of the schools.

Fifteen Principals Present.

Fifteen principals were conferred with by the committee Monday afternoon. Others will be summoned each afternoon until all have been heard from. After they have been questioned about the school system in general they will be asked to present their requests for teachers for the next term. Those who were before the committee were:

Mrs. Lucile Nolan, Adair school; Miss Postell, Normal school; Miss Annie Zuercher, Belmont school; Miss Lillian Flynn, Battle Hill school; Miss Nell Gattins, Bell street school; Miss Leslie, Calhoun street school; Miss Lillie Wurm, Calhoun street school; Miss Ada Perrine, Crew street school; Miss Julia Hordan, Davie street school; Miss Rutha Wray, East Atlanta school; Miss Ora Stamps, Edgewood school; Miss Annie Lewis, Exposition mills school; Miss Gusie Brooker, Fair street school; Mrs. Lucy Nell, Faith Crossing school; Miss Lula Kingberry, English avenue school.

CONTRIBUTIONS ASKED FOR VICTIMS OF WAR

Dr. F. E. May, executive secretary of the Georgia war relief committee, House, Atlanta, Ga., has issued the following bulletin, showing the sorts of relief needed most in the various theaters of war, and asks contributions as indicated:

France. A cablegram received from American Relief Clearing House, Paris, states that the needs have been shattered by the horrors of war, and without beds or bedding and without clean clothes and shoes.

To relieve this suffering condition contributions of clean beds, bedding and hospital supplies are urgently solicited. Also a request for funds with which to purchase such relief needed most in the various theaters of war, and asks contributions as indicated.

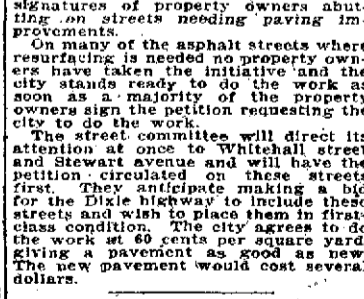

Russian-Poland. Through the American relief clearing house of Paris, France, Prince Lubomirsky, of Warsaw, Russia, makes an appeal for funds with which to allay in some degree the great suffering in Russian-Poland for the need for relief in this district is so great and so urgent that it is impossible at this time to state the sort of relief which would be most needed in this district.

Serbia. We are in receipt of a cablegram from the American relief clearing house, of Paris, France, in which it is stated that the greatest need of Serbia at this time is for clean clothing, shoes, bedding, cash, etc., delivered at the office, No. 501 Grand Opera House building, Atlanta, Ga.

Chicks Make Triple Play Against Locals

Edited By Dick Jemison

Failure to Hit in Pinch And Errors Prove Fatal; Chicks Make Triple Play

By Herbert Caldwell. Memphis, Tenn., June 7.—(Special.)—Dave Roth stood before a defense of iron wall and held the advance of the Cracker back while the Chicks turned out a 5-to-2 victory off the left-handed delivery of "Colligan" Kelly, late of Notre Dame, this afternoon in the first of a four-cornered series set for Russell park.

The work of the Chicks' inner works fairly shone with brilliancy throughout the entire afternoon. A triple play, which followed two passes issued by Roth in the fifth inning with none out, was one bit of assistance rendered by Big Chick right-hander. With Jenkins on second and Manning on first, Sid Smith lined to Mitchell, who tossed to Crutcher, who could get back, and Crutcher caught Manning before he could make it back to first, completing the first triple death of the season.

Ribel Gets Chased. Sid Smith got into the game for the Cracker when Eibel was dismissed from the first inning. A triple play, which followed two passes issued by Roth in the fifth inning with none out, was one bit of assistance rendered by Big Chick right-hander.

Both teams scored in the first inning, and it looked like both pitchers were going to be easy for their opponents. With two out in the first, Roth walked Blizard, and Moran followed with a triple to right center, scoring Blizard. Rumber went out on a hold to McDermott.

Manning's error of McDermott's grounds out, started the scoring for the homebats. Red Stewart scored a triple to the same place that Moran's drive landed, and McDermott scored. Baldwin popped out to short.

Schlie hit a grounder to Blizard, who missed the ball, allowing Stewart to score while Schlie, following, was caught by Eibel. Smith, following, was thrown out trying to steal second.

The Chicks added another in the fourth on an opportunistic hitting. Schlie singled to right, and Blizard, who went to third on Duncel's out, Mitchell then drew a base on balls. Roth singled a single to right, scoring

Manager Smith Expects to Make Announcement Today—Is a Hard-Hitting Man.

By Dick Jemison. In answer to a query from the sporting editor, Manager Smith wired last night that he has an infielder coming to join the Crackers, and he expects to be able to wire the new Tuesday.

President Callaway of the local club, when questioned on the subject, refused to divulge the man's name, where he comes from or what position he plays.

East Lake Closed Two Days to High Handicap Golfers

But Druid Hills Will Be Open—Champion Whitney Hit in Eye by a Golf Ball.

The East Lake golf course, over which will be played the southern golf championship tournament, beginning next Tuesday, will be closed on next Sunday and Monday to golfing members of the Atlanta Athletic club whose handicaps are sufficiently large to disbar them from entering the southern tourney, but the Druid Hills club is open to them.

Mr. Tichenor, who is also on the handicap committee of the Athletic club, announced that there were 103 East Lake golfers eligible for the southern tourney.

News was received in Atlanta Monday that Nelson Whitney, present southern title-holder, was hit in the eye by a golf ball while playing Sunday. He was injured so badly that it is not expected he will enter either the trans-Atlantic tourney in Memphis this week or the southern championship tournament here next week.

Table with columns: RANGE IN NEW YORK COTTON, Open, High, Low, Close, Prev. Close. Rows for Jan, Feb, Mar, Apr, May, Jun, Jul, Aug, Sep, Oct, Nov, Dec.

New York, June 7.—While somewhat irregular, the cotton market made a generally steady showing today with the close steady at a net advance of 5 to 10 points.

Firm cables and reports of unsettled weather in the south over Sunday doubtless accounted for an opening advance of 10 to 11 points, and active months sold 13 to 14 points net higher right after the call on seat-

Private cables reported a small, steady market in Liverpool, and local buyers were inclined to attribute the firmer tone in that market to the larger amount of cotton forwarded from the Liverpool stock yards week and a better demand in Manchester.

Weather news was more favorable than otherwise and was generally consoling, but it was not sufficient to arouse no selling power of consequence.

OWEN RESOLUTION CAUSES BIG FIGHT Measure to Make Teachers Work During the Summer Months Called "Dangerous Piece of Legislation."

Alderman John S. Owens' resolution to give the board of education authority to employ teachers for eleven months and force them to do certain work in the summer months to be prescribed by the board met with a vigorous protest in general council Monday afternoon.

Some of the councilmen declared there was a joker in the resolution and Alderman Owens admitted that the resolution, although not so stated in the measure, was to force the teachers to instruct in the summer months pupils who failed to be promoted by them.

It is a dangerous piece of legislation, and we must be careful to do such a thing, declared Councilman C. L. Ashley. "It is forcing the teacher to pay a penalty for the dullness of the pupils."

Major Pro Tem Ragsdale declared that as intelligent and fair-minded men he did not believe general council would adopt such an absurd measure.

The resolution was referred to the board of education and will have to be read by a majority before general council will consider it further.

It is proposed under the Owens resolution to readjust salaries, that principals of two and three grade schools shall receive \$900 per year and above \$1,200 per year.

BILLION TRADE BALANCE FOR THE UNITED STATES

But Exports Other Than Foodstuffs Were Greater During Peace.

Washington, June 7.—"Despite the so-called war orders," says an official analysis of foreign trade issued today by the department of commerce, "the exports of manufacturers for all kinds other than foodstuffs have been less than in the similar period before the war."

The statement refers to the foreign trade for the ten months ended in April, which shows a trade balance of almost a billion dollars in favor of the United States.

Exports to Germany showed a \$250,000,000 decrease, and Belgium a \$184,200,000 decrease.

CONSIDER BONDS AT NEXT MEETING

Council Will Pass on Resolution to Cut Out All Items Except Schools and Grady Hospital.

After wrangling for an hour over amendments providing for ward improvements general council adjourned without taking action on the report of the special bond committee calling for a bond issue of \$3,000,000 for public improvement.

When general council holds its next meeting Alderman I. N. Ragsdale will urge the passage of an amendment by himself, Aldermen Seawright and Owens providing for the striking out of all the items of the report with the exception of \$1,000,000 for schools and \$300,000 for Grady hospital.

Silver Loving Cup Presented Dr. W. S. Elkin at Banquet

A silver loving cup was presented to Dr. W. S. Elkin, Sr., dean of the Atlanta Medical college, by the faculty and adjunct faculty, at a banquet given in his honor last night at the Piedmont Driving club.

The occasion of the banquet marked the close of the fourteenth year of Dr. Elkin's leadership of the college, which is about to be merged with Emory university. The gift of the loving cup, as a testimonial of his valued services, came as a complete surprise to Dr. Elkin.
