

## Sweeping Readjustments In Salaries of Teachers Made by Education Board

### Merit System Will Mean Saving of at Least \$30,000 a Year to City, Says Aldine Chambers—Superintendent Gets Increase of \$400 Annu- ally.

#### MANY CHANGES MADE IN TEACHERS' RANKS AT MEETING MONDAY

According to the New System, Instructors of Schools Are Elected for Twelve Months With One Month Vacation—Principals Get Raise.

By a vote of ten to two the board of education Monday adopted a resolution by Aldine Chambers providing for a sweeping readjustment of salaries of teachers in the grammar schools of the city, and increase in the salary of superintendent from \$3,000 to \$4,000 per year. The new schedule of salaries, however, will mean a saving of \$30,000 annually to the city.

The resolution carried amendments by Dan W. Green and President R. J. Gunn, providing that a copy of the resolution should be furnished general council for confirmation and that conditions be placed on teachers seeking to attain to certain groups.

### 3 MEN ARE KILLED AND MANY WOUNDED

As Result of Attempt to Lynch Negro Assailant, Negro, Sheriff and Mob Leader Dead.

Winnabow, S. C., June 14.—A D. Hood, sheriff of Fairfield county, Judge Smith, and a charge of attempted criminal assault, and Clyde Isenhower, a relative of Smith's alleged intended victim, are dead, a deputy is believed to be dying and a half dozen others are suffering from more or less serious wounds as a result of an attack upon the sheriff's party as the negro was being taken into court this morning.

Clyde Isenhower, alleged leader of the mob and a relative of the woman Smith was charged with attacking, Ernest Isenhower, his brother, William Morrison, a brother-in-law, and James Rawls, late today were indicted on the charge of murder, the grand jury handing out the true bills after an inquiry this afternoon.

Clyde Isenhower was almost shot to pieces and died tonight in a hospital at Chester, S. C. J. R. Boutwell, a deputy sheriff, received a bullet in the pit of the stomach and is thought to be fatally wounded. The negro Smith was struck but once of the half dozen others more or less painfully wounded. Earle Stevenson, a young deputy sheriff is hurt worse than any of the others. He is lying in a room near the elbow, one of them severing the artery of the arm.

A special train was hurried from Columbia here immediately after the tragedy, and Sheriff Hood and his deputy were sent through the left arm for surgical attention, where Sheriff Hood died tonight at 7 o'clock. The bodies were taken to the hospital for surgical attention.

Despite his weakened condition from the bullet wounds, Sheriff Hood led the prisoner on up the stairs into the courtroom. The negro dropped dead beside the dock and Sheriff Hood staggered on to the bar, where a court official eased him to the floor.

Isenhower darted back into the sheriff's office on the first floor of the courthouse where he was being held by the police. He was found two minutes later, Isenhower has five or six bullet wounds in his body, there being thirteen punctures of the skin.

## BUSINESS BUILDING ON WHITEHALL ST.

### Four-Story Structure to Be Erected Near Hunter, Street Will Cost Approx- imately \$50,000.

Plans are now practically completed for a handsome new business building to be erected on the east side of Whitehall street between the Chamber-McJohnson-DuBose building and the Vaudeville theater.

The proposed building will be four stories high and the builder will be Mrs. Mary G. Thurman. The details of the building are being handled for Mrs. Thurman by her nephew, Rolfe E. Glover of Richmond, Va. and Forrest Adair of the Forrest & George Adair agency.

What the aggregate investment in this new enterprise will amount to has not been determined by Mrs. Thurman but it will approximate something like \$50,000.

Colonel Adair last night described the proposed building as follows:

Four stories steel frame and pressed brick construction, elaborate front of Whitehall of plate glass for all four floors—ground dimensions of 35x113.

Colonel Adair stated that three out-of-town firms have applied for a lease on the building, which will be devoted to trade purposes.

Mr. Glover is expected in Atlanta within a few days to complete with Colonel Adair the details of the proposed structure.

## HOWARD TO FINISH APPEAL FOR FRANK EARLY WEDNESDAY

### Governor Forced to Adjourn Hearing Monday Afternoon to Take Trip to Athens. Slaton's Decision in Case Expected Either Wednes- day or Thursday.

#### STORY TOLD BY CONLEY NECESSARY TO CONVICT FRANK, SAYS HOWARD

### The Ex-Congressman Tells Why the Defense Did Not Cross-Examine the State's Witnesses Who Charged That Prisoner's Character Was Bad.

While Attorney William Howard was in the midst of an impassioned argument in behalf of Leo M. Frank, Governor John M. Slaton Monday afternoon at 6:10 o'clock adjourned the hearing on the commutation plea at the capitol until Wednesday morning at 9 o'clock, at which time it will be concluded.

A decision is expected by Thursday Governor Slaton left last night at 8:30 o'clock for Athens, where he goes to deliver the commencement address at the University of Georgia. He charged with a volume of documentary evidence and court record bearing upon the Frank case, which he intends to study on the train and at leisure moments in Athens.

Every possible effort has been made to expedite the hearing and to reach an early decision, and the conservation of time has been one of the most important factors in the hearing. The speech of Mr. Howard had lasted three and a half hours Monday afternoon, and will, in all probability, continue for two hours or more tomorrow morning.

The opening words of the attorney were an answer to former Governor Brown's address of Saturday, in which the former executive had argued against commutation. He charged Brown with inconsistency, and in refutation of the former governor's argument, spoke of a number of pardons and commutations granted in Brown's official career that were inconsistent, he argued with the ex-governor's protest against clemency for Frank.

"I wish at the very outset," stated Mr. Howard, "to admit that Mr. Brown was entirely within his rights when he took in view of his former high office to present to your excellency an argument against commutation. But Mr. Brown must stand solely upon his own argument for or against commutation. He takes to draw upon his own practices, the sincerity of his purposes should be borne out by his record in office."

If it happens his own record is at variance with what he asks you to do, it is becoming of you to look into his own official conduct.

He intimated that it would be abuse of pardon power to attempt to interfere with the verdict of a jury, but it appears that on June 13, 1915, but a few days before his retirement from office he issued forty pardons and commutations.

## NO DISORDER MARKS STRIKE AT CHICAGO

### First Day of Great Trolley Tie-Up Passes Without Serious Mishap—All Man- ner of Vehicles Used.

Chicago, June 14.—The first day of the big Chicago street car strike passed without serious mishap. No surface cars were run, and only a few trains on the elevated tracks were operating. The strike was the big question before the regular meeting of the city council tonight.

The quiet of the day was not accented by the police authorities as asserted during continued tranquility. Chief of Police Healey said he would ask authority to enroll 1,000 extra policemen for the companies make a real effort to operate.

A drizzling rain most of the day added to the discomfort of the city. Owners of automobiles, driving to or from the city, lined up generally to the amiable brigandage of those seeking rides. Few machines traveled with empty seats.

By a vote of 11 to 3 the finance committee of the city council decided to take under consideration for two weeks the request of Chief of Police Healey for an emergency appropriation of \$175,000 for 1,000 additional policemen for strike duty.

The state board of arbitration undertook a solution of the strike by adjourning to the city of Virginia, where a dispute, asking either party to apply for arbitration through its organization.

## ATHENS COP PULLS GOVERNOR SLATON'S SPEEDY CHAUFFEUR

Athens, Ga., June 14.—(Special)—Ten minutes after the governor had arrived in Athens tonight his chauffeur, J. Weitz, was sorted with a copy of charges for running past a street car with the governor's car.

Policeman Short went with the driver to the governor's room at the hotel and touched the chief executive for a fiver as cash bond.

Governor Slaton, Mrs. Slaton Mr. and Mrs. John W. Grant are in the party here for Georgia alumni day tomorrow. The governor is to deliver the annual address.

The Inneses were extradited from Oregon to answer to a charge of murder, of which they were acquitted. It was claimed they had killed the two daughters of Mrs. John Nelms, of Atlanta. They contended they could not be held in Texas for another crime.

## GERMAN JINGOES SHARPLY REBUKED

### Director of Berlin Anzeiger Urges Peaceful Settlement With the United States.

#### New Form of Naval War- fare Proposed.

Berlin, June 14.—(Via London)—The Lokal Anzeiger prints a notable article on German-American relations by its general director, Eugen Zimmermann, which coming on the heels of Friday's conciliatory article, is taken to mean that influential representatives of German policy and business are standing behind the paper and exerting their efforts for a German-American understanding.

President Wilson says Herr Zimmermann, desires nothing more and nothing less than an understanding between Germany and England concerning the forms of maritime warfare, which, at the same time, will insure the safety of American passengers.

The article ventures to indicate for the first time to the German public that there may be a second side to the question of arms shipments on which Herr Zimmermann pays his respects to what he terms "the tyrant preaching war to the knife against everybody, and concludes:

To reach understanding with blood and iron but because we are fearless and determined we may look for possible ways of settling with America. We need not close up our department of incoming and outgoing telegrams. We need not give up our telegrams. We need not give up our telegrams.

## SMASHING ATTACKS AIMED AT RUSSIANS BY TEUTONIC ALLIES

### Austro-Germans Claim to Have Taken the Russian Positions Along Line Ex- tending for 43 Miles.

#### TEUTONS CLAIM CAPTURE OF 16,000 PRISONERS

### Russian Official Report, However, Makes No Men- tion of the Austro-German Claim—The French Con- tinue Battering Tactics in the West.

London, June 14.—Germany today claimed another decided success along the eastern line. Northwest of Moscow 1 1/2 in the region of Sienawa the German report said that along a line extending over 43 miles the entire positions of the Russians were taken and that 16,000 prisoners fell into their hands.

The Russian official report however only mentioned the locality where this action is said to have taken place in a paragraph declaring the Austro-Germans after heavy losses in the region of Moscow Friday and Saturday did not resume the offensive.

According to Petrograd the Austro-Germans again have crossed the Dniester where a brilliant cavalry charge at Zale Szczyk resulted in a local Russian success but no claim is made that the invaders were pushed back across the river. A crossing of the river at this place may not be a serious affair for the Russians as it is remote from Lemberg and an advance from it might expose the Austro-German flank.

### FRENCH BATTER GERMAN LINE

In the west the French continue their battering tactics against formidable German positions, with some assistance from the Belgians who have thrown a battalion across the Yser, to the east bank where, south of the Dixmude railway bridge they destroyed a German blockhouse. They claim to have retained their position against German counter attacks.

Berlin claims the French suffered a severe defeat on the frontier north of Souchez, and Paris admits the loss of German trenches recently captured in that sector. The much referred-to sector north of Arras is still the scene of the heaviest fighting. For weeks the French have daily pressed their attacks, gaining ground foot by foot and occasionally losing some of that for the possession of which they have paid a heavy toll.

### TEUTONS REPULSED, RUSSIANS CLAIM.

Petrograd, June 14.—(Via London, June 14, 57)—The official communication issued from general headquarters is as follows:

On the Windau river on Sunday we repulsed the enemy's repeated attempts to cross the river with strong forces in the neighborhood of ground taken by us and checked all attempts of the enemy forces which had already crossed at this point to assume the offensive.

# TRIBUTE BY WILSON TO UNKNOWN MEN

### Who Constitute Body of Nation—President Calls for Every-Day Patriotism at Flag Day Exercises.

Washington, June 14.—A tribute to the great multitude of unknown men who constitute the body of the nation and an appeal for patriotism in every-day life, instead of on special occasions only, marked a speech by President Wilson today from the treasury steps at flag day exercises.

While the president made no direct reference to the European war or international questions his every word about American patriotism and what it means in these times was greeted with enthusiastic and prolonged applause.

In introducing Mr. Wilson Secretary McAdoo, said the meeting was held to pay homage to the flag of our country at a time when it has a deeper significance than ever before in the world's history when it is the hope of civilization.

**What the King Means.**

"For me said the president the flag does not express a mere body of vague sentiment. It is the embodiment, not of a continent, but of a history, and no man can rightly serve under that flag who has not caught some of the meaning of that history. It is the embodiment of a national life by any literary expression of it but by the actual daily endeavors of a great people to do the tasks of the day and live up to the ideals of honesty and righteousness and just conduct. And as we think of these things our tribute is to those men who have created this experience. Of these men we feel that they have shown us the way. They have not been afraid to go before. They have

known that they were speaking the thoughts of a great people when they led that great people along the paths of achievement. There was not a single swash-buckler among them. They were men of quiet thought, the more effective because there was no bluster in it. They were men who thought along the lines of duty, not along the lines of self-aggrandizement. They were men in short who thought of the people whom they served and not of themselves.

**Real Body of Nation.**  
"But while we think of them and do honor to them as those who have shown us the way let us not forget that the real experience and life of a nation lies with the great multitude of unknown men. They constitute the body of the nation. The flag is the essence of their daily endeavors. This flag does not express any more than that they are and what they desire to be and as I think of the life of this great nation, it seems to me that we sometimes look to the wrong places for its sources.

We look to the noisy places where men are talking in the market place, we look to where men are expressing their individual opinions, we look where partisans are expressing passion instead of giving to the world ears to that voiceless mass of men who merely go about their daily tasks try to be honorable, try to solve the people they love try to live worthily, of the great communities to which they belong. These are the breath of the nation's nostrils these are the snuff of its might.

**Patriotism for All Days.**

There are no days of special patriotism. There are no days when you should be more patriotic than on other days. I am solemnized in the presence of such a day. I would not undertake to speak your thoughts. You must interpret them for me. But I do feel that back not only of every public official, but of every man and woman of the United States there marches that great host which has brought us to the present day, the host that has never departed, the vision which it saw at the birth of the nation, the host which always responds to the great duty, manly and of liberty, the host that will always constitute the strength and the great body of friends of every man who does his duty to the United States.

I am sorry that you do not wear a little flag of the union every day, instead of some days, and I can only ask you if you lose the physical emblem, to be sure that you wear it in your heart and the heart of America shall interpret the heart of the world."

# PEACE CONFERENCE URGED FOR MEXICO

### Gen. Villa Notifies Washington He Has Appealed to Carranza—Villa Admits No Recognized Authority Prevalts.

Washington, June 14.—The United States is formally invited today by General Villa on behalf of the Mexican convention forces that he had telegraphed General Carranza urging a conference for the restoration of peace and constitutional government in Mexico.

This step is the first tangible development resulting from President Wilson's recent warning to all Mexican factions that unless they came to an agreement among themselves by some other means would be employed by the United States to relieve the suffering population from further devastation of the military element. On General Carranza's reply depends the next move in the situation.

**Mexicans Bar Foodstuffs.**

Coincidentally the state department was advised by Miss Mabel Boardman, of the American Red Cross, that the Mexican authorities at Piedras Negras had ordered entry to be closed to foodstuffs consigned for the relief of people in Monclova. Consul Blocker is endeavoring to use his good offices to arrange for the transportation of the supplies. On the other hand, General Rosalio Hernandez, the villa commander, had declared the supplies "not allowed to be entered. Until Consul Blocker reports the details the state department will take no further action.

The announcement that General Villa had initiated a movement for peace was received with satisfaction in official quarters. Enrique L. Laventure, Washington representative of the Zapata coalition called on Secretary Lansing with a copy of the Villa telegram to Carranza and a long note from Villa replying to President Wilson's recent pronouncement of peace. The note referred appreciatively to the president's efforts and outlined the purposes of the Villa Zapata leaders to bring about a reconciliation with the Carranzistas.

**Villa to Carranza.**

In the message to Carranza dated June 11, and sent direct from the camp of the northern general at Aguas Calientes to the first chief at Vera Cruz, stress is laid upon President Wilson's warning that the United States would be obliged to decide on other methods should a coalition of the factions prove futile.

General Villa says: "In our opinion, this declaration involves two perils, which must be met at the ends of the revolution, and impair our sovereignty. First, the centrifugal, with another group, might again overthrow themselves with American assistance. Second, should the people not submit to this, the American government might have recourse to direct intervention in the face of these two imminent dangers, and without recognizing the right of the American government to intervene in our affairs, we think that we should seek means that would permit the creation and reorganization of the constitutionalist party even though it be indispensable to make sacrifices of a certain nature. We believe also that this is what patriotism and the future welfare of our country require of us.

In such sense, we propose to you that we take under consideration President Wilson's note and that, if you are so disposed, as we are, we should advise us that we may discuss and agree at once upon the form and terms of procedure in the reorganization of the national constitutionalist government. We have already placed ourselves in touch with the chief of the convention government, as well as with the commanding general of the army of the south.

The telegram was signed by General Villa and M. Diaz Lombardo, in charge of the department of foreign affairs of the convention government.

**Not Announced by Carranza.**

In the memorandum filed at the state department, General Villa sums up with the following: "We of the convention government have not been animated by ambitious for power, nor do we desire to obtain it by the free vote of the Mexican people. But inasmuch as the desire to consult the country relative to the restoration of a legal regime, with constitutional sanction, is accepted by the Carranza faction, we of the villa, in the light of possible intervention in our national problems by a foreign power, to again invite those Mexicans to unite and collaborate with us in the work of realizing the principles of the revolution, especially the question of the development of the constitution for the masses and we only except from that question those who according to the words of Carranza, have ignored the constitution of the republic, and employed their power against the interests of the people.

The Mexican people entertain "the gratitude toward the United States for their generous sympathy and moral support, and I am pleased to observe that the United States recognizes that the people and government of the United States make no distinction of right to take part in the solution of our internal affairs. General Villa admits the contention that there is no recognized authority throughout the country. He wishes, however, to a message to him from Duval west, President Wilson's representative stating it gives me pleasure to inform you of the magnificent impression which the tranquility and order which have prevailed everywhere I have been, has inspired every one. He also quotes from a message of Sir Cecil Spring-Rice, British ambassador to the United States to a representative in northern Mexico, expressing gratification to the Villa government for prompt action in protecting British interests.

# RUMANIA AGREES WITH THE ALLIES

### Understanding Reached and Rumania Will Soon Enter War—Greece and Serbia Not Pleased.

Rome, June 14.—(Via Paris)—A dispatch to The Giornale d'Italia from Sofia says:

"M. Filipescu, leader of the Rumanian conservatives, declared today that the quadruple entente powers (Great Britain, France, Russia and Italy) have agreed to the demands of Rumania. Therefore a definite conclusion of an understanding for the intervention of Rumania in the war is imminent. Greece and Serbia will send an identical note to the Bulgarian premier, M. Radoslavoff, and his cabinet declining the proposals of the quadruple entente powers for the cessation of Macedonian territory to Bulgaria."

The correspondent of The Giornale d'Italia in his dispatch adds: "I am assured that Greece and Serbia are sending a note of protest to the great powers, declaring that it is impossible to accept a Balkan understanding on such terms. M. Radoslavoff and his cabinet will use pressure on Serbia and Greece because in the end the conception of the quadruple entente is based on right, and just consideration of national aspiration in the Balkans must prevail."

Further progress was made yesterday. The next immediate objective is the town of Mafraena, on the gulf nine miles from Triest.

### You might as well be using an 1898 calendar!

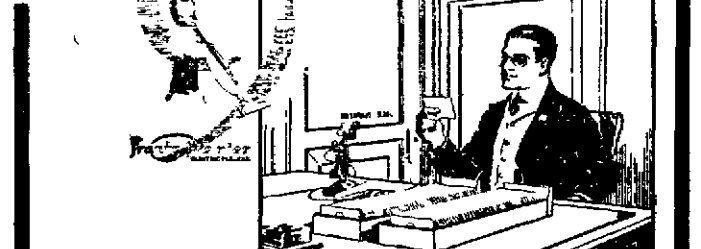

BECAUSE that's just about the business era you are working in, if you still believe in pencil marks in a note book as the way to write letters. Bring your business calendar up to date! Man alive, realize how far behind the times you are by having your stenographer write every letter twice—once in shorthand and once on her typewriter.

Cut out the wasted time she spends at your desk taking shorthand dictation, and waiting to take it. Give her a chance to earn her salary by spending all her time in producing what you pay her for—finished typewriting. Shorthand wastes everybody's time—your time and your stenographer's. And it wastes your money too. The Dictaphone saves everybody's time—and of course it saves your money. We can't hope to tell you all of the best here.

Your phone is handy—use it now. Call Ivy 288—that's the Dictaphone—and make an appointment. Or drop in personally—the Dictaphone Office is No. 63 North Pryor street. In any event get a copy of our book "How One Man Saved Money." It's yours for the asking, and you will be glad you asked for it.

# VENIZELLOS CARRIES ELECTIONS IN GREECE

Athens, June 14.—(Via Paris)—The latest returns from the general elections which confirmed the success of the Venizelos party, are not yet definite enough to indicate the exact majority Government candidates in Macedonia were elected.

The partisans of M. Gounaris the present premier assert that they have elected 120 out of 316 deputies.

King Constantine has not yet learned the result of the election as his physical condition continues to cause anxiety.

A change of ministry may be postponed by the government for forty days. The present cabinet presumably may remain in power until the end of August.

- Vestees of organdie in waists at \$1.50 and \$3.95.
- The use of Puritan collar's is very noticeable.

# GEORGIA MUST SECURE

## SMITH-LEVER BENEFITS

### Dr. Soule Urges That Coming Legislature Must Act Promptly.

Athens, Ga., June 14.—(Special)—In his report to the board of trustees Dr. Soule, president of the institution, stresses the necessity of re-impressing on the legislature the need for prompt action to secure the Smith-Lever bill appropriations for extension work in Georgia to reach thousands more of the farmers of the state who are now beginning to feel the advantages the state college offers.

**Attendance a Record.**  
Dr. Soule reports 712 students enrolled during the past year, 171 in the college of engineering and science and 541 in the college of agriculture. There are 23 more than last year and 27 graduated this year, five times as many as in 1909. The higher standard of entrance requirements has not diminished the registration. The broadening scope of extension work and the still further extension of the extension work under the Smith-Lever plan will give places to many graduates who are always in demand. Sixteen graduates of the college are now county agents for the government, in the forestry service several have taken government work and there is demand for more men trained for the service.

**Teaches Quarter Million.**  
Just 150 boys and seventy girls have taken the short course in the college, scholarships given as prizes by the bankers association, the railroads and others. It is stated that the acre corn clubs of the state, existing ten thousand boys a year, have been largely instrumental in increasing the corn yield per acre in the state from ten bushels to eighteen bushels—twenty million bushels annually. There are in the corn, canning and pig clubs in 142 of the 148 counties of the state 16,000 boys and girls enlisted. Demonstration work is being done in 78 counties with 11 men and women employed in the work. There were 1,212 special meetings held over the state during the year and 124,359 persons attended. The agents in this extension work traveled 324,356 miles last year.

**Uclea Sam Co-operating.**  
The college is co-operating with the federal department in many counties of the state in soil surveys of counties, in plant industry, field work in dairying, pig and poultry club work, hog raising control work, co-operative work with the state agricultural department is also being prosecuted along several lines and the chambers of commerce of Athens, Macon and Columbus.

THE CONSTITUTION Established 1868 THE STANDARD SOUTHERN NEWSPAPER Published Daily, Sunday, Tri-Weekly CLARK HOWELL Editor and General Manager

ment has returned to normal, following an extraordinary decline which began just after war was declared. The turn for the better was taken early in the present year, and each month has shown a gratifying increase back toward normal.

JUST FROM GEORGIA By Frank L. Stanton Same Old Country. It's just the same old country—no matter what they say. The light of Freedom's shining on its forehead—fine today. It's the old "Star Spangled Banner," and its music rolls away—

MAGNA CHARTA. The 700th Anniversary of "The Palladium of English Liberty." Today is the seven hundredth anniversary of the signing of Magna Charta. The following article on that great event has been written for The Constitution by Rt. Rev. C. K. Nelson, bishop of the Atlanta diocese of the Episcopal church.

ENTIRE NATION APPLAUDS CONSTITUTION EDITORIAL. The following are some of the letters and telegrams showing the universal approval accorded the editorial in Saturday's Constitution, declining to print any more of W. J. Bryan's statements embarrassing the administration during the present crisis:

POSTAGE RATES. United States and Mexico. 10 to 12-page papers, 1c; 12 to 24-page papers, 2c; 24 to 36-page papers, 3c; 36 to 50-page papers, 5c. ATLANTA, GA., June 15, 1915.

THE WAR OF THE AGES. The war in which Europe is plunged has violated all conditions. No place is sacred from its fiery sweep. It is a mad imitator of those barbarian wars that leveled cities to the sands.

UNCLE JULES WHO SAYS: KEEP YOUR LIGHT SHINING—BUT WATCH THE OIL TANK! Major Charles W. Hubner contributes this poem to The Constitution, suggested by the European war:

Chicago Capitalist Approves. Editor Constitution: Permit me to congratulate you as being the first paper to refuse to print any matter coming from the mouth of Bryan according to a special telegram printed in The Chicago Tribune today. He has been a public nuisance long enough. Long as I live, I will be your friend.

He Does Not Agree. Editor Constitution: Your editorial, "Private Citizens' Appeal," is a masterpiece. I am glad to say that your refusal to further publish any of Mr. Bryan's "daily pronouncements" is a wise and patriotic act.

A \$20,000,000 ERROR. Through careless wording of the present tariff law congress may cost the United States some \$20,000,000, which will have to be returned to importers, if the supreme court of the United States should uphold that construction of the law which has been placed upon it by the customs court of appeals.

WEEKLY FARMERS' FAIRS. The enterprising merchants of Sparks, Ga., in order to keep in closer touch with the farmers of that thriving section, have decided to hold weekly fairs for their encouragement. Of this novel idea The Tifton Gazette says:

The Holland Letter. About twelve years ago, William A. Simonson, then as now vice president of the National City Bank of New York, was able to say that investigations showed him that west of the Allegheny mountains some of the larger cities were becoming centers of great financial power and resources.

Wisdom and Patriotism. Editor Constitution: I desire to express my cordial approval of the stand you have taken in declining to publish any more of Mr. Bryan's statements. If all the papers in the country would follow your example, they would, in my judgment, be rendering splendid service to their country at this crisis in our history.

Indianaapolis, Ind., June 15, 1915. Editor Constitution: I wish most heartily to thank you for your editorial, "Private Citizens' Appeal." It is timely, logical, sensible. In this time of stress and strain, it is a great blessing to the newspapers of Georgia and of the entire nation. It meets the approval of all the people, expressing their opinion in a most effective manner.

TRADE REFLECTORS. Among trade reflectors there are few, if any, that are better than the business done by the postoffice department. Improved business conditions locally have been reflected in the receipts of the Atlanta postoffice, as well as in the growth to normal, and even more, of the Atlanta clearing-house figures.

Peace in Mexico will come only when the army of generals disbands. War makes the battlefields—the wreck and ruin; and there War reaps the wreck to keep its fires blazing.

Word from Mrs. Williams. If you wuz at de end of de way right now wouldn't you worry 'bout de roads dat didn't lead to it?

Some changes are in progress, as, for instance, the really wonderful developments of wheat in the state of Minnesota. Presumably these will steadily grow and may furnish the chief basis for the yearly increase of wealth in that section.

RIPPLING RHYMES BY WALT MASON. MIGHT BE WORSE. The widow sash came hurtling down on Kuckshaw's shapely head and neck, it nearly spoiled his tollivorn crown, and made him and the folks around him feel as though they were in a hot water.

NEWS OF A MEXICAN "VICTORY" SHOULD READ: "Captured a town and a small amount of the starving people's provisions."

Villa offers to resign, but the minute they are congratulating him he takes second thought and a town or two.

THE RUNE OF THE RAIN. Oh, listen to the rane of the rain, The musical rain in June— Its silver song in orbic strain— The magical rain-drop tune.

THE RANE OF THE RAIN. Oh, listen to the rane of the rain, The keen sweet smell of the shower! The freshening tang of ripening grain Of clover field and fragrant flower.

THE RANE OF THE RAIN. And greenest ferns in the dew drenched dells, Where lilies fill the garden bed, While fire-flies spark the dusky fells To the rippling rane of the rain.

George C. Bond, of Elberton, president of the Georgia Rural Mail Carriers' association, passed through Atlanta Monday on his way home from Macon, where he had been to meet George T. Fippin, of Round Oak, for the purpose of completing arrangements for the annual meeting of the Georgia rural mail carriers.

Both gentlemen called at the Commercial office and expressed themselves as being highly elated at the enthusiasm being manifested by the carriers of the state over the forthcoming meeting.

Reduced Rates at All Hotels.

The officers have secured reduced rates at all the hotels in Macon and this, together with holiday rates on all railroads, the central location of the Macon city, a splendid program, and the desire on the part of the carrier body to learn all there is to know about the management of the service announced by the postmaster general, is certain to bring out a large percentage of the membership.

Secretary Known has sent out requests for carriers to send in their names to the meeting, and he states that the response is gratifying.

The headquarters of the carriers will be at the Macon Hotel, where the convention will be held in the courthouse, which is only a block from the Hotel. Later home by the carriers are planning to give the carriers a good, old-fashioned southern welcome, and those who happen to give up the convention routine business will find plenty of entertainment of an enjoyable nature.

Vacation Summer Schools Organized Monday Morning

The vacation or summer schools were organized at the chamber of commerce yesterday morning by Miss Laura M. Smith, director. A talk was made by Major R. J. Gulnn, president of the board of education. He said that a great compliment was paid those who had been selected for the summer schools as only the best teachers were wanted for the work.

"It will be your duty not only to promote the children under your care," he said, "but to see that you have the hearty co-operation of the parents. These vacation schools are for the good of the children and not in any sense a hardship. Let the parents understand this and tell them that we are trying to help them and their children."

What is done by the vacation schools this summer means much to the cause of education in Atlanta. So help us to make the schools a conspicuous success. You are to be congratulated upon having a hand in a work that means so much to the city and its public school system.

In speaking of the schools' work in general, Major Gulnn said: "I believe that I can safely say to you that when teachers are elected months' term, they don't get a strike over their heads. The board stands for your best interests. We are going to do what we think is for the best interests of the schools in spite of any outside buncombe or bluster."

THRICE DESERTED, HOME SOUGHT FOR SAVANNAH BOYS

First deserted by their father, who refused to provide for them and their mother, next by their mother, who became an inmate of the tenderloin, and finally given up by their grandmother, who was recently sent to a hospital, a wreck of a woman 70 years old, John Quincy Howard and Eugene Howard, aged 4 and 2 years respectively, two little boys of Savannah, Ga., will arrive in Atlanta Tuesday night, having been found by the Georgia Children's Home society. The tale of the two children as told by the Georgia Children's Home society, is one of the saddest that has ever been recorded in the offices of the society. The mother, the youngest child, was born, the father deserted his wife and has not been heard from since. The mother was forced to face the world alone after the birth of her child. A story of privation follows, in which she is described as being too weak to resist the temptations which were in her path. She later went to Augusta, Ga., and worked for a while in a laundry, leaving the children, who were taken in by their grandmother, Mrs. Howard, who was next heard from in a house of ill-fame in Jacksonville, Fla.

The Savannah manager of the Georgia Children's Home society was in receipt of an application recently, in which the grandmother of the children asked that they be furnished with a home by the society, as their grandmother had been taken ill and would soon be sent to a hospital. In the application of the old man the story of a broken family and ruined lives was set forth.

Colored Woman's Head Plays Havoc With Ax Flung by Jealous Hubby

LaGrange, Ga., June 14.—(Special.)—On Friday night, Wm. Hart, colored, better known as "Long Boy," had some differences with his wife, Sallie Lou Smart, and brought an axe into play. As a result he is now one of the occupants of the Troup county jail and Sallie Lou is at home suffering from a fractured skull. At the time of the trouble, "Long Boy" was working out a sentence. Immediately after he left his place behind the bars, his wife got into trouble and took up her abode there. A negro gentleman friend of hers had compassion upon her and bought her out of misery. And that is what created jealousy in the heart of "Long Boy" about the fractured skull. Saturday a local physician went to call on the negro woman, expecting to find her nearly dead from the wounds, but instead of lying on her death bed Sallie Lou was found standing before her mirror, looking like a queen. An examination showed that the negro's skull was fractured in two places.

Continued and Heavy Rain, Hail and Wind Work Havoc in Lowndes

Valdosta, Ga., June 14.—(Special.)—Excessive rains, accompanied by wind and hail, have done material damage to crops and roads in the western and southern portions of this county. In some sections of the Dasher district it is said that the farmers have abandoned portions of their crops, which they are unable to get to the market. On account of the frequent and heavy rains they have been unable to work these fields properly and the grass has run riot over them. A heavy hailstorm which passed over this portion of the county yesterday did much damage to cantaloupes and watermelons, knocking much of the young fruit from the vines. This storm also badly damaged a long new embankment on the road from Valdosta to Blue Springs, rendering it almost impassable. The embankment was completed only a few weeks ago and the earth had not had time to settle when the storm came. As soon as the embankment can be rebuilt it will be added with means to prevent further washing. Sodding of the embankment on other roads in the county was begun by Chalmers in the morning. The local cottoners, in the early spring and has been of immense benefit.

Eczema? A Torture Quickly Banished

The action of S. S. S., the famous blood remedy, is a wave of health from the stomach to every other part of the body. Any skin disease, no matter what its name, be it eczema, psoriasis, acne, lupus, or just plain boils, pimples or a stubborn abscess, must give way to the influence of S. S. S. Why so? Simply because there is in S. S. S. certain medicinal influences just as essential to blood health as are the elements of the grains, meats, fats and sugars of our daily food. Get a bottle today of any drug store and then write to the Medical Adviser, The Serravallo Co., 111 Swift Bldg., Atlanta, Ga. He will tell you about skin affliction, such as you never before realized. He will clear up the mystery of why certain diseases of the blood make straight for the skin. He will also clear up your doubts as to the nature, cause and proper care of yourself in any form of blood trouble. His advice is perfectly free. There is scarcely a community in the U. PRESIDENT ADAMS TO RETIRE TODAY AS ROTARY HEAD

The Rotary Club of Atlanta will hold its last meeting under the present administration today at 1 o'clock in the convention hall of the Piedmont hotel. President A. S. Adams, who has so ably filled the office of president of the organization, will retire at today's meeting, and it is expected the biggest crowd of the year will be present. There will be an especially interesting program, one feature of which will be a salesmanship contest. A number of Rotarians will be chosen by lot and each one given two minutes in which to "sell" his product or service to the other Rotarians present. A prize will be awarded the member presenting the strongest arguments in favor of his goods. On Wednesday night, June 30, at an hour and place to be selected later, the annual election of officers will take place. Delegates will also be chosen at this meeting to represent the Atlanta club at the international convention of Rotary clubs in San Francisco. Many services of civic importance have been accomplished under President Adams' administration, among them being the unique celebration of Newcomers' Night, when several thousand Atlantans who moved here to live within the past two years, were given an opportunity to get acquainted with each other, as well as with the old-time residents.

## "Robert the First" Spends Monday at Georgia Chamber

Here is the pig that nearly broke up a meeting of the board of education Monday. His name is "Robert the First," and he is shown with his owner, Miss Mabel Redding.

Photo by Francis K. Price. "Robert the First," the prize-winning Duroc-Jersey presented to Miss Mabel Redding, of the headquarters force of the Georgia Chamber of Commerce, by the Brooks County Industrial club, furnished a day of diversion yesterday to all visitors at the Chamber of Commerce building, where he is being kept while a sty in West End is being prepared for him. The pig seemed much pleased with his new mistress and became so demonstrative in his felicitations that the board of education was perturbed in their deliberations over the candidacy of teachers for schools next year, and, headed by Mayor Woodward, called to find the source of the noise.

Miss Redding declares her intention of moving to the country so that "Robert the First" may be properly raised for future prize-winning campaigns at the Southeastern fair, and has already consulted with Dr. Peter F. Bahnsen, state veterinarian, concerning Robert's diet and proper housing.

## BRYAN IS BRANDED AS "NEAR TRAITOR"

Dr. Broughton Shows Famous "Scrap of Paper" on Stereopticon Slide.

Branding as "almost treason" the recent resignation of Bryan from the cabinet, Dr. Len G. Broughton, speaking at the Baptist Tabernacle Monday evening, indorsed President Wilson as the greatest living statesman of the world and coupled his name with the name of King George of England, as the two men who should bring about world-wide peace. "Bryan had a perfect right," said Dr. Broughton, "to forsake President Wilson at this critical time. He had the same right that every man has to forsake his brother in that brother's hour of need. But he has no right to go into the cabinet armed with his secrets to bolster himself up before the American people and attempt to discredit the president and make him appear a weakling in the eyes of the nations of the world. As a view that conduct it is all but treason, and if I do not misjudge the temper of the American people their rebuke will fall upon him rather than upon the honest, humanitarian president in Washington. "Those who are acquainted with the facts cannot but admire the consummate statesmanship with which he is handling the delicate situation created by the sinking of the Lusitania. "The United States now has the opportunity," Dr. Broughton said, "to enter upon the greatest period of prosperity of its history. The resources of Europe and England would be gone in time," he said, "and on account of her devastated fields and ruined industries would of necessity look to this country for sustenance and means of recuperation. Commercial supremacy and economic prosperity would come," he stated in a large audience, "if trade could be torn from the clutch of the shipping trust which now controls American sale of commodities abroad. "The greatest blunder the American congress ever perpetrated," exclaimed the speaker, "was its failure to pass the shipping bill, the greatest blunder of this country has ever had. Dr. Broughton expressed himself as a strong pro-ally man and in speaking of the conflict abroad as the greatest in the world's history, said that he could give much of his information from experience in Europe and that he had at first hand. One of the features of the excellent stereopticon views shown last night was the famous "scrap of paper," the treaty which guaranteed Belgium's neutrality, which he had in his hand, and which he declared, he was the only man thus far permitted to exhibit publicly.

## COUNTY POLICEMEN TO PULL BOXES NOW

Oscar Mills Planning to Give Fulton County Adequate Protection.

With a view to giving the residents of Fulton county a more efficient county police department, Chairman Oscar Mills, of the police committee of the county board, announced Monday that his committee would meet Thursday with Chief George Mathison, of the county police, and arrange for a complete reorganization. The three lieutenants of police will also be in the conference. Some time ago twenty-four call boxes were installed in the various sections of the county for the thirty-one police on the county force. Up to that time the police had been forced to report over private telephones, and at night they found it difficult in reporting. Chairman Mills plan to divide the county into districts or beats and assign an officer to each district. He further plans to have each officer make reports over the call boxes at certain hours during the day and night so that any officer may be reached at any time. W. Tom Wain, another member of the police committee, is known to favor the plan and it is said that Dr. W. W. Robert, the other member of the committee, has seen the need of such a readjustment.

## LOST FOR MONTHS, VANITY BOX FOUND BY MRS. COVINGTON

"From 'Stamps' to 'Bones,' 24 Oct. 14, 1913," engraved on a handsome, silver vanity box, furnished sufficient clue last night for Police Detective Bullard and Shaw to recover it, although the owner, Mrs. W. R. Covington, of 46 Orme street, lost it last November. Mrs. Covington took Officers Bullard and Shaw into her confidence last night. She had been to the company during the day to pay her bill, and a lady, who stood in line just in front of her, picked up the box. Mrs. Covington believed to be her own vanity box. Mrs. Covington inquired the name of the lady of the clerk, and last night she gave the officer this name. The lady-in-front gladly gave the officer the treasure, and told them that she found the box in a rest room in a department store, last November, and had failed to see in the papers any lost ads for the jewelry.

## How to Read a Balance Sheet

A Balance Sheet is a list of Assets and Liabilities. Assets are what we own. Liabilities are what we owe. Not every one can interpret them correctly.
