AMERICAN BAR ASSOCIATION

New York, June 22—It was announced here today that the next meeting of the American Bar Association would be held August 17 and 18 at Salt Lake City.

Battery commanders were informed that they would be held personally responsible for the loss of every gun. FIELD COVERED WITH CORPSES. Berlin, June 22.—(By Wireless to Saville.) The Germans Agency today says out of the following: Reports from Dutch sources say the French losses are fearful. The hospitals at Amiens and Abbeville are overcrowded. Soldiers write that from Arras to Souchez (about eight miles) the field is covered with corpses, and that the odor is unbearable. Reports from neutral sources declare the battle raging near Arras may decide the fate of France. Both sides fight with unheard-of courage and heroism. The French are very strong. The Germans continuously receive reinforcements. The losses on both sides are fearful. DUNKIRK SHELLED BY THE GERMANS. Paris, June 22.—The following official statement was issued by the war office today: "In the course of the forenoon about fifteen additional shells were fired on Dunkirk. Our heavy batteries engaged the enemy's gun which was responsible for that bombardment. "In the region to the north of Arras the German counter-attack came to an end toward morning. During the day there has been only an artillery action of extreme violence between Souchez and Heuric. "In Champagne, near Perthes, the enemy exploded several mines without result. On the heights of the Meuse, at the Calonne trench, the Germans toward the end of the night made a violent attack for the purpose of recovering the positions which they had lost. The success only in occupying a part of their former second line. A counter-attack on our part resulted in almost all of it again falling into our hands. "The number of prisoners taken in that region since June 20 has reached 250 men and three officers. "Near Marcheville, in the Woeyre, a feeble German attack—half a company

which had as its object the reconquest of an abandoned trench between the two lines, was dispersed by our fire. "In Lorraine a German counter-attack, debouching to the east of Leizert, was dispersed by our artillery. In the Vosges, between the two branches of the Fecht river, we have continued to advance in the direction of Bonndach. GERMANS RETIRE IN ALSACE. Berlin, June 22.—(Via London.)—The official announcement today reports successful fighting along the Fecht river, in Alsace, where considerable gains have been claimed recently by the French. The announcement says: "We have transferred our positions to the eastern bank of the Fecht. The full text of the official statement follows: "Western theatre: "An attack on the western bank of the canal northeast of Dixmude against three hamlets occupied by our troops, has been repulsed. North of Arras there was nothing yesterday more than artillery fighting. A French infantry attack south of Neuville was successful in the night. In the Champagne district, west of Perthes, we pushed forward our positions after successful night operations. In the hills of the Meuse hand-to-hand fighting lasted throughout the day, accompanied by heavy artillery fire. At about 3 o'clock this morning we began a counter-attack and cleared our trenches almost completely of all the French soldiers who had penetrated them. We took 130 prisoners. "The enemy advance at Marcheville in small numbers was easily repulsed. East of Luneville there have been further engagements between our troops and the enemy. Last night in the Vosges we systematically transferred our positions to the eastern bank of the Meuse. Bomb attacks by the enemy on Burges and Ostend did not result in any success. "Southeastern theatre: "The battle north and west of Lemberg continues. East of Solkiew the

Russians were forced during last night to retreat from their positions." RUSSIAN FORCES TO QUIT LEMBERG. Petrograd, June 22.—(Via London.) With the Russians opposing the Austro-German forces on a line 2 miles from Lemberg, the Austro-Germans considered here that evacuation of the Gallician capital cannot now be avoided, without a sacrifice of the out of proportion to the strategic importance of the place. "Evacuation of Lemberg as a base already has been accomplished in good order. The hospitals and the government institutions have been removed. "The Russian positions before the city, consisting of a comprehensive system of trenches and entanglements are well calculated to make the victory of the German allies costly. "However, are not regarded by Russian military observers as impregnable on account of the absence of any elevations commanding the district from which it would be possible to employ heavy artillery. "To the north the Austro-Germans are reaching positions evacuated by them in September 1914. They are now between Ruska and Tomaszow, seemingly intent on capturing Tarnow, the railroad junction which is a strategic location between Lemberg and Russia. "The Russians, according to reports here, are succeeding in driving the Austro-Germans along the Dniester. "A general headquarters statement says: "No important change occurred in the Shavl region on June 19 or 20. We made slight advances in our fighting on the River Ringowa. "On the Narew front German forces of moderate strength are protected by violent artillery fire, attempted an offensive, which proved fruitless, better success in the night. "On the left bank of the Vistula on June 20, the enemy attacked in two columns on the front south of Plicia, but was repulsed, losing hundreds of prisoners. "The Tarnow front there was only artillery fire. "The enemy's offensive continues in the region of Rawy, situated on the Plicia, but was repulsed, losing hundreds of prisoners. "On the night of the 20th our troops retired from the Grodek lakes on the Lemberg position. "On the Dniester the enemy has delivered barren attacks between Mikolajew and Juchaczow, the latter of which he was driven back from the villages of Demenka and Lisena, sustaining heavy losses. "The front at Galicia and Bukowina, although stubborn fighting continues in some sectors, the enemy has not made progress anywhere. RUSSIAN FIGHT TO GAIN TIME. Saville, June 22.—(By Wireless to Saville.) The Overseas Agency announced today that the Russians before Lemberg had been defeated along their whole front, and fighting is going on to gain time in order to save their artillery and other war material. "The Germans are within 10 miles of Lemberg," the announcement adds. "The main positions of the Austro-German army are the armies of Generals Mackensen, Linington, Rossm-Ermouth, Pfanner and Volck. RUSSIAN ASKED TO REMAIN CALM. London, June 22.—Discussing the recent fighting in the Russian capital, the Daily Mail correspondent in the Russian capital says: "An appeal to the country to maintain calmness, signed by the Russian general staff, is posted in public places throughout the city. It states that the whole truth is told in official communication and that wild rumors which are being circulated in Petrograd are unfounded. "Military men view the situation without alarm, although admitting it may be some time before Russia again is able to resume a vigorous offensive. They assert that Russia has borne for 18 months the greatest burden of war, suffering the greatest losses and materially improving the situation in the west. "While she is reforming for a renewed battle, Russia looks to the allies to carry the war forward and give Germany no rest. The situation as regards ammunition is expected to improve daily. 4,000,000 TEUTONS OPPOSE RUSSIAN. London, June 22.—A Reuter dispatch from Petrograd says it is estimated that there are 2,000,000 Austrians and 2,000,000 Germans on the front from the lower Tanev to Kozulow and 450,000 along the Dniester front. "The number of Germans and Austrians from the Baltic to Bukowina is put at 4,000,000. SUCCESS CLAIMED FOR RUSSIAN. London, June 22.—(2:45 a. m.)—A Central News dispatch from Petrograd says the following Russian official communication, made public Tuesday: "In the Dniester district a complete success was attained after six days of fighting near Snowidow. The Russians captured over 2,000 prisoners. "On the night of the 20th our troops after fierce fighting the Russian troops captured 2,000 prisoners. DESTRUCTIVE STORM SWEEPS MISSISSIPPI. Several Towns Reported Damaged and One Man Is Killed. Clarksdale, Miss., June 22.—One man is reported to have been killed, several small towns were damaged, cotton and corn crops leveled to the ground and wire communication crippled by a terrific storm which struck the Mississippi delta today and swept southward through Cahoma and Sunflower counties. J. Britt, a sergeant at the state prison farm at Parchman, was reported to have been killed when a prisoner's cage was blown away. "Fur Point suffered the heaviest property damage, according to meager reports received here today. Damage reported a number of buildings wrecked and several persons injured. Damage can be ascertained none was seriously hurt, the majority of the population being away from home with homes being a baseball game when the storm broke. "On the outskirts of Clarksdale several small dwelling houses were demolished and others damaged. Trains Derailed by Storm. Meridian, Miss., June 22.—A south-bound Mobile, Ohio passenger train was derailed seven miles north of here tonight when the locomotive struck a tree which fell across the tracks during a storm shortly after midnight. None of the passengers or members of the crew was injured. Damage to Meridian was confined to light structures, but it is believed the property loss in the rural district north of here will be heavy. FOR LIFE OF BECKER MANTON MAKES PLEA. Albany, N. Y., June 22.—Martin T. Manton, attorney for Charles Becker, pleaded in private with Governor Whitman for nearly two hours today for the life of the former New York precinct lieutenant, condemned to die during the week of July 12 for instigating the murder of Herman Rosenthal. "Neither the governor nor Manton would discuss the case. The governor, however, that he would confer with Manton again next week, when it is expected a formal application for executive clemency will be made. The governor also announced that he would see the condemned man's wife, Mrs. Clara Becker, as interest that may come to Albany. "The possibility that Becker's sentence might be commuted to life imprisonment in the event of the conditional commutation, indicating its intention to abolish capital punishment, was not to be considered, the governor said, because he was bound by laws as they stand today.

THAW'S SEVENTH FIGHT TO GAIN HIS FREEDOM. Jury Is Selected to Pass on the Sanity of White's Slayer. New York, June 22.—Harry K. Thaw's seventh attempt to gain his freedom since his arrest nine years ago for the murder of Stanford White was begun here today with the selection of a jury to inquire as to his sanity. "If the jurors decide in Thaw's favor and Justice Hendrick, presiding who has the power to reverse their verdict, accepts it, Thaw will obtain permanent release from the Matteawan insane asylum. Jury Quickly Chosen. The selection of the jury occupied the entire session of the court, but its completion in one day was regarded as rapid progress, when compared with the time it took to fill the jury box on the two previous occasions on which Thaw had faced a jury. Tomorrow the taking of testimony will begin. Thaw has about fifty witnesses, including a number of alienists, to prove that he now is sane and entitled to his freedom. The state has a large number to testify against him. Thaw said he was entirely satisfied with the jury. "They are an intelligent body of men," he said, "and I will have little difficulty in convincing them that I am sane as they are." Thaw appeared to be in high spirits and frequently joked with newspaper men sitting nearby. Crowds thronged the corridors of the courtroom all day seeking admission, but were told that no spectators would be admitted while the selection of the jury was going on. Evelyn Thaw Wanted. Frank Cook and Alfred L. Becker, representing the state attorney general who, with a representative of the district attorney's office were prosecutors, were reported to be anxious to find Evelyn Nesbit Thaw to call her as a witness. Thaw arrived in court early, accompanied by his mother and sister, Mrs. George Lauder Carnegie. "Whether the fact that Thaw was acquitted of murder by a jury would be considered as influence was one of the questions asked by John H. Stanfield, Thaw's attorney. Mr. Cook, for the state, asked in addition to the customary questions whether the witnesses had any feeling against Mr. Jerome." This question was taken to indicate that William Travers Jerome, the prosecutor at the Thaw murder trial, would be a state witness. Copper Dividend Increased. New York, June 22.—The Anaconda Copper Mining company today declared a dividend of 25 cents a share, an increase of 25 cents over the rate paid since September last. \$976,000,000 BALANCE FOR THE UNITED STATES. Washington, June 22.—Secretary Redfield reported at the cabinet meeting today that the total trade balance in favor of the United States on June 15 was \$976,000,000. He predicted that the balance for the fiscal year ending July 1 would be in excess of \$1,000,000,000. Cotton exported during the week ending June 15 amounted to 24,841 bales, making the total since August 1, 1915, approximately 3,368,541 bales. None of the passengers or members of the crew was injured. Damage to Meridian was confined to light structures, but it is believed the property loss in the rural district north of here will be heavy. FOR LIFE OF BECKER MANTON MAKES PLEA. Albany, N. Y., June 22.—Martin T. Manton, attorney for Charles Becker, pleaded in private with Governor Whitman for nearly two hours today for the life of the former New York precinct lieutenant, condemned to die during the week of July 12 for instigating the murder of Herman Rosenthal. "Neither the governor nor Manton would discuss the case. The governor, however, that he would confer with Manton again next week, when it is expected a formal application for executive clemency will be made. The governor also announced that he would see the condemned man's wife, Mrs. Clara Becker, as interest that may come to Albany. "The possibility that Becker's sentence might be commuted to life imprisonment in the event of the conditional commutation, indicating its intention to abolish capital punishment, was not to be considered, the governor said, because he was bound by laws as they stand today.

BRITAIN TO AID NEUTRAL TRADERS

Note Sent Washington Explaining Efforts Being Made to Mitigate Hardships of Allied Blockade.

London, June 22.—The foreign office delivered today to Ambassador Page for transmission to Washington a memorandum explanatory of efforts being made by the British government to mitigate the hardships suffered by neutral traders on account of the order in council and other war measures affecting their interests.

shutting off Germany from the rest of the world. The foreign office sets forth methods whereby neutrals may trade without coming into conflict with these regulations.

The text of the note will not be published here until it is given out in Washington.

American Note for Britain. Washington, June 22.—The memorandum of the British foreign office summarizing measures adopted to alleviate difficulties to neutral traders under the order in council will not, it is understood, affect the sending of the note to Great Britain now in preparation.

While the measures which are understood to be outlined in the British memorandum are aimed to correct troubles experienced by Americans in their trade with neutral countries, the United States insisted in the note of March 30—its last communication on the subject—that England had no right under international law to stop non-combatant goods of American ownership passing to and from Germany through neutral countries, a blockade being held as effective only against a belligerent coast itself.

EXPORTS TO HOLLAND. London, June 22.—An order in council is about to be issued prohibiting exportation of all goods to Holland ex-

cept those consigned to The Netherlands. It is expected that the order will be passed through Holland into Germany.

Exportation of goods to The Netherlands Overseas trust would be equivalent to an export to Germany, either in the form received or in a subsequent form would reach a country hostile to the Allies.

Mr. Pretzman said it was proposed not only to regulate the number of consignments exported to Holland, but also to keep a full record of the amount of each article going to certain countries and to prohibit further exports immediately if it appeared that more of any article was going to any country than could be accounted for.

The bill passed all stages.

Effect on American Exporters. Washington, June 22.—Enforcement of the British order in council against commerce with Germany and Austria for some time has made it necessary for American exporters to consign their shipments to Holland or the Overseas trust.

Indianapolis, Ind. June 22.—Not half of the 123 men, indicted by the Marion county grand jury here today on charges of conspiracy to commit felonies such as are defined by the election laws of the state and the laws against bribery and blackmail, had surrendered to Sheriff George V. Coffin and given bond tonight.

Democratic National Committeeman and Many Indianapolis Leaders Accused of Election Frauds.

The bonds of those who surrendered today ranged from \$2,500 to \$10,000. It was estimated that if all the 123 were to give bond, the total would run to more than \$300,000.

Mr. Taggart and Mr. Bell tonight proclaimed their innocence and asserted they had committed no crimes for which they should be indicted.

What Indictment Charges. The indictment, which is forty-eight counts and covers 228 typewritten pages charges that the conspiracy began prior to the primary of May 1914 and extended through the election of November 3, 1914.

TURKISH CORPSES WERE VERY THICK

After an Attack on the British Trenches on Gallipoli Peninsula—Brilliant Charge by British.

London, June 22.—“Between 7 and 8 o’clock in the evening of June 19,” says an official communication from the headquarters of the Mediterranean expeditionary force, “the Turks expended some 450 high explosive shells on our left and center trenches and were seen massing for an attack. The enemy’s heart failed him and the attack degenerated into a fire action.”

At 7:30 o’clock one of our brigades attacked a Turkish trench, but were unsuccessful, and the Turks in counter-attacks effected a lodgment at an awkward salient captured by us on the 11th.

Prisoners state that the Turks expected that their bombardment with high explosives would have cleared the front altogether and were much disappointed at so little impression being made though the trenches were much damaged.

The Turkish dead are estimated at 300 in front of the trenches and one thousand in all parts is a low estimate.

After twenty-four hours of heavy and continuous fighting a substantial success has been achieved. As already reported the battle of June 4 and 5 resulted in a good advance of the center to which neither the right nor the left was able to conform.

VOTES TO SUSTAIN LANFORD CHARGES

Continued From Page One.

that Lanford went to sleep in the toilet of the Pullman," said Chief Lanford arising to his feet and addressing the commissioners, who began to smile broadly. On the return trip we were all telling jokes and laughing. I was not drinking. I got up from my seat to go into the toilet, and while standing there I realized that some one was just trying to play a joke on me. I went to go to sleep and lay back with my arms folded just so.

"I fell asleep, really, so comfortable was the position," said Lanford until we were in Atlanta, and the porter came and asked me what I was doing sleeping in the toilet. I told him that I must have fallen asleep, and got up and walked out into the Pullman to look for my shotgun. The car was empty and I got out from the station to the yards.

Chief Lanford then produced several other witnesses who testified that he was not drunk. One witness stated that it was noticeable that Lanford had a very strong odor of liquor. He saw Lanford about an hour after the railroad train had arrived in Atlanta.

Police Borrowed Money.

In connection with a number of call officers connected with the station sergeant's office it developed that many of them have in the past borrowed money from the station sergeant's office. It was intimated by Attorney Hewlett, Lanford's counsel, secured information that the station sergeant's office had paid him back, but that the detective had not.

Captain of Police W. M. Mayo and Chief Beavers clashed in one part of Lanford's trial. Chief Beavers, under instruction by a city detective of an indictment against a thief, Captain Beavers' office and reported to him that the detective was charged with taking the witness. Chief Beavers, as well as Chief Lanford, declared that he had never heard of the incident before last night.

Secretary Morris stated that he remembered Captain Mayo's visit to the chief's office, and Mayo said that Beavers called Lanford to a private office to consult with him over his (Mayo's) report.

"Swaps" Is Reported.

It is being freely talked in official circles that at a recent meeting, held secretly, of a number of the commissioners, the chief of police, and a friend of Lanford's, that a political swapping of votes had taken place. The friends of Chief Lanford agreed to vote with the English-boosting faction of the police board to oust Chief Beavers when the probe report is taken up, provided the others would vote to dismiss the charges last night against Chief Lanford.

It is known that Mayor Woodward did not attend this secret meeting and he is the only commissioner who last night did not vote to dismiss the charges against the detective chief.

Commissioner Wardlaw, who was chairman of the probe committee which returned the report, dismissed Chief Beavers and declared that vice was scattered all over the residential and semi-residential sections of the city, last night claimed that he understood when he signed the report that he was not to be held responsible for the police chief of police department as inefficient. Commissioner Wardlaw is now called Lanford to a private office to back up the report which he recently signed when it comes up for a discussion at Friday night's special meeting.

Miss Evelyn Greene Weds Mr. Lewis Wright of Rome

A beautiful wedding last night was that of Miss Evelyn Gardner Greene and Mr. Lewis Wright of Rome, Ga., which took place at the home of the bride's parents, Mr. and Mrs. W. D. Greene, in Druid Hills.

The ceremony, at 8 o'clock, was performed by Dr. McConnell, and was witnessed by a large company of friends. Miss Jesse Thompson was maid of honor, Miss Thornton Clarke was

bridesmaid and Mr. Barry Wright, of Rome, was his brother's best man. A handsome arrangement of palms in the reception hall formed the background for the bridal gown, and each side of the pyramid of foliage plants were large French baskets of white roses, the baskets raised on white pedestals.

An orchestra provided the wedding music. The bride, descending the stairs with her father, presented a beautiful picture, her girlish beauty at its height in her wedding array. Her gown was made in train, the foundation of ivory white silk, with overdress of point lace. In her tulle veil were caught sprays of orange blossoms, and her bouquet was a shower of valley lilies.

The bridesmaid, carrying a similar bouquet, was gowned in white net combined with pink taffeta. Mrs. Greene wore a white lace gown and Mrs. Wright, the groom's mother, wore black net and lace. Mrs. Charles Loomis, of Louisville, the bride's sister, wore white embroidered crepe.

The house had artistic decoration in smilax, foliage plants and garden flowers in quantities of bright-hued garden blooms having cool green setting in palms and ferns. A buffet supper was served, and the occasion was in all respects one of handsome appointment and delightful hospitality.

Mr. and Mrs. Wright left after the reception for a wedding trip, and they will make their home in Rome. Mrs. Greene, who has recently finished school, is one of the prettiest and most attractive members of the younger set. Her father's family is one of the oldest and most esteemed in Atlanta, and through her mother she has representative Kentucky connection.

Mr. Wright is the son of Hon. Seaborn Wright and he has prominent connection in Atlanta. He is one of the most successful of the younger citizens of Rome.

Harris-Gardner.
The wedding of Miss Ruth Harris and Mr. Frank Hugh Gardner was a pretty event last evening, taking place at Rose Hill, near Decatur, the home of the bride's brother and sister, Mr. and Mrs. W. H. Hamilton.

King and white flowers decorated the den and the living room, where the bridal party grouped before an altar of greenery at one end of the room. Mrs. T. C. Harris was matron of honor and Miss Bertha Gardner maid of honor.

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not speak, nor sleep to do any good, had no appetite, and everyone thought I would not live.

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."—Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham's Medicine Co. (Incorporated) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Had Pellagra; Is Now Cured

Hillsboro, Ala.—J. W. Turner, of this place, says: "I ought to have written you two weeks ago, but failed to do so. I got well and then forgot to write you. I can get about like a 10-year-old boy; you ought to see me run around and tend to my farm. I can go all day just like I used to. I am so thankful to know there is such a good remedy to cure people of pellagra."

There is no longer any doubt that pellagra can be cured. Don't delay until it is too late. It is your duty to consult the resourceful Baughn.

The symptoms—hands red like sunburn, skin peeling off, sore mouth, the lips, throat and tongue a flaming red, with much mucus and choking; indigestion and nausea, either diarrhea or constipation.

There is hope; get Baughn's big Free book on Pellagra and learn about the remedy for Pellagra that has at last been found. Address American Compounding Co., box 2063, Jasper, Ala., remembering money is refunded in any case where the remedy fails to cure.—(adv.)

BANKS OF ATLANTA TO PAY \$250,000 DIVIDENDS JULY 1

Banks of Atlanta are making preparations to pay to their stockholders \$250,000 on or about July 1. This sum represents the total of the regular quarterly and semi-annual dividends, which have already been authorized or will within the next week be authorized by the directors of these banks.

The Lowry National bank at a directors' meeting held Monday night declared its regular quarterly dividend, which is 3 per cent on a capital stock of \$1,000,000, amounting to \$30,000. This goes to the stockholders on record up to June 15, 1915. Checks will be mailed July 1.

Next week the directors of the Atlanta National bank are expected to authorize the usual 6 per cent semi-annual dividend on its capital stock of \$1,000,000, making a dividend of \$60,000. This sum is payable July 1.

On July 1 the Third National bank will pay its semi-annual dividend of 3 per cent on its capital stock of \$1,000,000, making a dividend of \$30,000.

The Fourth National bank will pay its usual semi-annual dividend of 8 per cent upon a capital stock of \$600,000, making a dividend of \$48,000.

The American National bank will pay its usual semi-annual dividend of 4 per cent on its capital stock of \$600,000, which amounts to \$24,000.

It is expected that when the directors of the Central Bank and Trust corporation meet upon the second Tuesday in July, they will declare the bank's usual semi-annual dividend of 3 per cent upon a capital of \$1,000,000, amounting to \$30,000.

The Fulton National bank's directors have already authorized for payment, July 1, the bank's usual 3 per cent semi-annual dividend upon \$500,000, amounting to \$15,000.

The Trust Company of Georgia, on July 1, will pay its regular quarterly dividend of 2 1/2 per cent on \$1,000,000, amounting to \$25,000.

WEST POINT GINNEY DESTROYED BY FLAMES

West Point, Ga., June 22.—(Special.) The ginney of the Farmers' Products company was totally destroyed by fire today, with 200 bales of cotton, making a loss of about \$18,000, partially covered by insurance. It is thought that the fire originated from a cigarette stump thrown into a pile of trash near the building, and the wind, blowing very hard, fanned the flames into the main building, the building being on the ground in less than forty minutes. Adjoining the plant were stored 3,000 bales of cotton, but on account of the fire walls the flames did not reach this lot.

The plant was only installed last fall with the latest improved machinery, operated by electricity. The directors of the company will meet tomorrow to formulate plans for rebuilding at once.

BATTLE HILL MANAGER TO BE NAMED TUESDAY

Mayor Woodward Tuesday morning succeeded in having postponed until next Tuesday the election of a superintendent for the Battle Hill tuberculosis sanitarium. It was stated in The Constitution several weeks ago that Dr. H. H. Brundage, vice chairman of the board of health, was slated for the office, and two members of the Battle Hill board Tuesday stated they would support him for election.

Dr. G. L. Loden is temporarily in charge of the institution and has been acting superintendent since Dr. L. Hollander was dismissed, after admitting some taking certain funds that belonged to the city. He has since had back to the city \$850, which he admitted taking for his own use.

FLOYD COMMISSIONERS ATTACKED BY WRIGHT

Rome, Ga., June 22.—(Special.)—A vigorous fight on the Floyd county board of commissioners is made by Barry Wright, attorney for parties who are seeking to join the building fund in the city of Rome, and levying of a special tax to pay for them. Wright declares the board has been acting illegally in its attempt to levy a special tax to pay for them. Some of the members of the board are getting extra compensation from the county for performing other duties than those of members of the board. A lively controversy is in prospect over the matter.

STATE HIGHWAY COMMISSION.

Hon W. P. Andrews, representative from Fulton county, will today introduce in the house a bill to provide for the creation of a state highway commission.

A road commission established along the lines of this measure will not cost the state a dollar in salaries, and yet it will provide a more efficient administrative method than if the appointment of new officials as commissioners were authorized.

One of the best provisions of the measure is that it turns over to the commission the state automobile tax exceeding \$100,000, which is now frittered away among the counties of the state in proportion to road mileage.

The city of Atlanta now pays practically one-fourth of the total revenues derived from this source of taxation and gets back an amount so small as to be practically negligible.

Atlanta does not object to paying this tax but it would bear the burden much more cheerfully if it felt that the funds derived from this state wide source of revenue were being so applied as to render some substantial benefit instead of being dissipated as now.

We commend this measure to the careful consideration of the general assembly that meets today, for of all topics coming before it for consideration there will be none more important than that involved in the discussion of state highway improvement and the creation of a state highway commission through which the effort of the state may be directed to that end.

THE CASE OF THE U-29.

The German mind pursues a somewhat curious process of reasoning, as illustrated in the case of the sinking of the German submarine U-29. The British admiralty has advised merchantmen to attempt to ram German submarines as a means of self-protection.

Germany contends, according to press dispatches, that in pursuit of this advice, a merchantman rammed the U-29, causing it to sink, with the loss of its crew and the popular German hero, Captain Weddingen.

Therefore, Germans argue, that country cannot afford to accede to the demands of the United States in connection with the Lusitania incident, to conduct its submarine warfare in accordance with the prescribed rules of civilized nations, to the extent of the protection of the lives of neutrals.

This is but another means of attempting to justify the sinking of the Lusitania with its extensive loss of neutral life, regardless of whether she was armed or not. It would look as if Germany, seeing she can no longer hope to hold out before the world the claim that the Lusitania carried mounted guns, is floundering around for some other excuse.

Germany's viewpoint is, of course, apparent. She contends, if opportunity is given for saving the lives of neutrals on a vessel subject to seizure, the vessel itself will take advantage of the delay in the effort to protect herself. It is easy to conceive that this would be true, provided the vessel attacked were in position to attempt defense by manning.

Germany's viewpoint is, of course, apparent. She contends, if opportunity is given for saving the lives of neutrals on a vessel subject to seizure, the vessel itself will take advantage of the delay in the effort to protect herself.

The advice of the British admiralty and

the action of merchant vessels in attempting to protect themselves, which they would naturally do, though unarmed, and regardless of advice, are matters with which it is not apparent the United States has anything whatever to do.

Whatever advice may have been given and whatever defense may be attempted by a merchantman under attack, can have no bearing on our position regarding the Lusitania and similar cases.

It is a moral duty to extract every possible advantage from the submarine weapon Germany cannot let this weapon be shut up in a case whose bars are forced by threatening notes of the United States and by international regulations.

The reports from Germany relative to that country's viewpoint, based on the sinking of the U-29, are the most disquieting since our second note was dispatched.

We shall continue to hope for a reasonable and satisfying reply, but it cannot be ignored that Germany is attempting, at least in a semi-official way, to shift the burden of her unlawful warfare elsewhere.

We shall continue to hope for a reasonable and satisfying reply, but it cannot be ignored that Germany is attempting, at least in a semi-official way, to shift the burden of her unlawful warfare elsewhere.

The Classes and the Masses

An earnest attempt is being made to divide the people of this country into two parts, consisting of the classes and the masses.

There do not seem to be much chance of getting the masses and the classes to agree in their opinion of each other. This would be very distressing, if it were for the fact that it doesn't matter.

It is hardly worth while for a member of the masses to hate the classes for he will be elected alderman at any time in a city which doesn't approve of reform.

ANDREWS TO INTRODUCE BILL CREATING HIGHWAY COMMISSION

Hon Walter P. Andrews, member of the general assembly from Fulton county, and deeply interested in good roads development, will introduce today among the first bills to be presented on the roll call for new measures a bill creating a state highway commission.

Its salient provisions are as follows: The Georgia state highway commission shall be composed of the governor, the state geologist, the dean of the school of civil engineering of the state university, the professor of civil engineering in the Georgia School of Technology and the chairman of the prison commission of Georgia.

Said highway commission shall have the power to designate and lay out a system of state highways to condemn land necessary and proper for the construction of said public highways to supervise the construction and maintenance of said highways and bridges and to prescribe the materials and methods of construction of same.

There shall be a civil service commission of said commission composed of the state geologist, the dean of the school of civil engineering of the state university, and the professor of civil engineering of the Georgia School of Technology, who shall examine and certify all applicants for appointment as state highway supervisors (not to exceed six), who shall be civil engineers thoroughly qualified and skilled in road building and bridge construction.

It shall be the duty of said prison commission to employ all the able-bodied white convicts as they may deem proper who shall be organized into not more than six gangs to be worked in the construction of such state highways as may be designated by said state highway commission.

BUSINESS ON A FLOOD TIDE OF PROSPERITY

Every day of the past week has broadened strengthened made sounder and safer the foundations of business throughout the United States.

We rightly look to the agricultural conditions as the basic cause. It is indeed, said because he will not see wrong because he will not read or believe, who does not find in these conditions today a huge mine of wealth for the people of the United States.

With ratings for the combined crops of Ohio of 104.8, Indiana 106.2, West Virginia, 101.6, Wisconsin 100, Tennessee, 100, Oklahoma 103, Kansas 112, and other states making high averages at this time bumper crops seem to be assured to the country with the world's markets eager to secure the yields.

The grain producers, the hard working farmers in every school district are those who should receive the benefit of the high prices which Europe must pay all of this year and next spring for its supplies of grain.

It is these thousands of millions of dollars that will go to the farmers for their products that constitute an important part of the extraordinarily large purchasing power that is now being placed with the masses of the people of the United States.

The mining districts of copper, coal, lead, zinc are brimming over with wonderful business activities.

With lead at the highest price recorded in thirty years copper bringing 20 cents per pound, zinc at a record-breaking price, the mining industry is busy and the smelters are being run at full capacity and the mine owners and the smelting companies are simply coining money, while there were never such heavy pay rolls as now in those districts.

Among the important business items of the week was the announcement that one chemical company was ready to invest \$14,000,000 in three new plants to produce chemicals in the United States that heretofore were imported from Europe.

Statements were published that extensions of old plants and constructions of new plants were under way by one of the great powder companies to a total value of \$2,000,000, and that the shipyards of the United States had already orders for vessels that would aggregate a construction cost of \$160,000,000, with full two years work at present capacity.

ing by that term the actual executive and operative management—are associated with the management and the ownership of the property. It is commonly understood in the financial circles that Mr. Vanderlip is now the chief factor in the direction of the properties which Mr. Huntington created and with which General Hubbard was so long associated.

This institution is now recognized as the central influence in the Southern Pacific system. But it is not said or believed that this influence is to be exerted with a view to make great gain possible for a few, but instead for the healthful development of the entire southwest.

ENSIGN IS ACCUSED OF STEALING PAPERS

Damaging Evidence Is Given Against Nelson, Honor Graduate of Annapolis.

Annapolis, Md., June 22.—Direct testimony was given today against Ralph MCK Nelson, of Peekskill, N. Y., who stood third in the class that graduated from the naval academy last month, and who has been recommended for dismissal by Superintendent Fullam for alleged cheating in an examination. Nelson was accused of having stolen papers, other than those referred to in the original charge, by Midshipman James E. Waddell, called as a witness today before the court of inquiry, investigating irregularities in examination papers.

The witness said that on one occasion, when he and Nelson had surreptitiously entered the department of marine engineering to look at the private card index containing their marks, he saw Nelson take from a desk some sheets on which were problems to be worked out in turbine engines.

Waddell, who was a member of the former third class, was brought into the case by the testimony yesterday of Ensign I. M. Graham, who told of revelations he claimed Waddell had made to him last week. When Graham informed Waddell he intended to tell the court of this conversation, Waddell said, according to Graham, that if he did so, he would deny it.

Today Waddell testified that he had told Graham he was willing to go before the court of inquiry for two reasons—it would incriminate several other men, and result in his dismissal. Nelson had sent word to him, Waddell said, that he had heard Waddell was going to testify against him, and had threatened to "get him" if he did so.

I wrote a letter to Nelson," said Waddell, "as near as I can remember, as follows: Graham wishes me to go before some sort of honor committee and testify against you. If you will not do this because it would incriminate several others, you have nothing to fear from anything I would say. Reagan, Keller and I have agreed to forget everything."

Waddell told of four expeditions to the engineering department to look up his marks.

LEGISLATION PROPOSED BY GA. FARMERS' UNION
Douglas, Ga., June 22.—(Special).—The committee on legislation, appointed by the state convention of the Farmers' union at their spring meeting in Dublin, will be in Atlanta in a few days. The committee will work for Congressional legislation securing to the farmer a rural credits system which will provide money promptly to meet his wants at a low rate of interest and on long time loans.

An immigration bill, so perfected as to curtail alien ownership of land against multitudes of foreigners and favorable for the great army of native tenant farmers who are tilling our fields and who need help to secure homes. The committee will appeal for school books at cost and when later conditions authorize it, that they be furnished free.

13-YEAR-OLD BRIDE SUES FOR DIVORCE
Macon, Ga., June 22.—(Special).—Mrs. Vivian Benson, who became a bride at 13 years, last November, today filed a suit for divorce and alimony from her husband, asking that she be allowed to assume her maiden name, Miss Vivian Johnson. She claims that her husband after the wedding ceremony her husband began to beat her and that since that time she had been subjected to cruel treatment. Benson is his wife's senior by eight years. The case will be heard July 3.

QUIET IN ATLANTA AND MILLEDGEVILLE; SLATON AT CAPITOL

Detachments of military and the Governor's Horse Guards remained on duty yesterday and last night in the vicinity of Governor Slaton's country home, on Peachtree road, and are still there this morning. Martial law prevailed within a radius of a half mile of the home estate, and a tented city was thrown up during Tuesday in order that the national guardmen might rest and maintain the military life necessary to continued martial operations in Milledgeville, where Mr. Frank rested.

Today he will be assigned to labor upon the farm. For the time being—until he recovers the strength lost by his two years of confinement—he will be given light tasks; later he will be given the work of the average prisoner. Late Tuesday afternoon he reported that he was feeling in fair physical condition. He was cheerful. He smiled and chatted with prison officials. Many of the prisoners, their curiosity excited, found him an affable conversationalist at times.

All is quiet in Milledgeville, too. It was reported: Officials say there is no evidence of trouble now or even in the past.

Patterson Visits Farm.
Prison Commissioner T. E. Patterson visited the state farm at Milledgeville yesterday afternoon, where he talked with Leo Frank and conferred with prison officials. He was assured that normal conditions had been restored.

No disturbance of any nature was reported at Milledgeville or the adjacent county.

STARNES IS HELD TO FEDERAL JURY UNDER DRUG LAWS
On the charge of giving excessive doses of morphine and other narcotics to patients addicted to the drug habit and for alleged faith in practicing the federal anti-narcotic law Dr. W. A. Starnes, defendant of a state indictment for drug patients, was bound over to await the action of the federal grand jury by United States Commissioner W. Colquhoun Carter yesterday.

FIVE-FOOT ALLIGATOR CAUGHT ON TROT LINE
Waycross, Ga., June 22.—(Special).—While at Watertown, on the Satilla river, yesterday Ed Murray and J. E. Phelan caught a 5-foot alligator under rather unusual circumstances. They were in bathing when Murray decided to see if one of the set lines near him had anything on it. To get to the line he waded across most of his neck. Pulling up the line he felt something heavy on it, and kept pulling to satisfy his curiosity. He cut the line in two before the head of an alligator showed on the surface. And it was less than a minute before there were two bathers trying to outdo the other in a sprint to the river bank. Safety first was what they held in mind. They gave ample evidence of their better judgment when they got beyond what they considered the danger zone they brought the gator in and he is now a member of the fishing camp's zoo at Watertown.

U. S. TO PUT LIGHTHOUSE ON ISLE NEAR SAVANNAH
Macon, Ga., June 22.—(Special).—Arthur Codrington, United States district attorney's assistant, left for Savannah today to investigate for the United States government the title of Long Island, a strip of land out from Savannah. The island is uninhabited and is composed of marsh lands that are inundated by the spring tides.

SPEER GIVES CONVICTS TIME TO MAKE CROPS
Macon, Ga., June 22.—(Special).—In the United States district court this morning Judge Emory Speer suspended sentence on thirteen persons convicted of violation of United States laws in order that they might return to their homes and make their crops, thereby preventing loss to the merchants and farmers of the state. At the same time the action of the court, according to some of these persons, is that their families will be kept from want, and that homes, now mortgaged, will be saved.

CHAS. STUCKEY KILLED BY COCHRAN FARMER
Cochran, Ga., June 22.—(Special).—Howard Jones, a prominent farmer living near here, shot and killed Charles Stuckey yesterday morning. Jones and Stuckey had a petty argument some time ago and neither could get along. Stuckey is said to have remarked that he meant to kill Jones. He made several attempts to gain a gun on Sunday and visited the Jones home several times. Jones refused to let him in and made a motion as if to draw a pistol. Jones fired and Stuckey fell dead. Afterwards it was found that Stuckey was unarmed. Jones will probably be indicted. Stuckey leaves a wife and several small children.

GENERAL COUNCIL EXPECTED TO PASS WHITE ORDINANCE

The outlook for a number of the applicants for poolroom licenses appeared gloomy Tuesday when it was reported that a majority of general council members would turn down at the adjourned meeting next Monday all poolrooms operated in connection with beer saloons.

If council passes favorably on the ordinance of Councilman J. C. White, of the seventh ward, which contemplates separating poolrooms from beer saloons, it will be unlawful for such applications to be granted.

ROME GIRL INJURED IN AUTO ACCIDENT
Rome, Ga., June 22.—(Special).—Miss Katherine Graves, daughter of W. L. Graves, of this city, was injured in an automobile accident here on the Kingston road. The car of A. E. Arrington, in which Miss Graves was a passenger, had been stopped at the roadside for some repairs. A car driven by Cliff Seay had stopped to assist the party in trouble, and a third car, driven by J. E. Berry, collided with the Seay car, wrecking both cars.

COUNTERFEITER IS GIVEN THREE YEARS
After an indictment by the federal grand jury and a plea of guilty to the charge of making spurious coins, J. A. Ezarney, of Gwinnett county, was sentenced yesterday to three years in the federal prison and a fine of \$500 by Judge Newman. Ezarney, who is 18 years old, was recently arrested by Sergeant Bullard at 89 1/2 Piedmont avenue, while in the act of making counterfeit nickel. A large number of counterfeit coins and a complete set of tools were found in his possession.

Twenty-Eight Are Fined By Recorder For Conduct Monday

Twenty-eight men and boys, ranging in age anywhere from 18 to 70 years, were arraigned before Recorder Johnson Tuesday morning and afternoon, charged with refusing to comply with officers' requests to move on during Monday's excitement.

In most of the cases where officers were not certain whether violations would warrant a fine or not the offenders were released. Twelve out of the twenty-eight were assessed a fine of \$5.75 and one was given \$10.75.

THE BROKEN COIN

The Shattered Dough is on tap—

“Large aches from little toe corns grow.” (No, it aint new. First uttered by Pericles after a long hike from Rome to Spartacus). Half a crazy coin lying innocently in a curio window started more of a mess than the preacher who kissed the fat soprano in the choir. It led to THE BROKEN COIN, the Universal's gingersy serial written by Emerson Hough during one of his mad, mad moments.

The Broken Coin begins this week in all of America's foremost moving picture houses.

The leading sprites in its performance are *Francis Ford* and *Grace Cunard*, two of our own screen stars who say they are celebrated—and we guess they are. Most of the picture was made at Universal City—the wonder city of the universe—where we have pieced together seven parts of the civilized and uncivilized world.

It goes with an insane rush. There isn't an instant of slow action.

It's swift as a Nebraska cyclone and Grace Cunard has a pal in the play who can lick his weight in wild cats—and does. It is weird, thrilling, blood-freezing and blood-curdling. It interests old and young and middle-aged. It's the kind of a picture play the whole family likes. And if you want to see it, all you've got to do is to say so to the manager of your favorite theatre. All he's got to do is get it.

AMERICAN WARSHIP HURRYING TO HAITI

Revolution Has Broken Out and Marines Have Landed From French Cruiser.

Washington, June 22.—Admiral Caperton, with his flagship, the cruiser USS Albatross, is en route from Vera Cruz to Cape Haitien today to relieve marines landed there last week by the French cruiser Des Cartes to preserve order. Haiti is turbulent again as the result of the overthrow by revolutionists of the late President Saïm, the little republic's eighth executive in seven years.

PARDON IS REFUSED TO WOMAN KIDNAPER

Harrisburg, Pa., June 22.—The state board of pardons tonight announced that it had refused to recommend pardon for Mrs. Helen Boyle, the accomplice of James Boyle, her husband, in the kidnaping of "Billie" Whittier at the home at Sharron, Pa., in March, 1912.

PROHIBITION FORCES SEEK DRASTIC ACTION

Demand Passage of Several Bills by Legislature and Abolition of Beer Saloons.

Attended by about fifty prohibition leaders of the state the convention at the Baptist Tabernacle Tuesday adopted resolutions urging the legislature to strike from the statutes measures to assure absolute prohibition in Georgia. The resolutions provided for the enforcement of the Webb-Kenyon law, which forbids the shipment of whiskey from a wet to a dry state; the abolition of liquor saloons and the prohibition of liquor advertising in the press of Georgia.

The committee drafting these resolutions and presenting them to the convention followed by Judge W. R. Hammond, chairman, Atlanta; R. H. Farrell, Albany; J. R. Beall, Blythe; W. D. Upshaw, Atlanta; W. S. Witham, Atlanta; James King, Jefferson county; J. Z. Foster, Marietta; C. P. Kilpatrick, Waynesboro; H. A. Ledbetter, Newton; W. O. Hammond, of Coleman, and six members of the legislature.

Dr. J. L. White, president of the Anti-Saloon league, called the convention to order and J. Z. Foster presided over the morning session. One of the features of this session was the address on "Civic Inefficiency Caused by Liquor" by Dr. R. H. Kime. It was an arraignment of the conditions due to alcohol and the convention ordered that it be printed in pamphlet form for distribution.

Chief Justice S. D. Wenkley, of Alabama, addressed the convention during the afternoon session which was presided over by W. S. Witham. He explained why the prohibition laws in Alabama really prohibited. He also discussed the anti-shipment bill which places the burden of proper delivery upon the common carrier.

Warren Corbitt, the Baltimore star, was unexpectedly eliminated by Dr. M. K. Neiffer, of the home club, J. N. Stearns, III, of Nassau, fell by the wayside. Travers easily disposed of W. H. Gardner, II, of Buffalo.

by-five years. Nevertheless, we have made wonderful gains, until today there are 51,000,000 of the inhabitants of the United States living under a no-liquor law. I am not a prophet, but as a young man who reads the signs of the times, I will say that within the very near future Atlanta will be growing under a no-liquor law.

Resolutions adopted by the convention followed: That we do solemnly protest and cry out against this disregard and defeat of the will of the majority of the people through a mistaken and unjustifiable revenue policy, as expressed in the so-called "near beer" and "tucker club" licenses which have been so outrageously abused, in the political trickery and indirection which have defeated necessary reform measures in the lower house of the general assembly and in the reaction and emergency of municipal councils which have made certain cities of the state imperium in imperio, or governments within a government, using the charters of these cities to repeal the statutes and through the constitution of the state, thus lawfully following upon the streets of Atlanta the local dailies would get out extras covering the incident, but there is not one of them which will take a stand against the ruinous liquor traffic.

Resolved first, that we do solemnly protest and cry out against this disregard and defeat of the will of the majority of the people through a mistaken and unjustifiable revenue policy, as expressed in the so-called "near beer" and "tucker club" licenses which have been so outrageously abused, in the political trickery and indirection which have defeated necessary reform measures in the lower house of the general assembly and in the reaction and emergency of municipal councils which have made certain cities of the state imperium in imperio, or governments within a government, using the charters of these cities to repeal the statutes and through the constitution of the state, thus lawfully following upon the streets of Atlanta the local dailies would get out extras covering the incident, but there is not one of them which will take a stand against the ruinous liquor traffic.

Resolved second, that we do, here and now, call upon the members of the legislature so soon to assemble to make the correction of this unjust policy, and this resolution of the anti-shipment bill, which places the burden of proper delivery upon the common carrier.

ULTIMATUM IS ISSUED TO STRIKING CARPENTERS

Chicago, June 22.—An ultimatum to members of the Carpenters' union, on strike for more than a month, was issued today by E. M. Craig, secretary of the Building Construction Employers' association.

The ultimatum said unless the striking carpenters accepted arbitration by Saturday every mill, lumber yard, cement, brick, stone and every other building material agency and plant in the Chicago district would be shut down. Should this action be taken it is estimated between 1,500 and 2,000 men will be added to the 18,000 already out of work as the result of the strike.
