WILL ISSUE NO PASSES FOR HARVEST FESTIVAL

Censorship Committee Is Appointed to Review Floats in Big Parades.

Two important orders have just been issued from General Manager Edward Young Clarke's office concerning the Georgia Harvest Festival.

The first announced that no passes were to be issued except to newspapers.

The only exception to the general order is the case of persons in costume to take part in the coronation scene on Monday night and those in costume taking part in the pageant on Tuesday night.

Those who are actively engaged in work will be furnished with an admission button and the color of button used each night will be different.

The second order issued was to all committees in charge of parades calling their attention to the fact that a censorship committee had been appointed and was in absolute authority as to what floats should be barred from the parades.

This committee will be at the point of starting of every parade and any float or other entrance into any parade considered improper will be barred from entering the parade. The action of the committee will be final.

This order resulted from the announcement that certain parties were anticipating floats or making entries in some of the parades which would not be considered proper by the majority of the citizens of the city.

This committee has also been given the duty of censoring the tent shows of the Con T. Kennedy people and any show and any float or other entrance into any parade considered improper will be closed or modified.

The censorship committee is composed of H. G. Hastings chairman, Charles J. Haden, St. Elmo Massengale, Brooks Morgan and Wilmer L. Moore.

EXHIBITS BY NEGROES AT DOUGLAS EXCELLENT

Douglas Ga. November 14—(Special)—The educational exhibit of negroes at the fair grounds yesterday was very creditable. Beautiful New Stage Star Will Be Seen in "Outcast"

MISS JENNIE EAGELS, Who will play role of Miriam, the outcast, at the Atlanta November 22 23 24

When "Outcast" is presented at the Atlanta theater on November 22 23 and 24 Charles Frohman and Klaw & Erlanger will introduce a new positive genius to their local patrons. This genius is Miss Jennie Eagels who having her first big chance to play a really big part and who has made such a sensational hit that it is freely predicted on all sides her name will not be long from Broadway stardom. "Outcast" is a play by Hubert Henry Davies and is an exquisite graceful composition which is a model of perfect English and which is proclaimed brilliant in the extreme. It comes to Atlanta with a perfect London company, the cast being exceptionally strong and capable. It is a play of a year's run in New York and starting in a way in speaking of "the work of Miss Eagels Douglas Gordon in The Richmond Dispatch said "The Outcast of Jennie Eagels is very real art. Many conditions must be portrayed ranging from grain like suspicion and drab vulgarity to aching pangs and utter despair and Miss Eagels does all of them with a sure and delicate conception and execution. Her gradual change from the twang of her first entrance to the English of her associates is but one instance of the technique with which she is fitted. The Norfolk Virginian Pilot declared "Outcast" a thrilling play—a gripping drama of human emotions and spoke of Miss Eagels as follows: "Jennie Eagels is a revelation in the characterization of Miriam, the outcast. As an emotional actress Miss Eagels equal has not been seen here in a long time."

Madam, Allow Me To Introduce the New Post Toasties

You may have eaten "corn flakes" but you have never tasted any that equal the New Post Toasties.

These new flakes, madam, are crisp and flakey, and have a substance and toastie flavour, a snap and zest that make them distinctive.

Dainty to be sure in their sweetness, the New Post Toasties have a body and firmness that don't mush down when cream or milk is added; and a true ripe-corn flavour that makes one feel that here, at last, is something really new and good to eat.

New Post Toasties—selected Indian corn, prepared for the table as it was never prepared before.

Your grocer has them now.

With the Store Aglow With the Glory of the Autumn Woods and Fields, We Invite Atlanta and Her Guests to

Our Second Annual Harvest Week Display

A year ago we went out into the woods and fields of Georgia to find a decorative scheme for the store, one that would bring home to our people the fundamental strength and stability of our state—one that would typify our abiding confidence in her. We made the store beautiful with the fruits and foliage of nature, and this was in the year of all when the south was struggling under its heaviest difficulties of half a century. But the idea "took," it spread, it did good, and now today when Georgia has demonstrated her ability to do, TO GO AHEAD, having overcome more in the short space of a

year than even the most sanguine thought could be done in several, we have again gone into the autumn woods and fields for another and a better and a more beautiful "Harvest Week" Display.

So today our store presents a scene which we are proud to say could hardly be possible outside of Georgia, certainly impossible outside of the south.

So much for the store. We trust you will come to see it as a part of a week of sightseeing—but the merchandise, the merchandise, the merchandise!

WE DO BELIEVE THAT

Our This Week's Visitors and Our Own Home Folk Will Find This Store Their Really Satisfactory Shopping Center

We base this belief upon the efforts we have put forth to make the store just that, for earnest endeavor, backed by sincerity of purpose, has a way of accomplishing things. We have filled our store with DEPENDABLE, WORTHY, GOOD MERCHANDISE.

We have not concerned ourselves with the catch-penny sort of doubtful quality and style.

Such isn't the deserving, it isn't the SERVING kind. Everything that you purchase here is as RIGHT as we can make it; as right as trained men and women going into the great markets of the world can make it.

The process of raising quality to a higher level is one of perpetual motion here.

Among Those Things Which We Have Been Especially Successful in Collecting For Harvest Week Are

Suits, Evening Dresses, Velvet, Velour and Plush Coats

**Suits at
\$19.50 to \$35.00**

We would emphasize their value, not with the claim that they are worth more, but with the statement that they are **superb** at their respective prices, \$19.50, \$25.00 to \$35.00.

Seeing will prove so much!

Take those at \$19.50; some one hundred suits to choose from—each one sparkling with some little style-point new right now. It may be a whipcord, a broadcloth, a serge trimmed with fur, or it may be plain. There are more than two hundred at \$25.00 and \$35.00, broadcloths, diagonals, whipcords, serges. Furs are used bountifully, and **smartly**. At all prices, model after model, with belted coat and gracefully flaring skirt.

**Evening Dresses
\$19.50 to \$35.00**

Evening Dresses at \$19.50, \$25.00, \$29.50 and \$35.00! Somehow (and the somehow could be explained) they are prettier, daintier at these prices this season than they have been in any other season.

And what could be more appropriate than that we should bring the display to its finest point this week?

We will not confuse you with descriptions other than to say that the most popular modes of the season are in full array. We mean the Neptune (washable) satins, the taffetas, the charmeuses, and a host of tulle and nets, these often done into glorious "rainbow" effects.

**Pile-Fabric Coats
\$19.50 Upwards**

Their vogue is supreme.

Velvets, velours and plushes, a triumphant trio, so to speak.

It is significant that while some of the great coat houses of New York have abandoned all hope of securing supplies of these fabrics to make into coats we can announce for the Harvest Week Display newly augmented stocks. A splendid host of them came Saturday.

Many models—belted all around, belted in the back, belted in the front, belt-less. Flaring skirts, now and then edged with a band of fur. Collars are usually close-fitting and fur-trimmed.

THE SOUTHEASTERN FAIR.

With a quarter of a million dollars subscribed by Atlantans for the establishment of the Southeastern Fair the least than six months ago and half of that amount already invested in two permanent buildings which have just been completed the fair association is presenting, the first year not only a creditable agricultural display in the Georgia boys corn show the girls canning club show and the agricultural and domestic products exhibit from thirteen southeastern states under the auspices of the Southern furalist but it is bringing to Georgia farmers a message of prosperity which they can not afford to ignore.

see this show without fail. There is more of substance and promise in it to Georgia's future than in any other exhibition of the sort heretofore made within the confines of the state.

DON'T WANT THE TRUTH.

That certain publications up in the east, and, apparently, many of their readers, who have long indulged in criticism of alleged conditions in the cotton mills of the south, do not want the truth about the situation and would not have it if they could get it, is strikingly evidenced in an incident detailed in an editorial from The Boston (Mass.) Journal of Education published in The Constitution today.

In this editorial it is pointed out that a brief article detailing the very excellent conditions that surround the employees of the cotton mills at Rock Hill, S. C., was furnished by Dr. A. E. Winslip, of Boston the editor of The Journal of Education and a very distinguished American—to an eastern magazine for publication as showing indubitably that there are mills in the south to which the criticisms upon which it has long fed its readers regarding southern mills, could in no sense apply.

When a thing is on the whole very bad," says the editor of this magazine in rejecting the article relative to the Rock Hill mills, "it is not good policy to pick out a good thing in it and praise it."

Besides asserting the very remarkable doctrine that what is good must suffer condemnation along with the bad the editor of the magazine in question continues his wholesale denunciation of southern mill conditions even in a personal letter the spirit of which is too evident in the policy of pandering to a certain class of subscribers who don't know the truth don't want to know it and reject it when it is put before them.

The Rock Hill mills in which Hamilton Carhart, a manufacturer of national reputation and noted humanitarian instincts, is largely interested are by no means singular among the mills of the south in the matter of conditions as to education recreation and other facilities for the betterment of the moral and mental welfare of their employees. We could point them out by the dozen in the Carolinas, in Georgia and in other states of the south where conditions surrounding the employees are being constantly improved as mill managements become able to do it.

Doubtless, if we sought them, we could easily find conditions in the New England mills today just as much subject to criticism as any which have ever existed in those of this section, if not in one direction at least in another.

Generally speaking mill conditions here will compare favorably throughout with those of the north and east. But we have no desire to adopt the policy of recrimination. We would prefer to be loyal that the people of New England are just as earnestly interested and just as much engaged in the work of improving mill conditions in their own section as we are here in the south in the betterment of our own surroundings.

JUST FROM GEORGIA
The Lifting Song.
No doubt you've all heard singing that called you along—The kind that carried you 'neath the liftin' halleluia-reach in' song 'Round the soul of you got restless, and durtin' when about Went on the upward journey—reached heaven with a shout.

That was the kind one gave em—that made em all rejoice. With the sweet immortal feelin' of the soul that's in the voice. There's never no misadventure in—you get the feelin' when They break into the music with 'Glory' and Amen.

Singin' time'll soon be done—here where the homeless roam. But we'll recognize that music across the hills of Home. With angels for the audience well hear the same notes rise—Twill be sweeter music ringin' round the everlasting skies.

It is not anticipated that D. I. McClinton secretary of the senate or Colonel John H. Bostwell clerk of the house will have any opportunity for their offices and in fact any effort to unhorse either of them would likely prove futile, so firmly are they established.

New England Educational Journal Criticizes Narrowness of Eastern Magazine

(From The Boston (Mass.) Journal of Education) We are using an article this week upon The Mill People of South Carolina, which we sent to a magazine from which it was returned with the following letter.

Dear Dr. Winslip: I hate to return any thing you write but I am sure that this article will be of great value to our southern subscribers but with our many subscribers who know well the evil situation in the cotton fields of the south it is like an article that would seem to extend it though of course that is the very opposite of your purpose.

To our thinking there is every reason why such an article should be used in a northern magazine for the good primarily of northern readers and secondarily for the good of southern readers.

It is infinitely better to make by second contagion than to magnify the bad by sectional abuse. The Leo Frank incident shows how disgusted the south is over the northern habit of lecturing the south.

It has become a northern passion to abuse the south. In this case an editor deliberately says that it is not wise to praise by a truthful statement a decidedly good thing in the south because the north knows how general it has been in the south.

The south is full of good things. There are as good things in the north as in the north though of course (?) there are not as many good things there as in the north.

Auburn-Tech Game Has Dopesters Wool Gathering; May Muddle Southern Title

By Dick Jemison.

Tech, Georgia, Auburn, Vanderbilt, Sewanee, Alabama, Tennessee and all the other leading eleven of this section have an off day Saturday. Thanksgiving will be the date of their next contest.

This gives plenty of time for reflection and for the choice of a champion in this section and the usual mythical all-southern picks.

Virginia is the logical southern champion but Virginia is not considered in this section, among the teams mentioned above, just the same as Texas is not included, either Virginia is in the South Atlantic division.

This would seem to leave it a clean slate for the Vanderbilt Commodores after their splendid work in defeating the heretofore unscathed upon Auburn eleven at Birmingham Saturday.

Yell Was Muddy Waters.

But the Tech Yellow Jackets must still be figured despite the fact that they were tied by Georgia on Thanksgiving Day, and they have a splendid opportunity to muddy the waters.

It all depends on the size of the score. Should the Jackets defeat Auburn by a large score than they were defeated by Vanderbilt, then the Jackets could justly lay a claim to the title with as equal force as the Commodores, despite the tie by Georgia.

It is possible that the Jackets can accomplish this, though not probable. They will face an even better eleven than Vanderbilt did. Not only will the Auburn eleven know more football, but it will be in better physical condition.

By Thanksgiving day Hairston and Campbell will be able to play the games of their careers against the Jackets, and the defeat at the hands of

the Commodores will act as just the same tonic as the defeat by Virginia apparently acted on Vandy. It will be a spur. It has taught the Plainsmen some lessons that the coaches could never have driven home, and it will add more determination.

Jackets at Height.

But on the other hand, the Jackets will also be improved. They will have their captain back in harness. They will be prepared to cut loose with everything in their bag of tricks and plays.

With Morrison in splendid condition, ready for a grueling battle and directing the team from quarter and backing the line on defense, the jackets' entire attack and defense will be immeasurably bolstered.

Every football team seems to have a bad game in its system once during a season. Vanderbilt had hers with Virginia, Georgia had hers with Auburn, Auburn had hers with Vanderbilt and Tech had hers with Georgia.

No matter how you argue, the dope veers just as much to the Plainsmen as it does to the Jackets.

The game has the dopesters guessing. They do not know how to figure it out. As for our part, we are in exactly the same fix. We fail to see any way out to date it at this time. Maybe we will later.

A Record Crowd.

It is believed, though a holiday and with clear weather, that the crowd that attends the game will surpass even the wonderful crowd that thrived the horrible day and saw Tech and Georgia play Saturday.

In this connection we like to make the two teams a suggestion: Get Referee Nichols, who handled the Georgia-Tech game, to referee the contest. In fact get the same official, if possible, of course, with the exception of Arnold, as he is an Auburn man.

CORNELL LEADING EASTERN ELEVEN

Ithacans Have Rolled Up Most Points—Syracuse Is Second—Colgate Is Scored Upon at Last.

By scoring 40 points in the game with Washington and Lee Saturday, Cornell, regarded as the best eleven in the east this season, took the lead in points scored by the eastern teams for the season.

Syracuse in second place, accomplished two feats. She defeated her old rival, Colgate, and registered the first points scored against the Colgate team this season, which eliminated the latter from the championship intentions.

Pittsburg is the only other undefeated team in the east besides Cornell. Here are the points scored:

| | |
|------------|----|
| Cornell | 40 |
| Gettysburg | 34 |
| Oberlin | 34 |
| Williams | 34 |
| Bucknell | 34 |

Two of Tech's Gridiron Stars

On the left is Wisdom Goree, the Yellow Jackets' fleet-footed end, who will bring his career at Tech to a close in his game against Auburn Thanksgiving day. On the right is Fullback Spence, who has proved a factor in the Jackets' attack this season. He is shown about to drop the ball for one of his famous drop-kicks.

HARVARD TO FACE FIERCE STRUGGLE

Bulldogs Have Recovered Poise and Will Give Crimson Stiff Argument Next Saturday.

The Harvard Crimson will face their hardest game of the season next Saturday when they line up against their ancient rivals, the Yale Bulldogs.

The advantage of Yale, coached in fundamental football, which it was lacking, defeated Princeton last Saturday and Tom Smith, who took charge of the "Reds" is the hero of the hour at New Haven.

Smith's feat in whipping the team into shape for the Princeton game and a victory was a tremendous achievement, and that the Crimson will have a heavy afternoon of it next Saturday cannot be gainsaid.

This will mark the thirty-sixth meeting between the two eleven. Of the thirty-five previous games Yale had won 23, Harvard 7 and 4 have satisfied the requirements of the seven Harvard victories have been scored in the last three years while the two years previous to that the score was 9 to 0 Yale's last victory over Harvard was in 1909.

Here are the former scores:

| 1883—Yale 27 Harvard 0 |
| 1884—No game |
| 1885—Yale 15 Harvard 0 |

COMMODORES ARE POINT LEADERS

Springing the surprise of the day Saturday, the Commodores have the honor of being the first team to cross Auburn's goal line in two years, and they may go out to do it at this time.

In points scored, the Commodores are leading in their country. Tennessee comes second in points made this season. Here are the scores:

| | |

views of the Italian and Austrian governments the former claiming the Ancona was torpedoed by a German submarine while her boats were being lowered and the latter admitting that an Austrian submarine was responsible, but declaring ample time was given passengers and crew to escape.

Until the embassies at Rome and Vienna cable definite information, the American government can take no steps diplomatically.

May Be Like the Falaba. From the Austrian statement as quoted in the press dispatches officials thought the case might develop a parallel to that of the British steamer Falaba, torpedoed by a German submarine with the loss of Leon C. Thresher, an American citizen. In that case, the vessel was warned, but was torpedoes before the German submarine commander believed the ship had summoned help by wireless or was attempting to escape. A settlement never was reached on account of the conflicting testimony.

The Austrian statement with reference to the Ancona makes it appear that the vessel after she was halted did not put her passengers off in the boats in the forty-five minutes time given for that purpose. The appearance of another ship is given as the reason for torpedoing the vessel at the end of that period. Although being sunk without warning, no case has as yet developed the view of the Washington government as to what the cause of the sinking for the purpose beyond the general statement that all passengers should be removed to a place of safety as provided in the declaration of London.

New Phase Late Controversy. The charge made by the Austrian authorities that the crew of the Ancona was notified and that the passengers might have been saved but for the panic has introduced a new phase into the submarine controversy. Although being sunk without warning, no case has as yet developed the view of the Washington government as to what the cause of the sinking for the purpose beyond the general statement that all passengers should be removed to a place of safety as provided in the declaration of London.

ITALY PROTESTS TO NEUTRALS. Rome, November 14.—(Via London.) The Italian government has sent an official communication to the neutral governments dealing with the sinking by a submarine of the Italian liner Ancona. The note declares that the Ancona was not carrying arms or contraband or persons in belligerent military service, or that there were any circumstances justifying such an attack as a necessity of war.

ANCONA FLEEING, AUSTRIANS CLAIM. Berlin, November 14.—(By Wireless to Cable.) The Italian steamship Ancona attempted to escape at full speed after a warning shot had been fired and that the vessel only stopped after she was shelled several times by an Austrian submarine, says the Overseas news agency.

The submarine commander, it is asserted, allowed the Ancona to proceed until she was within a few minutes of the ship after which the vessel was torpedoed. A report that the submarine fired on lifeboats is denied.

A statement issued by the Austro-Hungarian admiralty, after declaring that the foreign press had spread rumors of the sinking of the Ancona, says the sinking took place as follows: "The submarine fired one shot in front of the Ancona's prow whereupon the steamer fled at full speed, in accordance with the order issued by the Austrian authorities which instructs ship commanders to flee or to sink the submarine. The Ancona continued to flee until she was shelled several times by the submarine. The vessel was then sunk by a torpedo. The Ancona was carrying passengers and crew to safety. The submarine fired on lifeboats."

stop and then the crew only saved themselves and not the passengers. The foreign press that the Ancona was torpedoed by a German submarine while her boats were being lowered and the latter admitting that an Austrian submarine was responsible, but declaring ample time was given passengers and crew to escape.

Rome, November 14.—(Via Paris.)—Star at Rome, November 14.—The American ambassador has been able to ascertain from official reports received from the Italian government and from the British consuls at Bizerta and Tunis the following American citizens were on the Ancona: Dr. Cecile L. Of these only Mrs. Greil and Torrisi are among the survivors.
